tages of the better traffic facilities. The second way in which the action of the board was notable was that it was unanimous. There has been a split in the board now for a year and a half upon all such matters—a sectional split that has involved the board more or less in petty politics; this one playing for position and advantage for one town or section at the expense of other communities of the county, and that one pulling against him, seeking a like advantage for another town.

We want to congratulate Messrs. Pratt, Garey and Bartlett for having thus taken, in unanimously passing the Pratt resolution, the first important step which shows that the days of needless bickering and discord on the board have passed. Mr. Garey is especially to be commended for his frank and businesslike stand on this matter, in the face of a protest from a large number of his constituents.

We are not in the least inclined to cast aspersions as to ulterior motives actuating Mr. Garey in this matter. We believe he was honestly convinced of the undoubted merit of the resolution; convinced that the protest against it was ill advised, and satisfied that further consideration of the matter would convince his people that their protest was ill-timed and not, really, calculated to serve their own best interests.

The other commissioners favored the resolution from the start, and only debated as to the amount of bond issue to be referred to the people. And as to this, we cannot see by what process of reasoning they arrived at the conclusion that \$125,000 was a more desirable sum to propose than the \$150,000 petitioned for by six hundred voters of the county. The original resolution, as proposed by Pratt, called for \$150,000 bond issue and should have gone through, or, if possible, been increased.

Of this \$125,000 considerably

more than half will be expended locally in the several parts of our county for materials and labor in

the construction of the roads and bridges. We can eat our cake and have it, too, on this matter. And

no doubt the bond question will carry, as it should, in every part of the county.

Entered as second-class matter August 17, 1911, at the postoffice at Libby, Montana, under the Act of March 3, 1879.

THURSDAY, SEPT. 21, 1911.

The Hotel Libby barber shop has been re-opened.

District Forester Silcox of Missoula visited the local office last Friday.

The Snowshoe people received a six-ton safe this week for their city office.

Senator Leary and Al and Harry Howard have gone up on Cherry for a few days.

Charlie Swartz of Butte, tax agent of the Anaconda Copper company, which has large holdings here, is in the city.

Mr. and Mrs. Dan Welsh went to Spokane this week to visit with relatives and friends.

S. H. Dennis of the Kootenai Land company is at Troy with a party of homeseekers.

Leroy Brock of the forestry office returned this week from a ten-day trip to the Yellowstone park.

Chas. H. Little, a prominent attorney of Butte, is in Libby, looking over the country on a business trip.

The county fair at Eureka is on this week, beginning today, and quite a number of Libbyites intend taking it in.

Some petty thief tapped the Hotel Libby till Saturday night, but only secured a couple of dollars in silver change.

Tom Bocard has gone to the Pipestone Springs, near Butte, where he will recuperate for two or three weeks.

John Brooks, the logging contractor, has purchased a lot in the Lukens addition, upon which he expects to build.

Mrs. D. W. Good has returned from a month's visit at coast points, upon a recreative trip, much improved in health.

Agent Hunter, the genial representative of the Great Northern at Libby, visited headquarters at Whitefish Sunday.

The power on the gasoline truck wagon, which has been used in hauling Snowshoe concentrates from the mill to the Libby South-ern, has proved to be too light and

has been pulled off, pending the arrival of a heavier machine.

Bert Ritchie and wife went to Troy yesterday for a week. Mr. Ritchie will be employed on Clifford Clay's new house.

Jas. Harbert, former mayor of Kalispell, and member of the legislature which created Lincoln county, is a visitor in Libby.

Mrs. Timothy Miller, who has been visiting relatives and friends in Vancouver, B. C., for the past two months, returned home Sunday.

The new school house on Pipe creek has been completed, and this week the desks and other supplies were taken over and the school made ready for use.

Major A. L. Duncan of Missoula, who has various property interests in this county, including the new brick block on Mineral ave., was a visitor in Libby Tuesday.

