

**PERUNA A TONIC OF GREAT USEFULNESS.**

HON. R. S. THARIN

Hon. R. S. Tharin, Attorney at Law and counsel for Anti-Trust League, writes from Pennsylvania Ave., N. W., Washington, D. C., as follows: "Having used Peruna for catarrhal disorders, I am able to testify to its great remedial excellence and do not hesitate to give it my emphatic endorsement and earnest recommendation to all persons affected by that disorder. It is also a tonic of great usefulness." Mr. T. Barnicot, West Aylmer, Ontario, Can., writes: "Last winter I was ill with pneumonia after having in grippe. I took Peruna for two months, when I became quite well. I also induced a young lady, who was all run down and confined to the house, to take Peruna, and after taking Peruna for three months she is able to follow her trade of tailoring. I can recommend Peruna for all such who are ill and require a tonic."

**Per-ru-na Tablets.**

Some people prefer to take tablets, rather than to take medicine in a fluid form. Such people can obtain Peruna tablets, which represent the solid medicinal ingredients of Peruna. Each tablet is equivalent to one average dose of Peruna.

It may look as though you regularly get the worst of it in everything, but you don't. Fate is too big to fool with any one individual.

**HIDES, PELTS AND WOOL.**

To get full value, ship to the old reliable N. W. Hide & Fur Co., Minneapolis, Minn.

**They Like Excitement.**

"Do the trusts really want a president who would let them do exactly as they pleased?"

"Naw. They wouldn't make no more money, and they'd have considerable less fun."

**A Rare Accomplishment.**

The fairy godmother looked after Cinderella approvingly, as she went off with her prince.

"Concerning that slipper episode," she remarked to herself, "that girl is about the only mortal woman I know who could do the right thing and put her foot in it at the same time."

**Fishing From Car Windows.**

Passengers on Southern Pacific overland trains are having rare sport trolling from car windows for fish in the Salton sea and good catches have been made. About midway on the sea an arroyo extends back into the mountains. The track crosses this on a trestle. The water is fifteen to twenty-five feet deep, and it has become a custom of the dining car porter to throw scraps overboard from the tables there. Thousands of fish of all sizes lie in wait for the train and can be easily seen.

A few days ago an irrepressible fisherman prepared his hook and line, and as the train slowly thundered over the long trestle swung it far out over the water. This the fish mistook for their customary meal, and a voracious carp, three feet long, seized the bait and was drawn aboard the Pullman.

**SCHOOL TEACHERS**

**Also Have Things to Learn.**

"For many years I have used coffee and refused to be convinced of its bad effect upon the human system," writes a veteran school teacher.

"Ten years ago I was obliged to give up my much loved work in the public schools after years of continuous labor. I had developed a well defined case of chronic coffee poisoning.

"The troubles were constipation; flutterings of the heart, a thumping in the top of my head and various parts of my body, twitching of my limbs, shaking of my head, and, at times after exertion, a general 'gone' feeling with a toper's desire for very strong coffee. I was a nervous wreck for years.

"A short time ago friends came to visit us and they brought a package of Postum with them, and urged me to try it. I was prejudiced because some years ago I had drunk a cup of weak, tasteless stuff called Postum which I did not like at all.

"This time, however, my friend made the Postum according to directions on the package, and it won me. Suddenly I found myself improving in a most decided fashion.

"The odor of boiling coffee no longer tempts me. I am so greatly benefited by Postum that if I continue to improve as I am now, I'll begin to think I have found the Fountain of Perpetual Youth. This is no fancy letter but stubborn facts which I am glad to make known."

Name given by Postum Co., Battle Creek, Mich. Read the book, "The Road to Wellville," in pkgs. "There's a Reason."

**MONTANA NEWS**

**MISSOURI NAVIGATION PLAN.**

Montanans Will Push Project at Coming Congress.

A movement is on foot in Helena looking to the renewal of water construction, which before the advent of railroads served to carry all supplies and foodstuffs required by one of the most active gold mining states in the Northwest. The object of the movement is to utilize the waters of the Missouri and Yellowstone rivers.

The Helena Commercial club has taken the matter in hand and intends soon to call a meeting of the citizens of the localities affected, at which a plan of action may be arranged. At this meeting there will be drafted a memorial to Senators Carter and Dixon and Representative Pray urging that these legislators take an active interest in the furtherance of deepening and improving the Missouri river from Fort Benton, Mont., to Sioux City, Iowa, as outlined in President Roosevelt's recent speech at Memphis. They will also be asked to communicate with commercial organizations of St. Louis, requesting their co-operation in the effort to deepen the river channel.

Fort Benton was the head of navigation on the Missouri until steamboat service was discontinued upon the completion of the Northern Pacific in 1883. An incommensurate service is continued, but only between local and widely scattered points at various places on that stream as well as the Yellowstone.

It is the hope of the Helena promoters' plan that the river may be dredged so far as again to permit of the running of freight steamers from St. Louis and Kansas City to Fort Benton, and also on the Yellowstone from its confluence with the Missouri as far as Livingston. In this manner the great freight congestion on Montana railroads could be relieved in a marked degree through the shipment of bulk and unperishable freight, and allow the railroads to handle the rush class and fuel.

Whether or not congress does anything next spring, navigation on the Missouri will be resumed between Fort Benton and Mondak. This boat will bring many miles of good land into close communication with the outside and undoubtedly will result in accelerating the coming of settlers.

**WILL PROBE FENCING.**

Grand Jury May Land Some Big Live Hunt Men in Net.

