

TRACY IS AT THE BAT HOLDS FOREST FORT

He is Surrounded in a Dense Forest Near
Auburn, Washington

THE SHERIFF, MEN AND HOUNDS

Guard Every Path—Propose to Close U₁ on Outlaw With
Breaking of Day—Tracy is Well Supplied With Guns
and Amunition and May Kill Some More.

Auburn, Wash., July 10.—Sheriff Cudihee stated at midnight that he now has the locality in which Tracy is hiding completely surrounded, and if the outlaw does not succeed in escaping through the lines before daylight a pitched battle is imminent. Tracy is believed to be ensconced in an immense forest, commanding the approach from all sides, and the plans of the sheriff contemplate a concerted movement from all sides at a signal. The advance will be preceded by the hounds which will cast loose immediately after daylight in the hope that the fugitive can be driven to bay.

Seattle, July 10.—A special from Kent says: Harry Tracy, the notorious Oregon convict was at the home of E. M. Johnson, two miles south of

this place, on Wednesday night. When he left the house he was armed with a new revolver and his 30-30 Winchester, and had a plentiful supply of both ammunition and provisions. Tracy sent Johnson to Tacoma to purchase the revolver and ammunition. He threatened to exterminate the Johnson family on the least sign of treachery. The murderer seemed fagged out, and talked very little about himself or his plans. While at the house he spent nearly all his time watching for his pursuers. He left the house after dark, headed either for Seattle or the Palmer cutoff. Not only did Tracy force Johnson to buy the revolver, but he made him borrow the necessary money. Johnson went to Tacoma and secured the weapon without sounding any note of warning to the authorities.

WOODROW WILSON, NEW PRESIDENT OF PRINCETON.

Professor Woodrow Wilson, the new head of Princeton, is the first president of that university who has not been a minister. He is a comparatively young man and stands for liberality and progression.

TWO HUNDRED MINERS ENTOMBED IN A MINE

At Johnstown, Pennsylvania by An Explosion
In the Cambria Works

HALF THE MEN ARE PROBABLY DEAD

The Tunnel is Miles Long and the Poisonous Gasses Make
Rescue Work Slow—Two Miners Only Escape From
The Shaft, Reaching Entrance to Fall Overcome

Johnstown, Pa., July 10.—Two hundred coal miners were entombed today by an explosion in the Cambria Steel company's coal mine, whose main shaft operates within the limits of this city, and 125 are probably dead.

The mine is one of the largest in the country, and today 600 men were at work there. When the news of the disaster reached here it spread like wildfire and in less than a quarter of an hour, the point in the open space at the junction of the Cone-maugh and Stony creek, was crowded with weeping women and children. Brave attempts at rescue were made. Mining Engineer Moore and his assistant, G. Pross, tried to make some headway toward the imprisoned miners, three and one-half miles away, but they were driven back by the

deadly gases. Richard Bennett and Joe Meyers, miners, who were in the mine at the time of the explosion, but who escaped unhurt, went back two miles to see what assistance could be rendered, but they, too, were driven back by the damp, and reached the threshold just in time to fall unconscious. Then the attempt of any rescue from the main opening was given up, and it was shifted to Mill creek, a few miles from the city. The rescuers were followed by hundreds of relatives and friends. It was still believed that all the miners at work were affected.

Business in the city was practically at a standstill, and all went out to be of assistance, to watch the scene or to wait with set face and staring eyes for the first stiff form to be carried from the opening in the hill.

MURDER WAS COLD-BLOODED

North Dakota Rancher Is Shot Three
Times in Head

BY A DESIGNING HORSE THIEF

A Faithful Dog Leads Friends to the
Scene of the Murder—Farm Hand
Suspected of Killing the Rancher
and Making Away With the Live
Stock.