Thos. Brinton of Brighton, Ia., father of Miss Brinton, principal of the Libby schools, is visiting here for a few days. His wife preceded him a couple of weeks and the two will go on to the coast before returning home.

Judge Geo. E. Davis of Troy was in Libby Tuesday. He says about eighty voters have registered under the new law. The judge, who is also the school clerk, has just completed the school census at Troy and reports 87 children of school age, a substantial increase over last year.

The body of Fred Schmidt, the merchant tailor who disappeared about three weeks ago, leaving a note indicating suicide, was found Monday in an eddy just below Kootenai falls. Coroner Ottawa was notified and after an examination and identification he decided to bury the remains near the scene of the recovery.

Acknowledging receipt of photographs from Wm. Warwick, Publicity Commissioner J. H. Hall of Helena writes that he expects to visit us in a few days. One of the photographs sent was a picture of three strawberries completely covering a 5-inch plate, the berries coming from County Commissioner Bartlett's garden at Troy.

W. E. Zimmerman of the Kalispell National bank passed through Libby yesterday on No. 3 with his bride. They were on a honeymoon trip to the coast. Everybody knows "Zim," and everyone likes him. He was the most efficient deputy assessor Flathead has had the last few years, and a proper good fellow. Here's many good wishes to him and the bonny bride.

## Good Roads Bring the Autos.

Geo. W. Millett returned Saturday from a week's visit at Kalispell. Mr. Millett was one of the auto party to visit Glacier National park, and he is enthusiastic over the trip and naturally an ardent advocate of good roads everywhere. His machine made the trip in a little over three hours. An auto road from Libby to this great scenic wonder is not a dream, but one of the certainties of the near future.

Banker Hershfield of Helena is visiting in Libby, looking over our natural resources.

## Will Represent Two States.

E. H. Wilson, manager of the Snowshoe mine operations here, has been appointed a delegate to the national mining congress, which meets in Chicago in October, an affair which he has not failed to attend for many years, and he expects to be present at the coming one. Mr. Wilson is not only a representative from Montana, but has also been notified of a like appointment by Governor Johnson of California, so that Libby will really have a double representation. This state has three delegates, one each from the important mining centers of Montana—Butte, Helena and Libby.

## Fair Time Season is On.

The display for the Eureka fair which Committeeman Herbst has been gathering, was on display yesterday at Judge Hoffman's office and attracted many of our townspeople. Do we really know what we can do in an agricultural way? It is only when we start upon a movement of this kind that we have the merest idea of the possibilities of the Libby district. Mr. Herbst will accompany the exhibit to Eureka, from whence it will be shipped to Helena for the state fair, where it will be taken care of by Jas. W. Scott. To this display will be added an exhibit of wood products, which is being gotten

together by President Millett of the Libby Lumber company. Mr. Scott will take this with him and will be something unique and instructive, giving a line to outsiders upon one of our most important industries.

## Sixteen Years Ago this Week

(Items culled from old Troy Times.)

Jap King threw up the bond on the Keystone and the property reverted to the original owners, Wm. Johnson and S. J. Whitcomb.

Troy, having one of the county commissioners, made quite a stake in road money and succeeded in securing an appropriation of \$600 for the Troy road district, a part of which was to go for a bridge over the Yahk river, the to make up the balance by subscription. What an advance has been made since then! though it must be admitted it has come principally with the formation of the new county. Today a steel bridge is in sight across the Kootenai at Troy and thousands of dollars for roads.

The mineral land commissioners finished their work in this vicinity and went over to Thompson Falls.

A number of men were said to be making good wages working the Kootenai bar, six miles west of Libby.

A car of Atlanta ore was being loaded for a trial shipment to the smelter.

Notice was given of a stiff advance in freight rates from Chicago to Montana points.

The Yakt Placer company took their horses to the Flathead valley to winter.

Ed Anna Clark, charged with poisoning John P. Stewart, the Heron sawmill man, were found guilty of murder in the second degree.

Much space was devoted to the silver question, which was fast becoming a burning issue all over the country.