Judge Hunt in the United States court at Helena directed the calling of a federal grand jury for Dec. 2 next to report upon about twenty-five known cases, or those in which federal commissioners have acted. Included in this list is the usual grist of whisky and robbery cases, as well as two murder cases. It is understood that some big fish will be landed, presumably for land or timber law violations. At the present term of court some of the largest live stock men of the state will undergo trial for alleged illegal fencing of lands. Judge Hunt has decided that hereafter he will impose more severe sentences in such cases.

**GOING AFTER POACHERS.**

Hunters Kill Elk on Montana Game Preserve.

Paul McCormick of Billings is incensed over the fact that several persons, said to reside in Billings and west of the city have been slaying some of the half domesticated elk on his big game preserve northwest of Billings. Reports that hunters were in the pasture caused Mr. McCormick to call out his force of ranch hands and tell them to be on the lookout.

Deputy Sheriff Terrill, in company with Mr. McCormick, found the hide and portions of an elk at a ranch house and the quarter of another animal was found by Deputy Matlock in the city.

**HEINZE IS OUT.**

Syndicate Buys His Stock in Butte Bank.

Through the consummation of a deal announced by John Macginnis, president of the Silver Bow National bank of Butte, F. Augustus Heinze is eliminated from the directorate of that institution, all of his stock in the bank being acquired by a syndicate headed by Thomas A. Hinds and A. B. Cook.

Mr. Macginnis was formerly vice president of the United Copper company and during the Heinze-Amalgamated warfare was Heinze's chief lieutenant in his operations in Butte.

**ARE SHIPPING CATTLE.**

Thousands of cattle are being shipped from Northern Montana. Shipments are being made every day from Conrad, Fort Benton, Great Falls, Cascade and other points. It is estimated that before the season closes more than 1,000 cars of cattle will have gone out from Northern Montana.

**MILLIONS MORE TO TAX.**

Montana's Assessed Valuation Rolls Show Big Increase.

The total assessed valuation of all taxable property in Montana this year is \$251,325,719, according to figures compiled by the state board of equalization. The total assessed valuation of all real property is \$116,167,719, of personal property \$91,242,993 and of railroad property \$43,816,035. This is an increase over the assessed valuation last year of \$17,000,000.

**ENCOURAGING FACTS**

THOSE CONTEMPLATING CHANGE OF RESIDENCE SHOULD READ THEM.

The other day the writer was in the Office of the Canadian Government at St. Paul, Minnesota. On the windows of the building were signs to the effect that homesteads of 160 acres were given free to actual settlers, and in the windows were displays of wheat, oats, barley, other grains and vegetables, which he was told were grown in Western Canada. This could be readily believed for in no other country on the Continent would it be possible to grow such splendid specimens. The world is now pretty well advised that in the growing of such cereals as have been named and vegetables as well the Provinces of Manitoba, Saskatchewan and Alberta have no competitor. For several years past specimens have been exhibited at State and County Fairs throughout the State, and these exhibits are looked upon as one of the chief attractions. They have demonstrated what can be done in the climate of a country possessing a soil that will grow things. But that it was possible to grow vegetables such as were seen there seemed to create some doubt. But it was the case. And apples too. Not of course the splendid fruit grown in countries more congenial to such culture, but they were in evidence. Throughout Indiana, the hoosier farmers were forced to stop and think. When a similar exhibit was placed before them during the past few weeks, many of them were forced to stop and remark: "That is much ahead of anything we can do. The quality of the grain we have conceded, for has not so-and-so sent us samples grown on his own farm the like of which we had never seen before. But to think of the vegetables—and such vegetables. Why, we thought everything was frozen up there, and these turnips, cabbages, cauliflowers, beets, man-golds, pumpkins, and squashes are away ahead of anything we ever saw grow." That is the story everywhere. Thousands of Western Canada homesteaders, formerly United States citizens, are growing just such grain, just such vegetables, which yield them a splendid profit with little outlay on the farms that they have secured from the Government of the Dominion of Canada at the nominal cost of \$10 for 160 acres. If adjoining land is wanted it can be secured from the railway companies or from private individuals at moderate prices and reasonable terms. By placing your name and address on a postal card and addressing it to the Canadian Government Agent, whose name appears elsewhere, a copy of "Last Best West" telling you all about it will be sent you free.

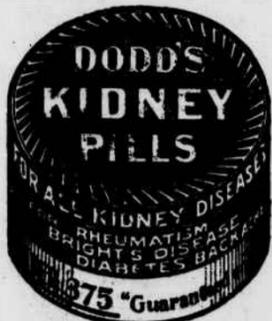

Ask a truthful man for his opinion and the chances are that he will hand you something you don't want.

"Solid Comfort"

New and Liberal Homestead Regulations in

**WESTERN CANADA**

New Districts Now Opened for Settlement

Some of the choicest lands in the grain growing belts of Saskatchewan and Alberta have recently been opened for settlement under the Revised Homestead Regulations of Canada. These lands of 160 acres each are now available. The new regulations make it possible for entry to be made by proxy, the opportunity that many in the United States have been waiting for. Any member of a family may make entry for any other member of the family, who may be entitled to make entry for himself or herself. Entry may now be made before the Agent or Sub-Agent of the District by proxy, (on certain conditions) by the father, mother, son, daughter, brother or sister of intending homesteader.

"Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 2 and 20, not reserved, made homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 40 acres, more or less."

The fee in each case will be \$10.00. Churches, schools and markets convenient. Healthy climate, splendid crops and good laws. Grain-growing and cattle raising principal industries. For further particulars as to rates, routes, best time to go and where to locate, apply to

CLIFFORD BLOCK, CHAS. FILLING, Grand Forks, North Dakota.
