The woman who the other day left the saving of her lifetime in the savings bank on the advice of its president and then went back home to get six more dollars to add to the amount did a wise thing and set a good example to many who get nervous and increase the panicky feeling by withdrawing their deposits instead of leaving them to enable the bank to withstand an unreasonable run. Some people may laugh at the idea of six dollars doing any good. But she did what she could to restore confidence and that is more than many thousands of others did whose capital was large.

IN an uncertain way there are rumors here and there of a reduction in the prices of some commodities, but so far no one seems to pay less for what he buys. But it is well known that prices go down by canal boat and go up by wire.

Big Fire at Superior.

Duluth, Minn., Nov. 8.—Fire of an unknown origin tonight destroyed the Great Northern elevator "A" in Superior, together with 600,000 bushels of grain, principally wheat, all of which was fully covered by insurance. The elevator was owned by the Great Northern railroad, but was leased to the A. D. Thomson Co. of Duluth.

The sparks soon ignited the Grand Republic mill on Tower Bay slip, the Great Lakes Dredge and Dock company's dock, and the Duluth and Superior Storage company which contained the finishing plant of the Webster Chair company. At midnight it looked as though all would be completely destroyed, entailing an estimated loss of \$2,000,000.

The fire started at the southwest corner of the elevator and before it was noticed it had communicated to the elevator. An alarm was turned in and four fire tugs responded, but owing to the intense heat they were driven out of the slip and devoted all their energies to saving the adjoining property.

At one o'clock Saturday morning the fire seemed to be under control, though burning fiercely in some of the burned districts. The combined departments of Duluth and superior are combating the conflagration. The property destroyed at this hour is as follows.

One Great Northern elevator, Mankato flour mill and elevator, Commander mill and elevator, 20 dwellings and several small warehouses lining the bay front. The flames have communicated to the St. Paul & Western Coal company's dock and the office of the shipbuilding company is destroyed. It is now estimated that the damage will reach \$2,500,000.—Butte Miner.

Poet—I can make no mistake in saying her cheeks are like the rose.
Friend—But you have never met her.

Tainted Money.

The big touring car had just whizzed by with a roar like a gigantic rocket, and Pat and Mike turned to watch it disappear in a cloud of dust.
"Them chug wagons cost a heap av cash," said Mike. "The rich is fairly burnin' money."
"An' be the smell av it," sniffed Pat, "it must be that tainted money we do be hearin' so much about."

Coy, But Not Too Coy.

H. C. Friel described at a directors' meeting the amalgamation of two railroads.
"At first," he said, "the X. Y. Z. people were coy. Yet they were not too coy. They were like Pat and Biddy."
"Biddy," says Pat, "hildly, 'did ye ever think of marryin'?"
"Sure, 'now," says Biddy, looking demurely at her shoe, "sure, now, the subject has never entered me mind at all, at all."
"It's sorry Ol am," says Pat, and he turned away.
"Wan minute, Pat," said Biddy, softly. "Ye've set me thinkin'."
