

Trial of Depraved Gang Tomorrow

Humane Officer Says it is the Worst Case on Record

Frank Wolf and his alleged wife, Rose Wolf, Jas. Gladstone and John Willard are the principals in one of the worst cases of human depravity which State Humane Officer Lang has ever come in contact with, the victim being Margaret Moore, a 14-year-old girl. The men are in jail here, the Wolf woman is detained at a local hotel and the unfortunate girl is at the H. C. Gaines home.

As the story goes, the girl was left at the Wolf home near Galbreath. The man Wolf is charged with outraging the girl, aided by the Wolf woman. The girl made several futile attempts to escape and was threatened with her life. Finally she did get away and made for the Canadian border, but fell into the hands of Gladstone and Willard, an Indian and a Mexican, where she was kept a prisoner and was subjected to depravity unspeakable. She again made her escape from the fiends and came to Browning, where she was cared for and the case reported to the humane officer, who took prompt action, aided by Indian Agent Ellis. The four above named were arrested for trespassing on an Indian reservation and brought to Cut Bank, where they will be tried tomorrow, Saturday.

The humane officer, Indian agent, County Attorney Greene and others will be here to prosecute on a number of charges and no doubt the case will prove a sensational one.

Rustler Sent Up

The man Ray, who in company with one Abel was run down by Inspector Sellars last week, was tried in district court at Choteau and sentenced to from 1 to 3 years. Abel was taken to Choteau on direct information by Prosecutor Greene. His bonds were placed at \$1,000 while he awaits trial. Vigorous action of the kind noted above, we should have more of.

"MONEY"

The mint makes it and under the terms of the CONTINENTAL MORTGAGE CO., you get it at 6% for any legal purpose on approved real estate. Terms easy. Tell us your wants and we will co-operate with you. PETTY & CO. 518 DENHAM BLDG. DENVER, COL.

Say, Gentlemen

Did you ever stop to think that if we put over a crop this fall, there will not be a foot of vacant land between the Marias river and the Canadian line?

And FURTHERMORE, that the relinquishments for sale in this country will be as scarce as the Kaiser's picture in an English home.

Browning

There has been a little activity in the horse market and a few car loads have been taken off the Reservation.

Our old friend, L. Loomis, has again opened up his barber parlor and his old customers are flocking back to him.

Mothers day was observed at the Presbyterian church. It is a beautiful custom and one that will grow as the years roll on.

The postoffice lobby will be opened on Sundays from one to six o'clock. This is a good idea and we all appreciate Mr. Whistler for the privilege.

There will be competition in the garage business, as Robert Clarke and P. Des Rosier are pushing their buildings to completion to see who will be first in the field for business.

Another go at that hill to the depot and it will be a first class job. It needs grading yet, and now is a good time to make it a finished and at the same time a first class piece of work.

We have often tried to figure out who is getting the most real pleasure and enjoyment out of the autos here in Browning, and we finally decided that L. Loomis was entitled to the prize.

If the parties taken to Helena from the north last week are guilty of the crime charged we hope they will get the full penalty so that in future it may be a warning to others of their kind.

The quarantine against horses going from the United States into Canada has been let down, according to Jas. McDougald, who has been buying horses on the Reservation for the past twelve years.

We sometimes think that our young boys have not the carriage that youth should have. We like the boy who walks along with his head up, his shoulders squared and lots of action in his legs.

If you want to see some enjoyment step around to Mr. Fillers' and see the amount of pleasure given to everybody on the croquet grounds beside his house. You don't have to be a privileged person, either, to get into the game, as everyone is welcome. Let us have more of this.

The baseball team is at it again this year and we hope they will make this season longer than that of 1914. Even if we cannot get the crack teams to come to Browning we can have a game now and then with some local club. It's good exercise for the boys and it puts ginger into them.

