AN IDEAL COUGH MEDICINE
"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. R. A. Wiltshire, of Grayville, Ind. "I take great pleasure in testifying to the results of Chamberlain's Cough Remedy. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chlorform or morphine it certainly makes a most safe, pleasant and efficacious remedy for the ill it is intended."

STIFF NECK

Stiff neck is caused by rheumatism of the muscles of the neck. It is usually confined to one side, or to the back of the neck and one side. While it is often quite painful, quick relief may be had by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires internal treatment. When there is no fever and no swelling as in muscular and chronic rheumatism, Chamberlain's Liniment will accomplish more than any internal treatment.

THE BEST PLASTER

A piece of flannel with tapes attached for holding it in position, slightly dampened with Chamberlain's Liniment and bound on over the seat of pain is superior to any plaster.

LEGAL ADVERTISEMENTS

Notice for Publication, Department of the Interior, U. S. Land Office at Lewistown, Montana, June 1st, 1909.

Notice is hereby given that Laura C. Warren, of Harlowton, Montana, who, on Nov. 11, 1895, made H. E. No. 4120, Ser. No. 642506 e 1-2 ne 1-4 e 1-2 se 1-4, section 14, township 9 n, range 14 e, M. P. CONTEST NOTICE.

Department of the Interior, United States Land Office, June 16th, 1909, Lewistown, Montana.

A sufficient contest affidavit having been filed in this office by John E. Poston, contestant, against homestead entry, No. 3941, made June 21, 1905, for e 1-2 nw 1-4, e 1-4 se 1-4 section 22, township 9, n, range 17, e, Montana Meridian, by James Barrett Contestee, in which it is alleged that James Barret has failed to reside upon, cultivate, or improve said land, that there is no habitable dwelling thereon, and that Claimant has wholly abandoned said land for over one year last past, said parties are hereby notified to appear, respond, and offer evidence touching said allegation at 10 o'clock a. m. on July 29th, 1909, before the Register and Receiver at the United States Land Office in Lewistown, Montana.

The said contestant having, in a proper affidavit, filed June 16, 1909, set forth facts which show that after due diligence personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

Edward Brassey, Attorney for Contestant.

Dead Sureness of Agriculture

Failures there have been and failures there will be so long as men practice haphazard methods, but failures there need not be if scientific methods of soil culture are closely followed in sections where the physical conditions of the soil will permit of a thorough preparation of the seedbed and where precipitation amounts to ten or more inches during the growing season. The vast majority of settlers in the semi-arid belt are practicing dry farming, at that. Little or no effort is made to conserve moisture for each season's crops, let alone the question of a perfect physical condition of the seed and root bed so important to a perfect root system or the storing up of moisture of succeeding crops. Now if the yields which have been accurately reported without a single failure, can be obtained on a precipitation of 12 inches in an unprecedentedly hot season by means of scientific soil culture, then I feel sure that we can say that an insurance has been found at last against failure, and I reiterate what I have said many times before, that he who follows Mr. Campbell's methods as closely as the local conditions will allow him, will never have a crop failure. While it is true that some years, such as the past, the yield may be cut down, yet where proper precautions are taken in due time his methods will insure a profitable yield in sections where the rainfall does not fall to less than nine or ten inches.

CHILLY BATH FOR BAPTISM.

Ten Converts Are Immersed in Ice Dotted Lake.

St. Joseph, Mich.—An act of endurance, prompted by their sincere Christian belief as members of the Church of God, was exemplified in this city the other afternoon before a curious audience of 1,000 people who were grouped about on the snow and ice-clad shore of Lake Michigan.

Promptly at 2:30 p. m. Rev. August F. Schmitz, local pastor of the Church of God, marched from the nearby beach, followed by ten converts, out over the ice fields to a hole in the ice about 100 feet from shore. Rev. Mr. Schmitz opened the ancient christening ceremony by offering up a prayer in German. He then entered the ice chilled water by descending by the use of a ladder until he stood up to his chest in the water, surrounded by small particles of floating ice. Each candidate was then in turn submerged in the water while in the arms of their local leader.

The last to be immersed was a lady said to be 72 years old, native of Russia. The converts as well as minister were clad in only ordinary clothing, while three of the women were baptized while barefoot.

The Church of God was founded by Rev. D. A. Warner of Grand Junction, Mich. in 1884, and is now claimed to have a membership of several thousand, representing several of the large cities of this country with many delegates preaching their creed in the heathen countries of the world. Rev. Mr. Schmitz has a congregation of 100 members in St. Joseph.

Stout Party—Say, young fellow, do you know where I could get a hair cut? Urdin—Sure, gov'nor; on yer head.—Judge.

Increased Train Service

Effective May 23 1908, the Northern Pacific Railway augmented its passenger train service by the establishment of new trains, not alone between eastern and western terminals, but locally on main lines and branches in the several states which it serves.

It has thus placed in closer touch than ever the different sections, the various cities and towns, the thriving communities, which for twenty-six years the Northern Pacific has aided and fostered in growth and progress.

This increased efficiency of service means much to the Northern Pacific Railway.

Additional lines projected or actually under construction will still further increase the scope of Northern Pacific co-operation in the development of the Northwest in the course of next year or two.

The present through service comprises

Four Daily Electric-lighted Transcontinental Trains

affording through equipment without change between Chicago, St. Paul, Minneapolis, Fargo, Jamestown, Bismarck, Mandan, Glendive, Terry, Miles City, Forsyth, St. Louis, Kansas City, Omaha, Billings, Butte, Helena, Missoula, Spokane, Portland, Tacoma, Seattle and Puget Sound.

Direct connections from and to Duluth and Superior.

Ask for new time tables showing the increased service in detail.

W. H. Merriman, Div. Freight & Passenger Agent, Northern Pacific Railway, Butte, Mont.
