

ROSEBUD PEDAGOGUES WILL MEET

Interesting Program Arranged for the Instruction of Teachers.

Preparations are being made for the first annual teacher's institute, which is to be held in Forsyth November 11th, 12th, 13th and 14th, and all indications point to a large attendance and most successful convocation of teachers in this end of the state.

The corps of instructors comprise some of the best talent known to Montana institutions. None of them are strangers to the people of the state, especially to those interested in educational lines. Prof. H. V. Beeman, superintendent of our city schools, needs no introduction to the people of Rosebud county. Miss Anna L. Harwood, who has the chair of training and methods in the State Normal school, will be welcomed by every teacher in the county. Miss Helen Reynolds, of the Miles City public schools, will be present at the session, and her different talks on educational topics are expected to be one of the most interesting features of the occasion. The official position held by State Superintendent Welch, of Helena, is a guarantee of his ability and makes an introduction superfluous. The painstaking zeal of Miss Gertrude Higgins, county superintendent, is assurance that every detail of the meeting will receive its requisite attention. The institute will be held in the Forsyth public school building. Tuesday evening, Nov. 12, at 8:30 Superintendent Welch will deliver a lecture at the M. E. church, and Wednesday evening there will be a reception in the school house, to which everyone is cordially invited.

AFTER DELINQUENTS Persons Must Pay Occupation License.

County Treasurer T. W. Longley is sending out notices to merchants and other persons who are delinquent in the payment of their occupation license, requesting them to pay up.

Mr. Longley has received a communication from State Examiner Hudnall asking him to make an extra effort to collect the license delinquent Nov. 1. The examiner says:

"It is a great injustice for some to pay license and others in the same line of business to escape payment. Besides the state is interested in having prompt and full collections made."

Mr. Hudnall requests that a copy of the list of delinquents be furnished to the county attorney at the same time it is sent to him, so that the official may have the basis for suits for the amount of delinquencies. Such lists are to be furnished every three months, so that Mr. Hudnall can compare them. If he finds the same names on two successive lists he will push the county attorney to enforce collection.

Those who pay license can now keep a check on their delinquent neighbors and competitors, for the law requires the publication every June 1 and Dec. 1 of the list of those who have paid during the previous six months. If a man or firm is doing business without having paid, it can easily be ascertained by reference to this list.

The advertiser who keeps his business prominently before people and asks persistently and often for their trade is the one who will get the most business. The man who is nearly as energetic will get the business that is left, and the one who stands around on the edge, with his hands in his pockets, may very reasonably and justly expect to get "what the boy shot at."

STATE CAN'T AFFORD IT And Gov. Won't call a Special Session.

Governor Toole, in an interview Monday, says he has decided not to call a special session of the legislature for the purpose of making an appropriation for the fair at St. Louis.

The governor says he is satisfied from the responses of the members of the legislature on the subject that they would willingly serve without expense to the state during a session devoted to that purpose, but the governor says he does not think the state is in a position to make any appropriation for an exhibit at St. Louis.

He figures up the revenue and the fixed expenses of the state for 1901 and 1902 and he estimates that there will be a deficiency of \$33,000. While he acknowledges the fact that in an extraordinary emergency the state may incur an indebtedness of \$1,000,000, he does not deem this an extraordinary occasion or at least one that would justify the state in creating the debt. He says that while the sentiment of the state is for a representation of Montana at St. Louis he does not believe that under the circumstances he would be justified in asking the legislature to make an appropriation for the purpose. He purposes to appoint an honorary commission in the hope that the members may be able to evolve a plan whereby money may be raised for an exhibit by Montana at St. Louis.

The New State Maps.

The new official map of the state of Montana compiled by Hibbard & Van Hook and printed in accordance with the provisions of House Bill No. 138 passed by the seventh legislature of Montana, has been issued. The map is up to date in every particular and is a fine piece of work. Ten thousand have been printed and are being distributed as rapidly as possible. One thousand applications have already been received for copies of the map. The map shows all the lines of railroads, postoffices, Indian and military reservations, and is printed in six colors. Its dimensions are 34 inches long by 23 inches deep and is drawn on a scale of 18 miles to the inch. Many new towns not appearing on the old maps are located and every postoffice established up to the time of its publication is shown.

The new divisions of Rosebud and Powell counties are also shown.

ITEMS OF INTEREST CUT, CLIPPED AND APPROPRIATED FROM OUR MONTANA EXCHANGES, AND BOILED DOWN TO SAVE TIME AND SPACE.

According to the last issue of the Montana Liquor Dealer, an effort is to be made at the coming session of congress to have the internal revenue tax on whisky reduced to 70 cents.

