PEOPLES PUB. CO. INSTALL BIG PRESS

The Largest Press in Sheridan County Has Been Installed By the Peoples Publishing Co.

The Peoples Publishing Company, Inc., now have the best equipped newspaper and job printing plant in Sheridan county, having last week installed a huge two revolution combination newspaper and job printing press—a press that prints four pages of the Producers News with but one impression, requiring but two runs for eight pages—and also having installed a No. 3 Omaha attached newspaper folding machine which folds and trims the newspapers. An illustration of the newspaper press and the folding machine is herewith printed.

The newspaper press and the folding machine was made necessary because of the rapid increase of the subscription list which could not be handled with the machinery installed when The Producers News was established, twenty weeks ago. The old press printed but two pages with one impression, and since the Producers News is printing eight pages, it was necessary to run 1,450 papers through that press four times, or a total of 5,800 impressions before the newspaper was completed. Then the big job was folding the newspapers after they were printed, and that job was done by hand, requiring hours of labor and actual waste of paper.

The new press, which had its first trial last week, prints four pages at each impression, requiring but two runs or a total of only 2,900 impressions.

After the first four pages are printed the folding machine is attached to the newspaper press, so that when the last four pages are printed, the newspaper is folded and ready for mailing department, the newspapers being printed and folded in the run through the press. The new press has a speed of 1,400 impressions per hour, while the former

U. S. Man Power 25,175,000

BY MILTON BRONNER

Washington, D. C., Aug. 31.—What is the man-power of America? Five million is the goal the War Department has set for itself. This means that 4,000,000 men are to be placed in France, with 1,000,000 more in training here.

If more are needed, millions will be forthcoming. Here are some figures on America's man-power:

Males between 21 and 31 registered last year	9,500,000
Young men who have since become 21, registered last June	750,000
Young men 21 since then, registered Aug. 24	150,000
Estimated number who will register when the draft is extended to men between 18 and 45	13,500,000
Marine Corps	75,000
U. S. Navy	400,000
The old regular army and national guard	800,000

GRAND TOTAL 25,175,000

Of course, from this number finally must be deducted cripples, unfit and enemy aliens, but a staggering total would still be left.

The army of 5,500,000 will be selective in every sense of the word. Uncle Sam will choose the most physically and mentally fit to be his soldiers.

FORMER CULBERTSON MAN IS ACCIDENTALLY KILLED

Residents of Culbertson are sorry to learn of the tragic death of George Hagadone, Sr., which occurred August 2nd, at Lexington, Neb., where he has resided for the past three years. It was while in the act of cutting down grass with a mower about the vacant lots in that city that his spirited team became frightened and ran away, throwing him in front of the mower and beneath the wheels and running sickle which mangled and cut his body in horrible shape, resulting in almost instant death.

Mr. Hagadone was of advanced age, being 84 years old at the time the sad affair occurred, and leave a wife and twelve grown up children, a part of whom are from a former marriage.

The deceased lived on a farm about eight miles northwest of Culbertson for a period of five years after which he decided to return to his former home at Lexington to spend the remainder of his days. He was well thought of by all who knew him and considered a good neighbor and citizen.

George Hagadone, Jr., of near Culbertson was notified of his father's death and was able to attend the funeral, returning home the first of this week.

Prospective Registrants Urged to Familiarize Themselves With Questions and Instructions To Give Prompt Response to Registrars

The Sheridan county registration board received instructions and orders regarding the registration of all citizens of the county between the ages of 18 and 45 years. The date of the registration, according to late reports from the board is set for next Thursday, September 12th.

There will be 20 questions to answer this time, and the card is somewhat different than the one used in registering the men between the ages of 21 and 31.

"Between now and registration day next Thursday, prospective registrants are strongly urged by this office to study carefully the questions and the instructions in order to be able to give prompt responses to the registrars," readers the order from the Provost Marshal. "Registrars are also instructed to familiarize themselves with the new cards and the questions thereon."

The new law makes it mandatory on all males between the ages of 18 and 45, inclusive, to register with the exception of those already registered under the preceding registrations. The age limits includes all who are past the age of 18 years and who have not yet reached their 46th birthday anniversary.

COUNTY POLITICIANS PREPARE FOR FALL DRIVE

A loyalty meeting was held in Plentywood Wednesday of this week, attended by the politicians of Sheridan county, which wound up in a Republican-Democratic alliance. The politicians selected candidates to run on the Independent ticket against the Farmers Nonpartisan League candidates at the general election this fall.