Grand Forks, N. D., July 10.—One of the most cold blooded murders in the history of the state was committed Saturday night, the victim being Thomas Walsh, a prominent farmer, residing about three miles from Willow City. Owing to the fact that he lived alone, some distance from any neighbors, the terrible crime was not discovered until last evening, when the faithful dog of the deceased appeared at the home of his nephew. His queer actions aroused the suspicion that something was wrong. The nephew at once went to his uncle's house and found the body with three bullet holes in his head. The motive of the murder was undoubtedly horse stealing, as Walsh's horses, harness and wagon are missing. Suspicion is directed toward a farm laborer named Ross, who was employed by a neighbor named Cudde, and who disappeared a few days ago. Prior to that he had endeavored to induce another man to go west with him and engage in the horse stealing business. The officers are doing everything to discover some trace of the murderer, and a large reward is offered for his capture.

PLAY HOUSES DARK.

No Money in Variety Shows Denied
Box Rustling Privileges.

Last Sunday night was the last night of the Kalispell variety shows, and Monday night the usual crowd at the different theaters were disappointed by the non-appearance of their dubious favorites. When Mayor Logan's order forbidding box rustling went into effect some time ago, the managers of the shows were given to understand that their places of business would not be molested as long as they cut out the rustling that was their chief source of income. They made but feeble attempts to evade the order, and it was a foregone conclusion that sooner or later, they would have to shut down.

Monday night darkness reigned on the stages of the two shows, and the usual crowd who had gathered to listen to the warbling of the song birds and the turns of the male performers was disappointed. It is said that the shows will be reopened September 1, but Mayor Logan stated that it is very doubtful if they would again be allowed to run, as it was much easier to prevent them reopening than to close them down after they were once in running order.

Money speaks louder than words.

THE MISSOULA MILLIONAIRE

Stricken by Heart Failure While Riding
in His Automobile.

WAS A PIONEER OF MONTANA

Owner of Big Blackfoot Mills and
Heavily Interested in the M. M. Co.
and Other Mercantile Institutions
of Western Montana—His Death
Not Unexpected.

Missoula, Mont., July 10.—Edward L. Bonner, one of the best known of Montana pioneer business men, died suddenly this morning of heart failure, while riding in his automobile in South Missoula.

Mr. Bonner has been frequently troubled with heart trouble, especially during the past few years, and his death from that cause is not a surprise. He was about 60 years of age and had been engaged in commercial enterprises throughout western Montana for 30 years. Bonner's Ferry, across the Kootenai river, was one of his first ventures in the west. He built the great mills on the Blackfoot, in Missoula county, and was a principal owner. He was interested extensively in the Missoula Mercantile company at Missoula and Kalispell, and had also an independent business at Deer Lodge. Mr. Bonner was probably a millionaire at the time of his death. He had a magnificent residence and grounds in South Missoula, near the university.

TOUCHED THE TILL.

Makes a Daring Steal, But is Afterward
Captured.

A. B. Campbell, a brakeman employed on the Great Northern, made a daring robbery of the till in Ah Hay's restaurant yesterday evening, and got away with about \$35 and a number of meal tickets. He was afterward caught near Brown's paint shop and is now in jail. Campbell had ordered his supper and was sitting at a table, when he arose and walked toward the back part of the room. Suddenly he made a dive for the till, and snatching up a handful of money and meal tickets, he darted out of the back door and into the rear entrance of McKnight's saloon. Passing through that place, he went to Weaver's second hand store, where he purchased a new cap, as he had left the restaurant bareheaded. He then calmly sat down in the alley and rested from his labors, while officers were chasing through the alley after him. He afterward went over toward the paint shop, where he was rounded up by Mr. Brown and Officer Madsen.

GEORGE C. ROWAN KILLED.

Butte, July 9.—A special from Missoula says that George C. Rowan, one of the best known traveling men in the northwest, was killed in a runaway accident at that place this morning. A bicyclist ran into the horses frightening them.

WHO KILLED J. R. WILLIAMS

Martin, One of the Men Accused of
the Murder

IN AN ATTEMPTED HOLD UP,

Is on Trial for His Life—Lennox,
Who Made a Confession, Will Be
Charged by Martin With Firing the
Fatal Shot at Williams at Silver
Bow Junction.

