## REVOLUTION AGAIN DOWN IN MEXICO

### STATE OF OAXACA DECLARES IT WILL NOT RECOGNIZE GOVERNMENT.

Claim President Madero Refused to Permit Federal Troops to Assist in Suppressing Local Insurrectionists—Governor Juarez and People Claim They Will Fight It Out.

Mexico City.—The state of Oaxaca has formally declared that it did not recognize the central government. This action was taken by the legislature and ratified by Governor Benito Juarez Jr. as a result of the refusal of President Madero to permit the federal troops to assist the governor in suppressing local insurrectionists.

Crowds are said to have marched through the streets of the town of Oaxaca, capital of the state Saturday yelling "Death to Madero and the central government," and declaring the people of Oaxaca would fight to the last to maintain the sovereignty of the state.

To all intents and purposes Oaxaca has seceded and placed herself in a state of rebellion. The federal government, however, has not yet decided to regard it as such.

In official circles it is considered probable that Madero will send a commission to treat with Governor Juarez before attempting military subjection.

The state of Oaxaca, the birthplace of Porfirio Diaz, and of Benito Juarez, the president of the reform period, is populous and there is no attempt to deny that its men are capable of making a vigorous fight. Mexicans of the better class regard the situation as critical.

## MURDERER WAS HAUNTED

Had Killed His Wife and Cousin for Unlawful Cohabitation.

The young avenger was turned over to the police, who are closely guarding him for fear of possible mob violence.

According to Marchesi, he went home and found his wife, Rosari, and his cousin and namesake, occupying Mrs. Marchesi's bed chamber. The younger Marchesi, who was not of age, had been a favorite of the husband, and the scene drove him mad, he said. Without allowing his presence to become known, Marchesi went to a woodshed, procured a hand ax, crept to the bedroom and chopped off the heads of the two lovers.

Taking his baby, two months old, from the arms of his slain wife, Marchesi washed the blood from its face, carried it to the home of his brother, and said that his wife was ill. He returned to the house, dressed his daughter, Josephine, 4 years old, and took her to his brothers.

### Specters Haunted Him.

Marchesi again returned to home, concealed the hatchet, and began wandering about the city. As morning dawned the specters that had haunted Marchesi all night drove him to hide in the basement of an Italian Catholic church.

In the darkness of the basement, he said, he heard the death cries of his wife and saw horrid forms of headless persons rushing at him through the blackness. As the music of the morning mass came faintly to his ears from the auditorium above, he said he thought he distinguished the words: "Vengeance is mine, saith the Lord." Then he rushed from his hiding place, went to the home of the parish priest, and sought relief in confession of what he had done.

## REBEL CHINESE CLAIM VICTORY

### CAPTURE OF TIGER HILL FORT IS REPORTED BY THE REPUBLICANS.

This Is Most Important Fort Outside Nanking, as It Keeps Rebel Fleet From Approaching—Whole City Now Lies in Danger of Capture—Hankow Reported Captured, Also.

Shanghai.—A brief message has been received here by wireless from Nanking announcing the capture of the Tiger Hill fort by the republican army and surrender of the imperialists defending it.

Tiger Hill is the most important fort outside Nanking. It is well fortified and contains big guns, which menaced the approach of the rebel fleet and commanded the lower section of the city. Lion Hill fort, at the lower end of the town, is within the wall.

This important victory and the surrender of the imperialist soldiers indicates the desperate position of General Chang, commander of the imperial troops. With the attacking force occupying Purple Hill, to the southwest, the entire city now is at the mercy of the bombardiers.

Chang's force is inadequate to defend the walls of the city, which are 22 miles in circuit. The imperialist commander possibly escaped, in which case Nanking may surrender, and this, coupled with the reported victory of the rebels at Hankow, would place an entirely new aspect on the situation.

Telegrams received through reform sources from Yuchang report the complete route of the imperialists at Hankow.

The republicans are said to have regained all the positions on the Hankow side of the Yangtze and the Han rivers. Wireless reports say there was heavy firing and fighting, with great losses on both sides.

Dr. Sen concluded by saying the republic would respect all engagements of the Chinese empire, even those with Russia and Japan.

C. J. Johnson, an old man and a veteran of two wars, saw the desecration and called Astay to account. Astay told the ex-soldier the red flag is as good as the Stars and Stripes, whereupon Johnson ordered him to replace the flag and to kiss it. Astay demurred and the war veteran forced him to do as he ordered. Then Astay attacked Johnson and was given a terrible trouncing on the street. Grand Canyon, Ariz.—Tired and wet, but happy, Emery C. and Ellsworth L.
