NOW READY FOR ANY BUSINESS IN THE BANKING LINE.
Interest Paid on Time Deposit
Active accounts solicited. Miners wishing to save small amounts will receive interest.

CAMP NOTES.
Fresh fruit at Mrs. Sprague's. Fine Michigan apples at H. Matthes'. Town property is changing hands rapidly.

Wanted: 100 men to unload schooners at Mix's.
Several new claims are about ready to apply for patents.
For sale—Good restaurant refrigerator, at the Frisco.

B. B. Crowninshield of the Falls was here this week.
Neihart is enjoying a steady but healthy boom.

Dr. John Reid, Great Falls, was in town last Sunday and Monday.
Mrs. E. E. Corbin is teaching a very successful term of school here.

We print and bind mining stock certificates and warrant satisfaction.
Buy a bottle of that six-year-old California angelica for \$1 at H. Matthes'.

Ed. Husby has sold his residence above the Manitoba house to Mr. Naplick, of Great Falls.
Gust Okerman did Neihart last Saturday. It is rumored that Gust will get married soon.

Buy a bottle of delicious port, imported from Spain, also Spain-imported sherry at H. Matthes'.
The Springs mail has often the past week been delayed on account of the bad condition of the roads.

Just received 10,000 sheets of New Music; all the latest songs to date.
PHIL KESSLER, Great Falls.

Chas. Gordon, the brother of our esteemed young real estate man, Jas. S. Gordon, called upon his brother and enjoyed our scenery for a few days this week.

and envelopes turned out of this office? Having seen them, you will never like the rubber hand stamp so well afterwards.

Neihart has the best brass band for a town of its size, not only in the state, but in the whole west. On last Sunday evening the boys discoursed music to the citizens which was finely superb.

J. K. Clark, the live real estate man of Great Falls, came in last Sunday to view changes in Neihart. He evinced surprise at the prospect and says that reports about the mines are not over drawn.

T. F. McMillen and H. W. Soule, successors to Falligan and Yeager in the meat market have opened up in full blast and are sawing steaks with the grace of princes. Give them a call.

James Moore and Dan McNeil have begun grading on their new contract on the White Sulphur Springs road. The contract is for the completion of the road to the county seat and is taken at \$11,000.

E. E. Smith has bought the Frisco hotel bar from Murphy & Nelson, its former owners, and now pours out the smiling deceptions in their stead. Smith is an old bar tender, being long known in Neihart and having once been bar keeper in Mix & Johnston's place.

H. Matthes has remodelled his wholesale liquor room with a railing placed on one side behind which he will keep all his liquors, fruit and nuts in large bulks. The railings makes it handier for Matthes and not so handy for outsiders.

A certain shrewd capitalist recently in our town avowedly made the following remark: "I have been east to the Mississippi and west to the coast, and I have seen no town with more capital per capita and solid men to the square inch than are found in the little town of Neihart."

Neihart, Montana, is a lively and growing town. There are some valuable and extensive mines in the vicinity and the railroad is rapidly nearing it. Trains will be running in there within sixty days. There are a good many Grafton people and some from other North Dakota towns in there.—C. J. Kops, in Grand Forks Plaindealer.
Water power for the Moulton is the next thing on the docket. Since Mr. Raymond's return from the east the course of the main pipes has been selected and the contract for laying the same will be let at once. The creek will be cut about three miles above town for the water supply, which will be brought down in an 18 inch pipe laid three feet deep in the ground. The fall for this distance will be several hundred feet and the supply will be continuous. Work on the ditch has been commenced.

Steve Pierson is at the Falls.
D. F. Smith was in Neihart a part of this week.
Take the paper and order it sent to your friends.
Extra copies of the HERALD are to be had at this office.
The camp will soon have two substantial stone blocks.
Insure your building with Chown & Wilcox, Great Falls.
Neihart will have two stone buildings finished in a few days.
Don't you want some business cards? Get them printed here.
T. A. Wall was circulating in the pure atmosphere of Neihart last Sunday.
W. W. Praul, our live young attorney went to Great Falls last Wednesday.
Capt. D. B. McIntosh is adding to his general health by a few days sojourn at Neihart.
Plain and fancy sewing and dressmaking at Mrs. Bennett's. Card seen elsewhere.

