The major claims that Woody will be beaten 500 votes in Missoula county.

**THE HAMILTON FAIR.**

A Grand Exhibit of the County's Resources, and Fine Racing.

A REPUBLICAN representative visited Hamilton on Monday and took in the annual meeting of the Ravalli County Fair and Racing association. To say that the exhibit is a magnificent one is to speak feebly when mentioning it. The large horticultural hall, which has been added to until it gives nearly twice the space of last year, was filled with the products of the farm and orchard, in such proportion and of such size and quality that even a resident of this most favored portion of Montana is lost in wonderment. To attempt to describe the exhibit would require pages of this paper, and then the half would not tell. Apples of 13 inches in circumference, pears, plums, peaches, crab apples, grapes, cherries, currants, etc., all as solid as fruit can be, without a disease or the marks of insects or worms, and of a flavor unexcelled and scarcely equalled in any part of the world; pumpkins and squash weighing over 100 pounds, potatoes so large that one would be sufficient for a family of four; these are some of the things that cannot be described and must be seen to be appreciated. The exhibit compels the visitor to go over it and over it again, and holds many people there until afternoon, in spite of the attractions of the races close by. The races are good and seem to be squarely conducted, and the elegant grand stand, equal in convulsion and comfort to any in the state, is every day filled and overflowing with the great crowds that attend, one-third of which are ladies. The weather is delightful, and has been all through, and the Hamilton fair is one grand success from all points of view.

**The Work of a Miscreant.**

"Dick" is dead. Dick was the fine, thoroughbred Irish setter, owned jointly by Charley Smith and Frank Collins, and sometimes known as the Republican dog, from the fact that he stayed around the office so much with Frank. His death was caused by some low down miscreant, who threw poisoned meat into the front yard of Mrs. Ives' residence, where Frank roams, and where the dogs stay. When the dogs were let out of the barn yesterday morning they took their usual frolic around the yard, and got hold of the meat. "Sport" the spaniel, was the first one to show symptoms of poisoning and was given some hot brand. A dose also given Dick, who was not acting right. About three-quarters of an hour after, Dick walked out of the house and laid down and died without a struggle. Sport was in convulsions all day, and last evening Frank determined to end his sufferings and gave him chloroform. The dog acted contrary to expectations, for after inhaling enough to kill a man, Sport got up, apparently at ease, walked around a few minutes and then went to sleep. He is apparently getting well today, and Frank says chloroform is a sure cure for strychnine poisoning.

No clew has yet been found to the perpetrators of the dastardly poisoning. It is certain, however, that these two particular dogs were meant. It is equally certain that the deed was done through malice against either Collins or Smith, as the dogs were perfectly harmless and general favorites, and did not run around town, being always found either at home, at the printing office or the hotel. Whoever did the poisoning ought to be caught, horsewhipped and then sent up for a term, and that would be hardly sufficient for the cowardly and heinous act.

Fred Caloon, republican candidate for clerk of the district court, is a very competent man and deserving of support.

**Hanging to a Tree.**

Helena, Oct. 1.—While looking for some entile yesterday afternoon, L. F. Crittenden found a man hanging to a tree east of the city. The man's name was not known, but he was found about 17 miles from here, and about two miles from Canyon Ferry, where the dam across the Missouri river is being constructed. Upon finding the body Crittenden rode to the dam camp and notified the people there of what he had discovered. Several men employed on the dam returned with him to watch the body while he rode into Helena to notify the authorities.

The man from the camp identified the corpse as that of Andrew Holstrom, a Swede, who had worked with them two days, threw his pay and departed. While working upon the dam his associates were led to believe he was of an unbalanced mind by his peculiar actions. That the man had deliberately planned suicide was evident from the surroundings.

The tree upon which he hunged himself stood upon the edge of an embankment, a large limb stretching over it. To this limb he had tied one end of the rope, the other end was tied around his neck by an ordinary slip noose. The tree showed where the dead man had climbed up it and cautiously worked his way out upon the limb. After fastening one end of the rope to the limb of the tree and the other end around his neck he deliberately threw himself off his perch.

**GETTING SCARED.**

Woody Tries to Prevent the Filing of Reeves' Nominations.

Helena, Mont., Oct. 5.—[Special to the Missoulian]—Judge Frank H. Woody, of Missoula, arrived here today and was in consultation with Attorney General Haskell for more than two hours. The visit of Judge Woody has occasioned a very considerable amount of adverse criticism. The democratic state central committee do not approve his action, and have openly condemned his course.

Judge Woody's visit was for the purpose of endeavoring to have the name of Judge Reeves omitted from the official ballot under the head of the republican and silver republican party. His efforts have availed him nothing, however, as the attorney general has advised him that every requirement of the law has been complied with and that the secretary of state must place the name of Judge Reeves on the official ballot under the heads of these two parties.

Robert Fisher was here on Friday for the same purpose but was advised by the attorney general's office that a protest on this score would avail nothing.

Lawyers all over the city and particularly those in the lobbies of the hotels this evening are discussing the action of Judge Woody, and express great surprise that a candidate for the office of judge, of the district court should endeavor to defeat the will of the people in a selection of a member of the judiciary. They say Woody's actions are without precedent, and a movement is on foot to have him condemned by the Montana Bar association.

Reeves will be the next judge.

**Tipton Will Come Back.**

An Associated Press dispatch from Lexington, Ky., said: Ed. A. Tipton, the famous trotting association secretary, has signed a contract to manage Marcus Daly's Montana racing circuit in future. He leaves the local association this year. The Montana circuit next year will rival the eastern circuit in big prices.

Mr. Tipton was lessee and manager of the Butte and Anaconda tracks this past racing season. He gave the public some of the best racing that he ever had in the state, and he is expected to return next season.

He is also considering the erection of a sugar factory in Montana.
