

Mining Proposition

(Continued from first page)

Jobb, Secretary; and John E. Mathews, Treasurer. The board of directors consist of the above named officers and also Albert Fisher. Headquarters for the company have been established at Townsend, and the work of getting ore to the surface has already begun.

TESTS.

No person will buy stock in a mining corporation unless he be first convinced that the ore is in the mine. The Broadwater County Mining Company has made several tests, all of which have given proof of exceedingly rich ore. Assays have been made of the ore taken from the different shafts at distances varying from 5 to 30 feet in depth, the ore ran from \$8.00 to \$185.00 a ton. An Assay was made from ore taken from the pit where the permanent shaft is to be sunk with the following result:

54 per cent copper.
22 ounces of silver.
\$36 in gold.

With copper at 10 cents a pound this ore would be worth \$155.00 a ton.

E. M. Fisk, the assayer of Helena, visited the mines personally. He made other tests from ore taken from another vein, which is a free milling gold vein, with the following results, one test showed \$128.00 a ton, another \$360.00, another \$430.00 and another \$1,029.00 in gold. There are very few mines in any of the mineral belts of Montana that have such an auspicious showing before thorough development. The mines of The Broadwater County Mining Company have every indication of being remarkably rich. A cordial invitation is extended to all to visit the mines so that any one may ascertain for themselves the proof of the assertions made in this circular, and upon investigation, become convinced that an investment in stock in the mining company would be safe and reliable.

OTHER ADVANTAGES.

A corporation has been organized in Townsend for the purpose of building a dam across the Missouri River by means of which electricity will be generated for various industries in the vicinity of Townsend. This power can easily be obtained by the Broadwater County Mining Company for the purposes of operating hoists, and other machinery at the mines. An ideal site has been selected for a smelter, stamp mill, and concentrator on the banks of the Missouri River, only 3 1/2 miles from the mines. It is only a question of time until a smelter will be in operation on this site, this advantage would reduce the cost of transportation to the minimum. Few mines in the state of Montana would have its ore smelted and refined at such a low cost of transportation.

WHAT IS TO BE DONE.

Stock is being placed on the market for the purpose of obtaining capital for the development of the ore bodies. More machinery and other equipment is to be purchased. Already ore is being brought to the surface in small quantities, but the capacity is to be greatly increased as soon as capital and conditions will permit. It is the present intention of the company to have a stamp mill in operation during the coming summer to handle the free milling ore. A few hundred pounds of the free milling gold ore has already been tested with a stamp mill, and the result has been altogether satisfactory. Tests have been sufficient to satisfy those who are interested, that a stamp mill, with one season's product, pay dividends sufficient to cover the investment. It will only be a short time before this stock will rise in value, we say to the prospective investor, "Get in on the ground floor, invest while the stock is low, and share in the profits of a dividend producer."

THE BROADWATER COUNTY MINING COMPANY.

Townsend, Montana.
LEN JOBB, Secretary,
Townsend, Montana.

Stock may be purchased from J. J. Fisher or J. E. Mathews of Townsend, Montana, or W. C. Husband, Harlowton, Montana.

THE PROPOSITION.

A short time ago the company that owned The Black Friday mine at Radersburg, Montana, only eight miles south of the mines of the Broadwater County Mining Company, sold a limited amount of its treasury stock at 25 cents a share for the purpose of getting the mine in operation. At first it was difficult to secure any capital, even on this basis, but now the stock in The Black Friday and other adjacent mines stands at \$19.00 a share, and it is almost impossible to obtain stock any figure.

The Broadwater County Mining Company is offering the same inducements. It has set aside \$20,000.00 of its treasury stock to be sold at 25 cents a share for the sale purpose of securing sufficient capital with which to buy machinery and necessary equipment with which to develop the property. Every dollar of the money secured in this way will be for de-

velopment purposes and development purposes alone. The mine is not being sold, neither will the money derived from the sale of stock go into the pockets of private individuals. It is a legitimate business proposition conducted on a business basis. No officers receive any salary, but rely for their profits upon the dividends to be paid on their stock. Accurate books of account are kept by reliable and well known business men. The public will realize that the inducement here offered is not only safe and reliable, but gives the investor, that take advantage of it, an opportunity to reap big dividends on small capital.

For further information apply to The Broadwater County Mining Company, Townsend, Montana.

Stock may be purchased from J. E. Mathews, Townsend, Montana; J. J. Fisher, Townsend, Montana; or W. C. Husband, Harlowton, Montana.

Ryegate Items.

Road Master Nix was in town Saturday.

Chas Eani returned to his home at McIntosh on Wednesday.

W. Williams was a business visitor at Harlowton Wednesday.

Mr. Curtis of Osakis, Minnesota has decided to locate at Ryegate.

Geraldine Henning accompanied her grandpa to Harlowton Tuesday.

Mrs. Kemp and Miss Grace Frary were shopping in Harlowton Friday.

Mrs. Robt. Patterson and two sons arrived Saturday night from Harlowton.

Messrs. Powell and Connelly made a business trip to Harlowton Monday.

Messrs. Akin, Smith and Engel went to Lewistown Friday on business.

O. B. Lovely and Otto Loges of Barber transacted business here Saturday.

L. L. Smith and Omas Ward of Big Coulee were business visitors Saturday.

Miss Hannah Jones of Clear Lake Wisconsin arrived Saturday for a visit at the Bennett home.

Lee Groves is raising whiskers. The whiskers are all right but when Lee laughs his face looks like a flax field in clay soil.

Mrs. Eva Barringer and Wilfred Williams are suffering with a severe attack of La Grippe. Both are reported better at this writing.

THE BEST PLASTER

A piece of Hamel with tapes attached for holding it in position, slightly dampened with Chamberlain's Liniment and bound on over the seat of pain is superior to any plaster.

STIFF NECK

Stiff neck is caused by rheumatism of the muscles of the neck. It is usually confined to one side, or to the back of the neck and one side. While it is often quite painful, quick relief may be had by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires internal treatment. When there is no fever and no swelling in the muscular and chronic rheumatism, Chamberlain's Liniment will accomplish more than any internal treatment.

AN IDEAL COUGH MEDICINE

"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. H. A. Wilshire, of Grayville, Ind. "I take great pleasure in testifying to the results of Chamberlain's Cough Remedy. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chlorform or morphine it certainly makes a most safe, pleasant and efficacious remedy for the ill. It is intended."

LODGES

I. O. O. F. CARBONATE LODGE No. 28 meets every Tuesday night in Odd Fellows Hall above the Harlowton Grocery Co's. store. Visiting brothers cordially invited to attend. C. BARBER Noble Grand.