Pure California grape brandy, and fine California port and Riesling at H. Matthes'.
Will we have time for a blow-out on the Fourth? Let us drink a big health to Uncle Sam. He's all right.
Phil Kessler keeps the best assortment of pianos, organs and all musical instruments in the Falls.

If you wish a business or residence lot on the Compromise ground, Neihart. Address Chown & Wilcox, Great Falls.
Carter Barker has planned to erect a \$2,000 residence at the upper part of town. This is jarring loose in great propriety.

H. G. Klenze, who is actively and steadily pushing Neihart's real and mining interests at Great Falls, was here this week.
Hans Rochi is now head fisherman of the gulch. He caught a string of fourteen fine trout last Wednesday. He challenges a better man.

D. Driscoll, Public administrator was in town this week looking after the interests of Hawkins Kirby, H. P. Atkinson, Don Buchanan and Wan Kane.
For Sale—A good, warm cabin with two rooms and kitchen, papered and calcimined, and good flooring, located near the Manitoba House. Will sell reasonably. Apply to Ed. Husby.

E. G. Maclay, of Great Falls, and Paul A. Fusz, of St. Louis, the latter president of the Bi-Metallic Mining company, were here this week and called pleasantly at the HERALD office.
Murphy and Giffels' saloon has been fitted out with a fine upright piano of the New England company's make. It notes float serenely on the circumambient air.

A. W. Mars, representing the Marinette Iron Works Co., of Wisconsin was in town part of this week, working in the company's interest. He said that no natural cause can prevent Neihart from becoming a city, and that the mines look better for the amount of development than in any point he has visited.

Chas. Crawford is moving his log building which stood in the course of Madison street about forty feet to the rear, where it will be clear of the street and will stand on a lot. This operation opens the street for a long stretch and will help to perfect the town according to the plat. The house is a substantial one and will be used as a dwelling.

Richard Bennett, Esq., of Grand Forks, N. D., in company with Mr. Tiernan, came in on last Sunday's train and spent a few days at Neihart. Mr. Bennett is a very pleasant and business-like gentleman and while here, with Mr. Tiernan, called agreeably at this office. He, in partnership with Judge Woodruff also of Grand Forks, will open a law office at Neihart; firm name, Bennett and Woodruff.

R. M. Raymond, expert for the Moulton and one of the most business like men in Neihart, came home from his eastern trip last Sunday accompanied by one of Boston's excellent and accomplished ladies as wife. They will renounce the land of beans and other intellectual advantages and make Neihart their future home. Good luck and a long life, Raymond.

The Con Buchanan mining claims will be sold at public sale June 13th at the Springs. This estate has some valuable property. The Tom Hendricks and Fourth of July, on Snow creek on the vein of the Benton property; the Fairview on Carpenter creek parallel with the '88; the Ajax including a part of the flat opposite the mouth of Carpenter. For further information inquire of B. S. Fitzpatrick, Hugh Stevens, Jenks Barker or D. Driscoll, Public administrator.

Judge Gray's court last Monday was the scene of a trial for assault and battery, Mrs. Page Plaintiff, and Ella Rogers, (colored) defendant. Some excitement resulted and some testimony was given that made the jury smile, the chairs jumped up and down, and the old brass clock hid its face with its hands. A verdict of guilty was rendered, and the judge sentenced the culprit to a fine of \$10 and costs and 20 days imprisonment at White Sulphur Springs. She is the one who came in town about 2 weeks ago, from the springs and she at once expressed her joy at returning, in language not known in Webster.

Tom Gong's restaurant has stood on two lots since the new platting, and work is now in process to have it moved a short space to the north.
Jno. J. Murphy, who was partner with Mr. Nelson in the bar at the Frisco, was here this week looking bright and happy. He returned to the Falls yesterday.
E. J. Sanford has ordered carpenters to build him a cottage, after which he and Mrs. Sanford will begin housekeeping. They will return perhaps today.
A. L. Morefield, teaming contractor, is here waiting till the hauling of ore can give his teams employment. He has forty head of the best of work horses.
Interesting mining news will always be welcomed at this office. The paper speaks for the mines and is run in the interest of Neihart in particular. Bring in the news.
Mr. Wilcox, agent for the Compromise ground, informs us that they will, in about a week's time, grade Forest street. They will then raise the price of the lots fronting on that street.
F. B. Wilcox, of the firm of Chown & Wilcox, real estate dealers, Great Falls, was here this week viewing grounds which are in his hands. He leaves Jas. S. Gordon as his local agent, office in the bank building.

