

WEDNESDAY, OCTOBER 12, 1893.

CONGRESSIONAL. U. S. Senators—Hon. Lee M. Hamblett, Idaho; Hon. Thomas H. Carter, Helena, Montana. Representative—Hon. C. E. Hartman, Bozeman.

NOT IN THAT BUSINESS. When some republican newspaper will show its courage by attempting to tell the people what the republican party will do for silver, the Miner will accept its argument in favor of the free coinage of silver as sincere.—Butte Miner.

That is real good of the Miner. But the republican papers of Montana, at least, are not going into the prophesying business so soon in the day. They are not willing to say, with positiveness, what a majority of the representatives of a great party, coming from and representing the feelings and convictions of different sections, will do on so important and absorbing a question as the financial policy of a nation.

Let us look over the chances for these democratic papers proving themselves "also among the prophets." It is an undisputed fact that the present administration is seeking to control the expressions on finance in all democratic gatherings; also that it has been almost uniformly successful so far.

Every now and then an incident occurs which is calculated to throw doubt upon the wisdom of the alien contract law in all of its provisions. For several years past a Miss McDonald taught school in Wisconsin. Last summer, at the close of the school year, she went to Canada and spent her vacation visiting friends.

Whether silver will fare any better in the republican convention time alone will tell. Two things are certain: it only takes a majority to nominate there, and every delegate can cast his own vote as it pleases him.

It is a free silver ticket is put in the field next year, the greatest obstacle in its way will be the action of the populist party.

Last week we jokingly referred to the style of journalism practiced by our local contemporary, and he makes answer as follows: You cannot expect a better paper than its editor, for the paper reflects the very thoughts, acts and deeds of him who guides the editorial pen, and public opinion is aided or abused by the contact.

Which is a plea for charitable judgment, and reminds one of the sign put out in early western theatres: "Don't shoot the performers. They are doing the best they can."

Price and Gorman both insist that "the present tariff is the best ever made." The Brice-Gorman faction only offered about 600 amendments, and its original maker did not know his offspring when it finally got through the mill.

It is not conceded that a great many Kansans want to see Ingalls in the Senate again, just for the sake of making the British lion think he has caught his tail in an electric fan.—Wichita Eagle.

The Kentucky Populist says: A populist can look the world in the face and say, "I am a populist." It may be true, but when other people look him in the face they say he has a wheel in his head.—Fergus County Argus.

We have absolute confidence in the regeneration of Georgia; not an ardent supporter of the Atlanta exposition and a lot of other symptoms of that kind, but because, a few Sundays ago, a lawyer, an editor and a railroad man all at once were ordained as deacons of the Baptist church at Rome.

As Montana is coming into some prominence as a producer of barley, it might be of some interest to the people to know how much they have been robbed by the new tariff. In the fiscal year, 1894, the United States exported 4,740,290 bushels of barley. In 1893 they exported only 1,556,715 bushels.

Every now and then an incident occurs which is calculated to throw doubt upon the wisdom of the alien contract law in all of its provisions. For several years past a Miss McDonald taught school in Wisconsin. Last summer, at the close of the school year, she went to Canada and spent her vacation visiting friends.

Whether silver will fare any better in the republican convention time alone will tell. Two things are certain: it only takes a majority to nominate there, and every delegate can cast his own vote as it pleases him.

It is a free silver ticket is put in the field next year, the greatest obstacle in its way will be the action of the populist party.

ONLY ONE-FOURTH. Of the Anaconda Properties Sold to the Foreigners. New York, Oct. 20.—The details of the sale of a quarter interest in the great Anaconda company mine to Messrs. Kuhn, Loeb & Co., representing a syndicate composed of themselves, the Rothschilds, Messrs. Werther, Lelt & Co. and the Exploration company of London have become known on Wall street.

A new trial was granted last fall and the people not only reversed the former verdict but taxed all the costs of the first trial and the subsequent expense to the complainant, the democratic party.

It is understood no option has been given upon any part of the other 900,000 shares of the capital stock of the Anaconda Mining company. It is also understood that the purchasing syndicate will be represented in the directory of the Anaconda company by two directors.

By Judge Reardon as N. P. Receiver in the State of Idaho. Moscow, Idaho, Oct. 23.—Judge Beattie today appointed A. J. Burleigh receiver for the Northern Pacific in Idaho. The property of the company in this state has been without a head since the resignation of Receivers Oakes, Payne and Rouse.

It is also learned from an authoritative source that overtures have been made by the eastern end of the receivership for a compromise along these lines, Judge Lacombe of the southern district of New York to appoint Burleigh and Bigelow as sole receivers.

It is said Judge Lacombe would do this as it would be recognizing both Judge Hanford and Judge Jenkins. Those who best know Hanford, however, are of the belief that this would not be satisfactory to Judge Hanford, who has a firm belief that Jenkins has no jurisdiction in the matter.

St. Paul, Oct. 21.—A. B. Adams, of Spokane, committed suicide here early this morning. Adams is a newspaper man, and had been staying at the Sherman house for several days. He was 45 years of age and editor of the New Whatcom, Wash. Reveille, being conspicuous and popular in North Pacific coast journalism.

City of Mexico, Oct. 20.—Reca Latina, a Spanish daily paper here, the organ of the resident Spaniards, declares that "when Spain has completed the subjugation of Cuba she will send the Sixth division of the Spanish navy to bombard New York, thus inaugurating a war with a nation of barbarians, who, although numerically superior to the Spaniards are really contemptible, blustering dwarfs. Spain must rely on her Spanish pride to teach the Yankees a lesson."

