BIG SHOW COMING

John H. Sparks World's Famous Show will be in Harlowton Thursday, August 18.

Thursday, August 18 will be Show Day for the John H. Sparks World's Famous Shows, then the rare, unique and wonderful things that have been promised on paper will become a reality.

The airy riders who, in diaphanous skirts have been pirouetting on the expansive backs of tremendously speedy circus horses—on the billboards—will be seen in all the gorgeousness of tulle and seductive smile the elephants will copy their pictured acts of comedy and go them one better; the contortionist will proceed to disentangle himself from the knots he tied in his responsive limbs last year; the acrobatic family will turn dizzy somersaults and the clown will work off his time honored comedy on the confiding audience.

There is nothing on earth in the amusement line like a circus. It is the people's show par excellence. The expert knows what is coming every minute of the show, but he wouldn't have it changed for worlds. The very conventionalism of much of the performance is what makes it so delightful.

The merit in a big circus like the Sparks Shows is in the fact that everything in the show is the very best of the kind. There must inevitably be riding acts, but the riders are the leaders of their profession. There must be acrobats, but the acrobatic artist and aerialists are gathered from the wide world, and are the best that money can secure.

It is this superiority in the quality of the performers that makes the Sparks Shows a welcome visitor.
