McADOO URGES U. S. LOANS TO ALLIES NEXT YEAR

Washington, Dec. 12.—Congress was asked by Secretary McAdoo in a letter made public today to authorize the continuation of loans to the allies for one year after the termination of the war to finance the purchase of food-stuffs and reconstruction materials in this country. No additional appropriations for loans to the allies was sought, but it was suggested that that proposed peace-time provision apply to the \$1,500,000,000 of the \$10,000,000,000 appropriated for allied loans, which Secretary McAdoo estimated will remain unexpended when peace is declared.

Under existing law the United States may lend to the allies only for war purposes and during the war. In line with this policy, the secretary also sought to have new legislation provided that credits extended after December 15 be for "purposes growing out of the war," to make their use more flexible.

The present law requires that the securities of foreign governments which the secretary of the treasury is to take in exchange for loans must be of the same maturity as that of the preceding Liberty Loan from which the funds came. Mr. McAdoo would change this to give the treasury limited authority to determine the maturities, in view of the prospective issuance to short term bonds for the fifth loan.

Treasury officials have ascertained that foreign governments are prepared to buy great quantities of food, iron and steel, machinery, cotton and other materials from the United States during the next few years, to aid in their physical reconstruction programs. Since the United States has absorbed much of the world's supply of gold in the last few years, the nations have not the resources, either in cash or ready credit, to pay for their purchases without these loans, officials maintain.

LEAGUE OF NATIONS IMPORTANT PART OF PEACE CONFERENCES

London, Dec. 11.—Arthur J. Balfour, secretary of state for foreign affairs, in outlining his views of the peace conference today, told the Associated Press that he thought the meeting in Paris this month would be merely informal and preliminary to the conference of the associated governments at the first of the year, which would formulate all the important terms of peace agreement. This conference, he said, would be the most important and the longest of the series. When it was finished the enemy countries would be called in to ratify the conclusions reached.

The foreign secretary said he believed the question of a league of nations was the most important work imposed on the conference. "The prominence Mr. Wilson has given the subject is a valuable contribution to civilization," he declared.