Rural Routes For Headlight Section

Local Postmaster Authorized to Establish the Routes

The local postmaster has been authorized to establish a rural route from Cut Bank beginning June 16, 1915. The route is to designated No. 1 and delivery is to be made three times a week, Tuesday, Thursday and Saturday. The carrier will leave Cut Bank at 7 a. m. returning at 4 p. m. The route is about 28 miles long and is exactly as described in this article.

The order for the establishment of this service will be postponed or rescinded, unless a certificate is received from the local postmaster, not later than June 1st, 1915, to the effect that at least 81 families have qualified as patrons either by erecting approved boxes on the proposed line of travel or filing, with the postmaster at Cut Bank written agreements that they will join with others in the use of boxes, in accordance with the postal laws and regulations there to pertaining. The postmaster is asked to and will, endeavor to protect prospective patrons against the purchase of boxes until assured that the full number required to insure the establishment of the service will be erected.

Official description of the Rural Mail Route No. 1, of Cut Bank, Teton County Montana, as established, effective June 16, 1915.

Presbyterian S. S. Notes

Mr. Marlow's class at a business meeting Wednesday night adopted temporary by-laws and elected F. W. Egelston president in place of Edwin Berger, resigned. It was decided to give an entertainment in honor of Mr. Marlow some time next week, and a committee was appointed for that purpose.

Two more organized classes have been reported—"Mizpah," the senior girls, taught by Mrs. Keenholz, and "Sunshine," the intermediate girls, taught by Mrs. Miller. The officers of the latter are as follows: President, Flora Ritchie; vice president, Dorothy Halvorson; secretary, LaFern Britton; treasurer, Mary Flint.

Tennis Tourney a Successful Event

Home Boys Beat Browning. Field Day For the Amateurs

VanDemark and Taft repeated the pace they set last year over Moore and Hamley of the Agency at Browning by defeating them Sunday in a five set match in tennis—4-6, 6-1, 6-3, 4-6, 4-6, 15-13, a total of 35 to 29 games. Similar to the matches last year, twas a hard fought battle. The last set went to duce and several times both sides were within a point of winning but only to lose and make the games even all. The Agency boys played a better offensive than the local champs but the latter were stronger on defense and repeatedly broke up their line of plays. Hamley made some neat plays by using his left hand skilfully. A return game will likely be played at Browning on the 30th.

The class tournament in singles was not finished. It will likely be played off some time during the latter part of the week. In the first round Dr. Hulbush won from Platts, Halvorson won from Whittecar, Bob Rasmussen won from Rigney, Anderson won from Whetstone, Andy Bakke from Andy Hoiland. In the second round Hulbush defeated Andy Bakke and Bobby Rasmussen won from Anderson.

Consigned to Earth

The funeral services over the remains of Daniel Clark were conducted at the Clark home last Saturday afternoon, Rev. Fisher conducting the service, assisted by the Presbyterian choir. The interment rites were in charge of the Odd Fellows and garbed in the regalia of the order decreed for such occasions they conducted the remains to Crown Hill Cemetery and after conducting their ritualistic ceremony consigned the remains of their lodge brother to the bosom of mother earth. A large number of neighbors of the deceased were present to pay a last tribute of respect to one who in his life had been a good neighbor, friend and citizen.

For County Agent

At their meeting last week the county board made a move that will be commended by farmers and other interests in Teton county. They made provision for the hiring of a county agricultural agent and notified the president of the state agricultural college that the \$100 per month required was appropriated by the county. The college will be expected to pick a competent man and it is to be hoped that this county will secure an able and aggressive agriculturist. In other states county agriculturists are working wonders and the idea is spreading over all the agricultural sections. The board made a wise and timely move.

Jas. A. Johnson, mayor and prominent business man of Shelby, chaperoned a party of fellow townsmen to Cut Bank Tuesday afternoon.

Dies Suddenly

T. R. Carr, one of the real pioneers of this section, was found dead in bed at his home yesterday at one o'clock. When last seen Mr. Carr was in apparent good health. The physicians pronounced his death due to apoplexy. Mrs. Carr was at Glacier Park but arrived home last evening. The news of Mr. Carr's sudden death caused sincere regret about town. Obituary next week.

