

You are "Better at the Bank" When Your Life is Insured in an Old Line company

ALL modern bankers look with favor on life insurance. They consider a patron a much better risk when he carries Old Line insurance on his life. Here is what one of the leading banks of Great Falls says:

The Commercial National Bank looks with especial favor on the account of the man who has his life well insured. It bespeaks not only foresight and judgment, but also increases the stability of his financial position.

Men are prone to delay this important matter. The first premium is often a seeming obstacle. A special savings account at this bank for the purpose of accumulating premiums will remove the difficulties. Life insurance in good companies will be a constant and a growing asset. Periodical deposits in your savings accounts, will provide your premiums without heavy drains on your income at one time.

The bald fact is that no man is considered a capable business man or a good "home man" unless he provides against possible death or loss of earning capacity by taking out a good Old Line policy. I have the kind that insures your earning capacity as well as your life. Let me talk with you.