Geo. S. Bailey, barber in the Park hotel at the Falls; was here this week looking for a location at this place. Not likely he succeeded, as no vacant business rooms are to be had.
P. McHugh, of Langdon, N. D., president of the North Dakota land and townsite company, has purchased the lot next north of D. B. McCann's and will very soon begin the erection of a business block.

C. D. McLure and Paul A. Fusz, Granite, and Dr. J. M. Merrill of Oakland, Cal., with E. G. Maclay, of Falls, were here this week investing and planning for the further development of certain mines.
The new grade from the Cornucopia mine starts from the mine in the direction of Snow Creek, keeps to the right of the gulch to the creek where it follows the valley to its mouth at the old smelter. It makes a very even and uniform grade.

The Cornucopia mine, now partially owned by the Granite Mountain company, will receive \$100,000 worth of development work this summer. Their steam pumps arrived Tuesday, and were at once placed in position for work. This mine will prove a very heavy yielder.

Some locations have recently been made upon Sheep creek, or on some of the streams that flow into it. Some years ago a miner named Gray, leaving Neihart, attempted to shorten his route, but got lost, and came out by the way of Sheep creek. His horse stumbled going down a hill and threw out a large boulder of float, which Gray broke and had sampled. It ran so high that he got ready the next spring to return to find the lode, but on the eve of his departure he was taken with pneumonia and died, and his friends were never able to find the float. The recent locations are supposed to be in the neighborhood of Gray's discovery. This ground is supposed to be part of the Neihart belt of ore, and if it should prove true, this belt is about 30 miles long by four or five miles wide.—Mining Review.

Hammock and croquet, Sets a Large Line at Calkin's Book Store, Great Falls.
Carpenter's Chips.

O. L. Haberbusch is making rapid progress on the Luther block.
The addition to the Frisco hotel is one of the things near at hand.
O. L. Haberbusch began the erection of Mr. Sanford's residence Wednesday morning.

Mr. Ainsworth has purchased a lot opposite the post office and will erect a boarding house at the place. Excavation is now going on for the building.
J. S. Cook the contractor and builder, who keeps the big furniture store, has built on an addition to his store where he will make his residence. Cook is a good carpenter.

A. T. Westworth is building a dwelling beyond the Manitoba house; it is 12x24 feet in size and so planned as to make a very convenient home for Mr. and Mrs. Westworth.
Gottlieb Wenzer is refitting a cabin on Madison street and will make it into a lodging house. It will have fourteen rooms, all used for sleeping purposes. Joe Wagner is the builder.

J. F. Sullivan and C. Peterson, two energetic young men, have bought a lot on Madison street on the Frisco addition to be occupied at once with a boarding and lodging house. Cognomen, The Scandinavian hotel.

Valentine Brant has raised a 2 story frame building on main street just beyond Jack Wilson's saloon. It is 24x46 feet in size and will be divided off into 16 sleeping rooms and a parlor. Mr. Schwartz will open it ready furnished in a few days. A big ball is announced to roll there ere long.

NOTICE OF MEETING.
The First Annual Meeting of the stockholders of the Galt Mining company will be held at Neihart, Mont., on the 15th of June, 1891.
By ORDER OF THE PRESIDENT.

Scrap With a Knife.
A fatal scrap took place at Barker on Sunday evening about 8 o'clock in the saloon of Thomas Geer. John Lee, a Finlander, and miner, highly intoxicated, stabbed Sam Ridgeway, a gambler, over the right eye inflicting a terrible wound and exposing the brain. In an effort to secure the knife from the drunken man Hugh McLean also received a cut across his right hand almost cutting it off.
Lee had been wildly mad all evening, and had tried several times before to make fight with different ones. After the deed he escaped to his cabin and securing a rifle made his escape. The weapon used was a shepherd's knife, and about 7 inches long. Mr. Ridgeway lingered in unconsciousness till morning but died shortly after. Al Hockett, Charlie Eldridge and Eddie Kane started at once toward Neihart over the trail, putting all of the prospectors and local residents on their guard for the apprehension of the murderer. It is thought that all passes are guarded that he cannot escape.
Later: Lee was captured on Tuesday at Red Coulee, a branch to the Box Elder between Armington and Tiger Butte. No particulars have been learned.

