A number of republicans from Stevensville went over to Victor last night and helped organize a republican club there. A number of rousing speeches were made, and a good-sized club was formed, some of its members being former democrats, and some who had wandered into the populist camp returning to the republican fold.

The people who know Lew Williams, the republican candidate for clerk and recorder, smiled audibly when they read the Western News' declaration that Lew was the easiest man to beat on the ticket. Democrats all over the county are admitting that Jim Farris won't get to the first quarter when Lew goes under the wire a winner.

A welcome exchange at the Courier office is the RAVALLI REPUBLICAN, published at Stevensville and ably edited by our old-time friend, James E. Stevens. It is an excellent paper, of the regular orthodox republican style, and is deserving of good patronage by all the good citizens of the new county of Ravalli, as well as the outlying precincts.—Bozeman Courier.

The supreme court of Montana, in a test case, on Monday of last week decided that the constitutional amendment relating to the terms of county commissioners is unconstitutional, and that the men now serving as commissioners hold over for the next two years. This does not apply to Ravalli county, however, as the present commissioners are serving by appointment and not by election. Therefore this county will elect a full board.

Companies G. and B. of the 25th infantry, stationed at Fort Missoula, under command of Captains Wilson and Loughborough, with Lieutenant Green and Post Surgeon Crosby, are on the regular ten days' fall march. Their route is up the Bitter Root valley. On their return the remaining companies at the post will go out.

Last Saturday, while the fruit exhibit was in progress, Mrs. Clarence Prescott left her little boy in Henry Buck & Co.'s store, and Mr. Buck, not noticing him, locked up and went to dinner. The little chap, who had been asleep, woke up presently and found himself in solitary confinement. He resented this in quite a forcible manner, but soon accepted the situation, and was amusing himself when a messenger who had been sent for the key arrived and released him.

At the Baptist church last Sunday night the Good Templars and the Woman's Christian Temperance union held a joint temperance meeting. The exercises were opened by Rev. M. L. Rickman. Mrs. J. P. Sharpe favored the audience with a very fine recitation, and then they were talked to by J. B. Faulds, who delivered an address on the homes of the country. A paper on the work of the W. C. T. U. was read by Mrs. T. N. Smith, which was highly appreciated by her hearers, after which Mrs. L. J. Knapp read a paper in which the objects and aims of the temperance cause were set forth in an exceedingly clear and powerful manner. Rev. J. N. Smith was next on the program, but as the hour was late, the gentleman cut his remarks short, and after a recitation by Miss Vida Williams, the meeting was dismissed. It is understood that a similar meeting will be held some time within the next three months, though the date has not yet been announced.

The Cat Out of the Bag. In conversation with the editor of the REPUBLICAN last Thursday evening, after the speaking, Hon. Robert B. Smith was asked the question: "If the populists should secure a sufficient number of seats in the next legislature to hold the balance of power, which party would they vote with in the election of United States senator?" The answer came quick: "They won't vote with the republicans." And so the snap was inadvertently given away by the populist leader. No matter what the rank and file of the party think, the leaders are bound to use it to send democratic Cleveland senators to Washington. Are our former republican friends who were deluded into joining the populist organization in the hope of purifying politics going to lend their aid to this latest democratic scheme? If so, they will vote for legislative candidates who will vote for democratic senators. They might as well vote the democratic legislative ticket at once, as every former republican vote drawn away from the republican legislative ticket helps democracy just so much.

THAT GREAT FRUIT EXHIBIT

The Western Montana Fruit Growers Association.

Unsurpassed, if Equalled, at the World's Fair--The Visitors Are Amazed.

Had the Western Montana Fruit Growers Association made a special order for a day, they could not have had a prettier one than last Saturday, when they held their first annual exhibit at Stevensville. It was a perfect day, and all the morning the carriages and wagons were rolling in to the pretty county seat of Ravalli county, bearing visitors from other valley towns, and prosperous farmers with their good wives, sturdy sons and handsome daughters. And right here we digress to assert that in no other section of Montana can there be found happier, healthier, more helpful or lovelier girls than in Ravalli county. Take all other products of the Bitter Root valley, they are beyond compare.

The morning train from Missoula brought about 150 visitors from other portions of the state, among them being David A. Cory, L. A. Walker, F. S. P. Lindsay, Wm. Steele, H. B. Palmer, E. J. Goodkind, R. C. Wallace, P. H. Fowles, Henry Klein, H. Guthrie, Major Davenport, M. J. H. Marks, John Schreiner and others, of Helena; J. P. Kelly, of Butte, and a large delegation of ladies and gentlemen from Missoula. They were met at the depot by teams to convey them to town, and were soon enjoying the hospitalities of the garden spot of the treasure state.

The scene in Buck's hall, where the exhibit was held, was one never to be forgotten. The spacious hall was tastefully draped with evergreens, and all over the hall were hung ropes of many-tinted leaves, ferns, grasses and cereals, from which depended clusters of apples, crab apples, pears, plums, grapes, etc. On the two-sided, pyramid table that ran the full length of the center of the hall, and on tables on each side arranged in a similar manner, the profusion of fruit was bewildering in the extreme. And such fruit! Even the natives were astonished, as they had never before fully realized the capabilities of their beautiful and fertile valley. Think of boxes of apples, the largest of which would measure 10 inches in circumference and none under 13 inches; crab apples as big as an ordinary apple; pears as large as an everyday pear, and grapes and pears in proportion. And then the vegetables! Potatoes a foot long and as large around, squash that took a grown man to lift, cabbages almost as large in bulk as the squash, rutabagas that would feed a family for a week, turnips and carrots that would make a Mormon's mouth water, and melons that would make a colored brother willing to serve 30 days for just one-half a day at them. As for the visitors, amazement is the only word which could express the state of their minds. As Judge Knowles said, "The world's fair did not surpass, and in some instances did not equal, this display." And Prof. Emery, head of the state agricultural college, at Bozeman, said: "I stake my reputation that never at any county fair in the United States has this display been equalled." And these two gentlemen merely voiced the opinion of all the visitors.

The visitors spent the day among the fruits and flowers, and in getting acquainted with each other. Those from the outside counties took the train, which was held until 6 o'clock in order to accommodate them, and one and all expressed a desire to return next year. A great number of them said they were afraid that they might be called prevaricators when they went home and told of the wonderful exhibit they had seen, and wished others could only see it and be convinced. The REPUBLICAN is pleased to state that this wish will be gratified, as Prof. Stone, of the Missoula bureau of the Anaconda Standard, has taken about two-thirds of the exhibit to Butte and Anaconda, and Messrs. Lindsay and Steele, the produce dealers of Helena, took the other third to that city. These will be put on exhibition in those cities, and will give some idea of the capabilities of fruit culture in the Bitter Root valley, and the fair here and the exhibit abroad, will be of incalculable value to the fruit growers of Ravalli county.

Where all the exhibits were so superlatively fine, it would be invidious for a newspaper to make comparisons or special mention, and so the REPUBLICAN will content itself with giving the premium list and the fortunate winners, which are as follows: Marcus Daly offers for the largest and best assortment of Montana fruit grown by exhibitor, \$50; for second best, \$25; for third best, \$15; for fourth best, \$10; and for the fifth best the Anaconda Standard offers six months' subscription to the daily
