

TRAVEL TALK

Make your Vacation "Re-creation" as well as "Recreation." **Make the Most of Your Holidays**

HOLIDAYS should be welcomed by all toilers, for the break follows the most trying of seasons. Don't spend your holidays at home resting. Make an effort to get a change. It is better than bottles of tonic. Don't make the mistake of over-fatiguing yourself by rushing straight from work to vigorous exercise. Make your plans before hand and allow nothing to upset them. Try during your holidays to forget all worries connected with your work. Live as much as possible out of doors. Get your lungs well oxygenated with good fresh air, and your nerves rested; and so store up strength to confront the long days before your next vacation.

BOBCAT "SMILES" AT FIVE-YEAR OLD BOY

HUNTER FAILS TO SEE HUMOR IN SITUATION AND PROMPTLY SHOOTES FESTIVE FELINE.

East Sangerville, Me.—A remarkable story of a bobcat's treatment of a child is told by woodsmen west of here. A large bobcat followed a small boy nearly a mile until he fell down and could go no farther. The cat lay down beside him for some time, showing no signs of ill will, until a passing huntsman shot the animal.

The boy was Joseph Fowler, five years old, son of Edward Fowler of this place. Early the other morning the elder Fowler started through the woods to his father's house, followed by his little son. When they got to Flanders' mill little Joe became cold

and started back to the house. His father, however, continued.

Joe had gone but a short distance when he heard steps behind him and a kind of hoarse laugh. He looked around expecting to see his father. Instead he saw a big bobcat approaching him with an ill-concealed "smile" on its face.

Joe didn't stop to reply to the animal's friendly advances, but took off toward his home, over a mile away, as fast as his legs could carry him. The bobcat trotted after him in a sportive manner, and every time Joe looked around the beast was a little nearer. Finally Joe felt the cat's warm breath blowing against the back of his neck. This so terrified him that his legs tangled and he fell flat in the snow.

Instead of devouring him, as Joe expected, the bobcat merely surveyed him pleasantly for a few minutes, then lay down close beside him and began to purr. Joe says he could have touched the animal easily with his hand but didn't dare. After a time Joe thought he'd better go on. But when he started up the bobcat grinned broadly, showing all his teeth, long and sharp, and laughed again so hoarsely that Joe became frightened and lay still. Thereupon the cat purred again.

After a while Joe began to cry for his mother. At this the cat became very sympathetic, walked around the child in a circle three times, looked at him smilingly again, and finally sat down to observe Joe's vocal exercises.

About this time some hunters came along the road near-by. The cat looked at them in disdain and continued his friendly glances at the child. One of the hunters yelled to Joe to lay very still—then he took careful aim and fired, and the cat fell over dead.
