Don't Buy Shoes That Need Stretching

Whenever a shoe has to be stretched, you can be sure that its going to run over the edges of the soles. And in time the uppers will leave the soles entirely.
Plenty of leather should be allowed at the ball of the foot so that stretching isn't necessary. The foot should rest comfortably in a new shoe the minute it's put on.

The Bradley Shoe
is built to fit right from the start. Every pair has the proper allowance of leather at the ball of the foot.

67 Years on the Market
The Bradley Shoe has been steadily gaining in popularity since 1843, despite the ever growing competition.
What better proof of its exceptional value could we offer?
Bradley & Metcalf Co. have a world-wide reputation for making honest values. And the Bradley Shoe is their best.