Busy Browning

T. J. Larson and M. H. Johnson autoed up to Browning last Friday and spent the afternoon in the Agency city. T. J. says that Browning is the liveliest town for its size in Montana. The stores were crowded on that day, transportation outfits swarmed the roadways and a general air of "busyness" prevailed. Messrs. Larson and Johnson had a visit with Mr. Ellis, the new Agent, and found him a very cordial gentleman.

Want Cement

Since the cement walks have been put down on the east side of Upper Main there has been a great deal of comment on the improved appearance of the property on which the walks front and the other property owners in the city have caught the cement walk fever. There is talk of petitioning the town council to lay walks along the west side of upper Broadway, on both sides of Lower Broadway and on the east side of Upper Main. Those who advocate these improvements argue that this is the season to do it, and since the outlook is so promising for a revival of good times in town and community all property owners seem to be in accord with the move.

We Are Neutral

This week the Pioneer Press has opened its columns to a communication from its good friend, Dr. J. D. Gold of Browning, concerning the sinking of the Lusitania. The attitude of neutrality which this paper has pursued since the war began is in no way compromised by the granting of space for contributions of this kind. The large metropolitan papers daily contain dozens of letters from readers, taking all sides on the present European conflict, yet their neutrality is not questioned. The policy which we have adopted will in no way be altered by reason of the views that may be voiced by those who may take the opportunity to express them and all will be given equal opportunity.

Fee Has Chance Say The Doctors

Young Man Kicked By a Horse Fighting Well For His Life

Bert Fee, who sustained such serious injuries by being kicked by a horse, last Sunday, has a good chance for recovery, is the report of the local physicians, who have worked so valiantly to save the life of the well known young farmer of the north country.

Mr. Fee, in company with a couple of young lady friends, was out for a drive through Meadowbrook last Sunday afternoon and while going up an incline the whiffletree on the buggy broke, frightening the horse. Fee rose to allow the girls to jump from the rig and as he did so the horse, then frantic, kicked him in the abdomen with both feet, causing a rupture of the spleen, and hemorrhage. He was rendered unconscious and remained in that condition while neighbors hurried him to Cut Bank and to a hotel, where the doctors worked almost incessantly that night and the following day. Monday evening Dr. Power of Conrad was called and aided the local doctors in performing an operation. As the number of cases on record of persons receiving such injuries shows a ten per cent chance to recover, the doctors at first despaired of saving his life and if he recovers it will surely be a tribute to their skill and faithful attendance at his bedside.

The young man has a legion of good friends in this community who are sincerely hoping that his life will be spared,

Motor Mishap

Harry Brown, a machinist at the roundhouse, was severely cut about the neck and arms, and Miss Dellamater, a teacher of the district schools, is suffering from bruises received when the motorcycle on which they were riding went through a wire fence on the Ethridge road east of here last Sunday. They did not notice the gate being up and struck it while going at a high rate of speed in order to climb a hill.

Papers to Wed

Marriage licenses have been issued to William L. Richards, 37, of Browning, and Elizabeth Hayes, 25, of Battle Creek, Mich.; Dog Ears, 44, and Louise Chiefcoward, 40, both of the Blackfoot Indian reservation.

KEEP FRESH

Solomon, the wisest of ancient mortals, once made the assertion that there is no new thing under the sun. He inferred that there never would be any new thing, and that everything on earth was a "has been." He had lost his inspiration.

Men who have lived by killing trees want to see green fields on the prairie.

If Solomon had stood on the hill south of Cut Bank this bright May morning and looked over into Headlight Valley crowned with its unfolding blades of grain and buffalo fodder, and repeated his dull remark, we should feel like saying, "This is a new world you are in; keep fresh."

If you would keep fresh, have a balance to your credit at