Apparently the acid test the Farmers N. P. L. applied to the strength of the politicians' vote at the primary election in August had good effect, and the gang are re-enforcing themselves preparatory to the fall drive which will surely bring them nothing but defeat at the hands of the farmers.

The tactics the politicians will use during the coming campaign is not yet known, but it is a safe bet that they will use considerable camouflage.

The newlyweds will make their home at Archer.

SOLDIER WANTS THE PRODUCERS NEWS FORWARDED

The Producers News is in receipt of a letter from Olaf Nordby, former elevator manager at Raymond, now a soldier in training at Camp Lewis, Wash., who asks that this newspaper be forwarded to his present address. In a postscript Mr. Nordby says, "Uncle Sam sure does take good care of us boys here at Camp Lewis." His address is, Olaf Nordby, Base Hospital, 93rd Division, Camp Lewis, American Lake, Wash.

A contingent of sixteen Sheridan county men, just two squads, including Art Pronvost of Poplar, and Anton Paul Beyer of Plentywood, the former who was transferred from the Detroit, Mich., board, and the latter from the LaMoure, N. D., board, entrained here on Thursday morning and are now on their way to Camp Lewis, American Lake, Wash.

The local board called seventy men from over the county to entrain on this date, but it appears that fifty-six of the selectives were placed in deferred classification until November 1st, this year. The board sent out a call yesterday for enough men to fill the quota of seventy, which means that an additional fifty-six men will entrain here shortly.

Those whom received deferred classifications until November, was due probably to the fact that they were needed at home to help with the threshing and fall farm work.

The usual preliminary ceremonies were held at the Community Hall Wednesday afternoon, and a free dance was given at the Orpheum that night for the boys. The Plentywood band played several selections and headed the parade from the Community hall to the depot.

WHITE BREAD BACK AGAIN

Fifty-Fifty Wheat Substitute Rule Off Monday; Eighty-Twenty is New Ratio

All restrictions on the amount of wheat flour that may be purchased is removed and the 50-50 rule governing the sale of flour and flour substitutes is superseded by an 80-20 rule, 80 per cent of wheat flour to 20 per cent of substitutes.

This is the announcement that Herbert Hoover made to the people of the United States through the press last Wednesday morning, according to The (Fargo, N. D.) Courier-News, which adds:

In the matter of white bread, the people of the United States will share and share alike with the allied nations. Americans will get exactly the same amount of wheat in their bread as will the people of England, France and Italy, and no less.

The announcement of the new program comes after mature deliberations at a conference of the food administrators of the entire allied world, from which Hoover has just returned.

"Victory" Flour

An innovation announced by Mr. Hoover in outlining the new program, is the plan to furnish the public with a "victory" flour which is to contain 20 per cent of substitutes mixed with the wheat flour at the mill. Those purchasing this flour will not be required to buy substitutes.

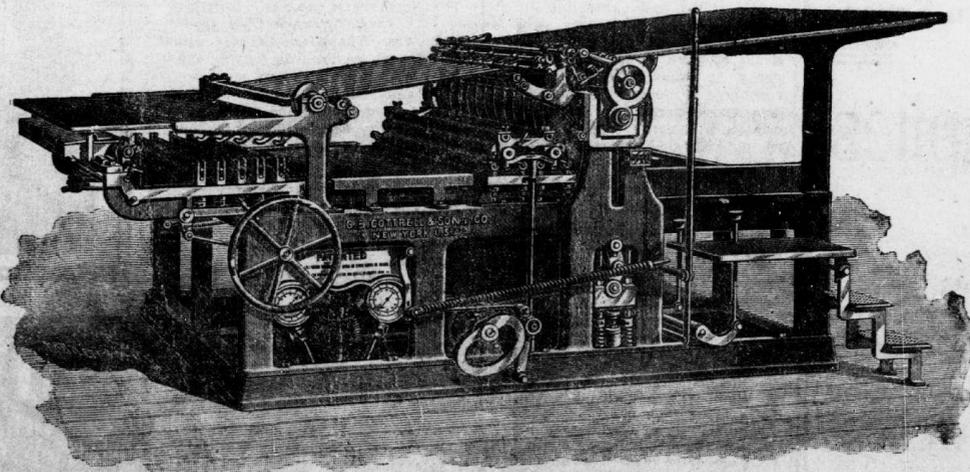

Victory flour and all substitute flours are to be milled in accordance with the standards of the United States food administration.

The announcement is made that the price of "Victory" flour containing 20 per cent of substitutes is in no case to be higher than the price of wheat flour.