FROM THE MONARCH.
Miss Maud Ogden returned Sunday from a pleasant visit to friends in Great Falls.
Chas. Wagner of the Holter Lumber Co., came in on last Wednesday's train.
Last Friday's train brought five car loads of bridge timber to be used on the extension.

The Nelson block is now under roof and will be ready for occupancy within a week or ten days.
Miss Fanny Wasgatt received her commission as postmaster at Monarch and has qualified for the office.
T. E. Willour returned last week from an extended visit to the Hub of the Universe. He is sporting a silk tie now.
Eight additional teams are expected to arrive on tomorrow's train from Michigan City to re-enforce the grading on the Neihart extension.

Chas. Martin went out to Pilgrim creek last Friday in company with Bill McLean. Some very rich strikes have been reported in that vicinity.

BARKER BUDGET.
Sixteen scholars are now attending the Barker school.
D. W. Bateman of Great Falls spent several days in the camp last week.
From present indications more than thirty mining claims will be patented during the spring and summer.

R. T. Donohue visited his ranch near Stanford last week and reports everything as flourishing in the lower Wolf creek valley.
County Attorney Martin of Cascade, who is largely interested in the Belt Mountain Mining company, spent a few days in camp this week.

The pay streak in the Cosmopolitan has now widened to 18 inches and is of high grade sulphure ore, assaying 365 ounces silver. Work is being steadily pushed and considerable ore is being taken out.
Now is the time for united action on the subject of public improvements. Streets should be cleaned up some grading done, water should be kept from washing ditches in the road, and more than all work should be commenced on the Wolf creek road. There is no reason why Barker should not be the center of trade for the Wolf creek and Yogo mining districts and the entire Judith basin, if the road is put through.

Work on the May and Edna is progressing rapidly. The tunnel being run to tap the ore vein is now in 300 feet. Water has interfered with the work some, giving the workmen a shower bath in some places. The boarding house is well under way and will be 20x40 feet in size, with dining room, kitchen, wash room, bath room, sleeping rooms up stairs and all the accommodations for a convenient and comfortable boarding house.

LAMPERT & WICKERSHAM, Proprietors.

To the Public.
There are a great many Clothing stores in Great Falls of many different kinds; some good, some bad, and some indifferent. There is just one store that is the best.
A. Nathan,
The One Price Clothier.
There is a sound and reasonable foundation for this statement.
Some of these Great Falls clothing stores sell fairly well made goods; some sell shoddy trash at fictitiously low prices. The last are the worst. But
A. Nathan's
Store differs from them all, as he sells the best Clothing and Furnishing Goods that the best makers in the country produce, and is satisfied with one-half the profits these other shops demand. Therefore the best store for you to trade in is
A. Nathan's,
The One Price Clothier.
Great Falls, Mont.
Mail orders will receive prompt attention.

The Boston
When you want a reliable, well-fitting suit or overcoat, or a pair of reliable shoes or boots, at lower figures than you would pay for shoddy goods, send to
THE BOSTON, Great Falls.
We would say to the people of the prosperous camps of Neihart and Barker and vicinity that our goods are selected with the best of care and by experienced buyers, with special reference to wearing qualities and good fit. Our goods are marked at a very small margin over cost. We depend more upon a large volume of trade to make money than upon the old-time "small sale and large profit." We guarantee every article we sell, as well as the price. If any goods bought of us are not satisfactory, you have recourse to us. We see that it is made right. Our tailor-made clothing is, beyond doubt, the best made goods sold in Montana, and we charge no more for them than other dealers charge for "ready-made" garments. Our boot and shoe stock is the largest in this part of the state, and every pair warranted.

Send us a trial order. "You prove the button, we do the rest."
Respectfully,
THE BOSTON Clothing and Shoe House, Great Falls.
