THE STABLE BOY FEELS THAT ONE GOOD
TURN DESERVES ANOTHER.

IT'S a glad day for a tobacco
chewer when he finds the
Real Tobacco Chew.

Knowing how much it means
to his comfort a man takes pleasure in
telling his friends about it, too.

A little chew of pure, rich, mellow tobacco—seasoned
and sweetened just enough—cuts out so much of the
grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!!
W-B CUT IS LONG SHRED. RIGHT-CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It
will be more satisfying than a mouthful of ordinary
tobacco. Just take a nibble of it until you find the
strength chew that suits you, then see how easily and
evenly the real tobacco taste comes, how it satisfies,
how much less you have to spit, how few chews you
take to be tobacco satisfied. That's why it is *The
Real Tobacco Chew*. That's why it costs less in the end.
The taste of pure, rich tobacco does not need to be covered up. An
excess of licorice and sweetening makes you spit too much.

Notice how the salt brings
out the rich tobacco taste.

The
One
Sure
Way

To have money is to save it. The one sure way
to save it is by depositing it in a responsible bank.
You will then be exempt from the annoyance of
having it burn holes in your pockets, and aside from
the fact that your money will be safe from theft, the
habit of saving tends to the establishment of thrift,
economy, discipline and a general understanding of
business principles essential to your success.

To those wishing to establish relations with a
safe, strong bank, we heartily extend our services.

eastern Montana and is filled
with enthusiasm for that sec-
tion, which is anon to be tapped

The country around Cut Bank
is more beautiful than for many
years. Why not make the city
match the beauty of the coun-
try around it? The season is
favorable and every owner and
lessee of a home here should
plant flowers, grass seed and
shrubby. This is the first
spring that it has been possible
to use the water system for the
beautification of our home
places. Let the effort for clean-
liness and beautification of the
business and residence districts
be more marked than ever be-
fore.

learn all about the carburetors,

The Kalispell Journal of last
week radically departed from
the set policy of Kalispell
journalism by printing a state-
ment of a Kalispell citizen who
visited Cut Bank and actually
declared that "the country east
of the range looked good." If
this keeps up our Kalispell
brothers will soon be conceding
that the people in this woolly
outland are becoming so ad-
vanced in "kultur" that they
have desisted from eating their
pie with a knife.

The Galata Journal, which
has never been "benevolently
assimilated" by Toole county
or what it pleases to term the
"Shelby Ring," last week con-
tained a cartoon, drawn by am-
ateur talent, picturing the de-
puty sheriff of Toole county in
durance vile, seated on a rickety
bench, with ball and chain
dangling from one ankle, a loaf
of stale bread and a jug of water
beside him and a look of dis-
consolation on his face that
should touch to tears even the
political opponents of the vic-
tim of that harmless yet historic
"freeze-out" game.