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey or other intoxicant, but acts as a tonic and alterative.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey or other intoxicant, but acts as a tonic and alterative.

DURRANT'S GOINGS ON. The Grand Organist King Took Girls to the Church For Immoral Purposes. San Francisco, Oct. 20.—The prospect in the trial of Theodore Durrant has found a witness who will testify that everything was not right in Emmanuel church prior to the murders of Minnie Williams and Blanche Lamont. This witness is a colored bookblack by the name of Budd Wilson.

"I know King and Durrant so well that they talked freely before me," said he. "At first I was surprised that such religious young men should be carrying on in such a fashion, but after awhile I concluded that they were about the same as other young men. I learned from these two boys themselves that they were taking girls to the church every night. I often heard them tell of the fun they had there and of different girls who accompanied them. I know myself of five girls who used to go to the church at night with those boys.

The Butte foot ball team will play in Butte next Sunday. Wm. Biggerstaff, who killed a colored Englishman named Dick Johnson, in Helena, has been convicted of murder in the first degree.

A pleasant event in society circles at Butte was the marriage of Miss Annie G. Blackiston, daughter of Rev. S. C. Blackiston, rector of St. John's church, to M. M. Miller, of the Miner.

George Durl, a prominent citizen of Dillon and an old timer of Beaverhead county, died last Friday morning. The funeral took place on Saturday under the auspices of the Masonic fraternity.

It is claimed that these farmers in the Flathead valley who contracted with the Northern, Brasian, Goodwin company to grow seeds will make an average of about \$22 an acre. One man made \$30 an acre.

Don Andrews, colored, was shot and killed by R. D. Wayne, also colored, on the lower end of Main street at Havre. The shooting was at first thought to be accidental, but later accounts developed the facts that it was a deliberate murder.

Sidney Kertchley and Caroline Thornton were married in Kalspell last Saturday by Judge Foot. The bride and groom started on horseback the day after the wedding ceremony for Wild Horse, British Columbia, where the groom is assistant superintendent to a mining company. It will be a 250 mile ride.

State Auditor A. B. Cook is lying quite ill at his residence in Helena. He was taken with a slight cold several weeks ago which has increased in its severity until he is confined to his bed with a raging fever. Mr. Cook is so sick that all persons are excluded from his room except members of the family.

Governor Nickard has pardoned Wm. Riley, sent up from Custer county some ten years ago for murder. Riley at that time only 18 years of age, with two other men killed a Chinaman. The other two men were pardoned long ago through outside influence. Riley has only a few months to serve, and the pardon is to save his citizenship.

succession, the barrel becomes too intensely hot to permit of further immediate use. Thus James, of Grant creek, was in town recently exhibiting a fine photograph of the four elks, sixteen months old, which his son, Thomas J. James, recently brought over from the central part of the state. It is Mr. James' intention to break the elks to drive like horses in harness. The elks were caught out in the vicinity of the national park and are now in a corral near the Rankin mill on Grant creek, where they are being tamed preparatory to putting them in harness for the road.

Twenty-two inches of snow fell in Northern New York Monday. Fire in Algiers, a suburb of New Orleans, leaves 1,000 people homeless. George Jacob Schweinfurth, the notorious Messial of Rockford, Ill., will be tried next Monday on a charge of adultery with "angels" in his "heaven."

After a hot and decidedly arduous campaign preliminary to the republican city caucuses, Mayor Poirer has won the nomination for a fourth term as mayor of Detroit. The dead bodies of Chris. Kramer and wife, aged people, were found in the cellar of their house at West Hancock, Mich., with their throats cut from ear to ear. The old couple were commonly supposed to have a large sum of money secreted about the house.

The athletic club which is giving the purse for Corbett and Fitzsimmons has asked for a postponement until November 15. Fitzsimmons will not agree to this. He says he is ready to fight next Thursday according to the articles. The club says if he does not agree to the postponement the fight is off.

Joseph Medill, the proprietor of the Chicago Tribune, has asked the Lincoln park commissions for a site in the park for a bronze statue of Benjamin Franklin. The statue will be presented to the park by Mr. Medill and will cost from \$30,000 to \$50,000. It is intended to perpetuate the memory of Franklin as the father of American printing and journalism.

In Buffalo it is asserted that 578 families have grown enough vegetables on city plots given to the poor for cultivation to keep them from want during the coming winter. In all \$12,000 worth of potatoes were grown on vacant lots in that city, and the people who cultivated them have acquired some degree of skill as farmers. Buffalo seems well pleased with her experience.

EX-Congressman McCann, of Chicago says he has abandoned the idea of trying to retain the seat in congress from the Chicago district, which was contested by Hugh B. Belknap, a son of the late Secretary Belknap. Mr. McCann was originally given the certificate and filed it with the clerk, but there was a dispute about several of the precincts, and as a recount showed that Belknap had 212 majority in the district, Mr. McCann decided not to press his claim.

San Francisco has had bloomer suits, bloomer marriages and now a bloomer restaurant has been opened in the very business center of the city. The restaurant is called the bloomer cafe, and has been a success from the start. Four shapely girls, attired in neat-looking bloomers, attend to the wants of customers and have proved such an attraction that more girls will have to be employed to take care of the increasing trade.

Some women in Galicia, Austria, have sent the Emperor Francis Joseph a petition worded as follows: "Sire, we women of Galicia, prostrate at the foot of the throne, present this our ardent petition. At present, whereas every man, young or old, is liable to military service, we women, often more robust than effeminate men, think we ought not to be excluded. The arms now in use are well made and easy to handle. We, therefore, pray your majesty to institute a corps of amazon volunteers."

Bucklen's Arnica Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required.