Gov. J. K. Toole spent Wednesday in Miles City inspecting the State Reform school. He was very well pleased with the condition in which he found everything in connection with the institution.

A united war on the tramp is the latest project to be considered by the western lines. The problem of tramp transportation is again facing the companies, as the migrating season of that individual is at hand.

Aaron Hershfield will be tried again in the federal court which opened its session in Helena Monday, on the charge of making false reports as president of the Miles City National bank, the jury having disagreed in the first trial.

For eleven months of the fiscal year, ending October, 31, the total receipts of the state land office were \$56,055.84 in excess of the entire receipts for the year 1,900. As there is yet one month to go before a definite comparison of the two years' work can be made, the result can of course only be conjectured, but it is safe to venture a guess that the present year will be a record breaker.

The Revenue department is enforcing the stamping of bonds of all kinds given by administrators, guardians, etc. A bond required by law must bear a 50 cent revenue stamp. The law was passed last March and was to go into effect July 1. It has not been enforced as the matter has been brought before the courts in a test suit. The government won and every bond given since July 1st will have to be stamped or it is of no force or effect.

Dawson county's board of commissioners, it seems, proposes to test the constitutionality of the law enacted by the last legislature fixing a tax levy of 1-10 of a mill for the support of the state game warden. At any rate the board refused to make the levy and the attorney general has taken steps to bring the matter to an issue. Thursday he filed a petition with the supreme court directed to the commissioners requiring them to show cause why they had not complied with the laws of Montana.

In a fit of insane jealousy, Daniel Plumb, at Virginia City, Tuesday, went to his mother-in-law's home, where his wife and child were visiting contrary to his arbitrary orders, and opened fire indiscriminately through the doors and windows, killing his daughter, Nellie, a 2 year-old child; seriously if not fatally wounding his wife, Alease E. Plumb, and slightly wounding in the arm and abdomen Mrs. Parks, his wife's mother. He was arrested and will have to stand

trial for murder in the first degree.

From the returns that have been received of the shipments of range cattle thus far this year, it is evident that the record of this year's shipments will be the smallest of the last decade.

Statistics prove beyond a doubt that the coal industry of Montana is yearly becoming more and more important, its steady output and revenue returned adding materially to the wealth of the state.

Northern Pacific secret service men are working on what they believe was a plot to wreck and rob the North Coast Limited two weeks ago near Deer Lodge, Mont. Reports to headquarters indicate that a plan to rob the mails and express safe was being organized.

James Southwick, a 12-year-old boy living in Great falls, who formerly lived in Helena, attempted to play a desperate role. He induced another school mate, the six-year-old son of George Ryan, a Great Falls merchant, to leave school with him and then bound and gagged the boy, holding him for a ransom. Southwick weakened in his desperate undertaking and allowed young Ryan to return home.

The records of the United States weather bureau for the last 21 years show that during that period the mean temperature in November has been 31 degrees, the warmest month having been in 1894, with an average of 41 degrees and the coldest in 1896 with an average of 18 degrees. The highest temperature during the month was 71 degrees on the 11th in 1894, and the lowest was 22 degrees below zero on the 27th, in 1899.

The reports that the Chicago, Milwaukee and St. Paul will build into Montana were partially confirmed Thursday by an official statement that the extension was only awaiting the termination of the Burlington deal. It is announced that should the Burlington and other allied lines attempt to control the western business in the interests of a single line out of St. Paul or a single line out of Chicago, the Milwaukee will immediately extend from the Missouri river.

The criminal action which has been pending in the justice's court of Miles City and also before the United States commissioner and which grew out of the discovery of the theft of some oats belonging to the quartermaster's department at Ft. Keogh has been dismissed. Robert Atchison, a livery man, and two of his employees were arrested on the charge of having received oats, but in the opinion of the examining magistrates the testimony was insufficient to hold them and they were discharged. Meanwhile the soldiers who were implicated in the matter are under arrest at the post and will probably be dealt with according to military law.

FORSYTH SCHOOL NOTES.

Lula Austin is again in school after several days illness.

Eddie Toumey and Eddie Sweetser are absent on account of sickness.

Institute begins next Monday. We hope to see many of the parents in attendance.

Miss Thilda Johnson has returned after a weeks absence on account of sickness.

The work of the eight grade in history for a few weeks, will be the study of the Spanish-American war.

State superintendent Welsh delivers a lecture next Tuesday evening at the church. All are cordially invited to attend.

Last Friday about twenty ladies met at the school building and organized a Mothers' association. Mrs. Ed Huff was elected president, Mrs. Eckels vice-president and Mrs. Hardy secretary. The next meeting will be held in the high school room, Friday Nov. 15 at 3p.m. All parents and all interested are invited to attend.
