Wm. McConnell, one of Milestown's notable baseball fans, came up from that bailiwick Friday to witness the game between the Forsyth team and the New England Bloomer Girls, but as it was necessary to declare the contest off owing to the dampness of the grounds, he devoted his time while here greeting friends.

Owing to the non-arrival of trains from the east Friday forenoon on which the New England Bloomer Girls might arrive here in time to engage the local team in a baseball game the contest was postponed until evening. During the afternoon a heavy rain fell, leaving the grounds in bad condition for such a conquest and it was necessary to declare the game off, and the fairies of the diamond proceeded on their journey westward.

The Thursday Afternoon Euchre club was entertained last week by Mrs. Tom Butler. After dainty refreshments were disposed of the prizes were awarded, Mrs. Richard S. Stocton winning the first, an engraving in a circular Venetian oak frame, and Miss May Alexander received the cut prize, a silver teaspoon. As all the members are busily engaged preparing for the Fourth of July celebration the club will not meet this week.

At a recent meeting of the Helena Gun club it was decided that W. A. Selvidge, a brother of Jack Selvidge, of Bailey and Terrett's, and one of the most popular traveling men in Montana, who has made many friends here by his occasional calls, had won the subscription cup which was given for the best average shooting for the season ending June 1, 1902.

Pabst beer can be had at the American Hotel. By the case of pints or quarts. Place an order today.

James Grierson returned Sunday from North Dakota points, where he went with a carload of horses a few weeks ago. He encountered but little difficulty in disposing of the equines, from which he realized satisfactory prices. He says there is general rejoicing amongst the farmers of that country in anticipation of harvesting an unprecedented crop.

According to a report of County Superintendent Gertrude M. Higgins, schools extending into and completed in June were successfully concluded by Miss Io Remington, at Sabra, Miss Louise Lowre, at Lame Deer, and Miss Hill, at Ashland. Miss Leila Buffington, who is teaching the Kirby school, will continue her term through the summer and fall.

J. H. Austin was sufficiently unfortunate Saturday to lose a valuable horse, which he recently purchased for his Forsyth-Lame Deer stage line. It was undergoing breaking at the stock yards and those engaged in reclaiming the animal allowed it to throw itself with sufficient force to cause injuries which resulted in it being necessary to end its trouble with a bullet.

Montana's new state capitol has already become a prey to the relic hunter and souvenir fiend and the problem is presented to the state officials and Custodian Benjamin R. Toole as to how the pernicious practice, already begun, of defacing the beautiful architecture and furniture of the new building can be stopped. It is safe to say that stern measures will be adopted,

and that any vandals caught in the act of writing their names or initials about the state house will be vigorously prosecuted.

The treasury department has called for bids for the construction of the Butte federal building, which will be opened and considered July 28. The designs of the structure specify a building of the modified classic order. Congress has appropriated \$325,000 for its construction.

Chairman Lacy of the house public lands committee, has introduced a bill providing that affidavits in public lands cases may be made before deputy clerks of courts of record. The report of B. H. Tatem, assayer in charge of the assay office in Helena, to the director of the mint, for the year 1901, shows that the value of gold, silver, copper and lead produced in Montana that year was \$60,387,619.01. Of that amount \$4,802,717.39 was in gold, \$18,334,442.26 in silver, \$6,751,837.34 in copper, and \$498,622.02 in lead. As compared with the production of 1900 the decrease is about \$3,000,000, due to the lessened production of copper. The report shows that since the discovery of gold in Montana, 40 years ago, more than one billion dollars has been taken from the streams and mountains of the state. Little change in the value of the gold produced as compared with the previous year is shown, and attention is called to the enlarged use of the cyaniding process during the year. There was also little change in the value of the silver produced.