Butte, July 10.—James Martin, the man accused of the murder of John R. Williams, is now on trial for his life. The jury was secured at 11:30 o'clock yesterday morning, and after the opening statements had been made by counsel for both the state and the defense, introduction of evidence began. In the statement to the jury, Attorney Maurer, who is Martin's lawyer, outlined what the defense would be. Admission was for the first time made that Martin was present when the fatal shot was fired, but the defense will endeavor to show that it was Lennox and not Martin who fired the shot that was responsible for the life of Williams. The case is expected to go to the jury tomorrow.

WILL RECEIVE DEBS.

A. L. U. in a Body and the Railroad
Orders.

The passenger train from the west Saturday night will be met by the members of the local union, A. L. U., 400 strong, and all the railroad boys who happen to be in the city, who intend to give this welcome to Eugene V. Debs upon the occasion of his first visit to Kalispell. Mr. Debs will be well taken care of until the great out of door meeting Sunday afternoon, when he will address the people of Flathead county upon the principles of unionism and socialism. The day promises to be fair and there will be the biggest crowd ever under one canvas at the Fair grounds to hear the great labor leader.

All arrangements have been made by the unions and committees to give Mr. Debs a good time during his brief sojourn in our city, which, it is hoped, will be amply repaid by the words of wisdom and intelligent reasoning which will fall from his silver tongue Sunday afternoon.

BLOOMER GIRLS BAGGED

By Madison County Rustics—Gal-
lantry Cut No Ice.

Twin Bridges, Mont., July 10.—In a game of baseball here tonight, which was replete with glaring errors, the New England Bloomer Girls suffered a crushing defeat at the hands of the Wateka Sluggers, by a score of 17 to 3. Aside from the pitcher and first baseman, the work of the girls was extremely ragged and could hardly be characterized as baseball.

AMONG STRANGERS.

Mrs. Marion Carlin and Three Chil-
dren in Want.

A case of destitution that is worthy the attention of the county commissioners was revealed in Kalispell this week by the application of Mrs. Marion Carlin for assistance in reaching her home at Osakis, Minn. Her story is a pathetic one and proves her to be deserving of aid. She was formerly living at Rossland, B. C., where she was working to support her three children, the oldest only about seven years of age, when they were stolen from her by her husband, whom she had separated from several months before. Her husband was a drunkard, and being unable to stand his brutal treatment she left him and went to work to support herself.

After her children were stolen from her, Mrs. Carlin started in search of them and finally located them in an orphan asylum in Spokane. She went to that city and after much trouble succeeded in regaining the children and then started for her home in Osakis, Minn., where her relatives reside. She arrived in Kalispell, Wednesday night, with only \$1.25 in her possession, and that has now been spent, leaving her among perfect strangers without a cent to provide the necessities of life for her young children.

The matter was laid before Chairman Griffin of the board of county commissioners, but he refused to do anything that would aid her, as he said she did not belong to Flathead county.

CLOSING OUT, REMOVAL SALE

Goods Less Than Cost for the Next
Ten Days.

The Kalispell Clothing company will open up a new clothing and gents' furnishing house in the Vaughn block next month, says the Great Falls Tribune of Thursday. "The contractors already have the work in hand, and there will be a new clothing and gents' furnishing house in the quarters that were formerly occupied by the Hub in the Vaughn block, next door to the first National bank. The store room will be newly fitted throughout after the floor has been lowered to the street level. A steel ceiling will be put in and every equipment for convenience in this line of business will be added. The proprietors of the Kalispell Clothing company, Messrs. Elof and George Johnson, are now closing out their business in Kalispell, will be in Great Falls about August 1, and will open up their new stock here as soon after the first of the month as possible. The former will be remembered as having been employed in the clothing department of the Ahrens Mercantile company until about a year and a half ago, when he went to Kalispell. The latter was formerly in Great Falls and was in the employ of Strain Bros. and other mercantile houses. Both young gentlemen are, therefore, well acquainted with their new field.

Calm poise and physical ills are incompatible.

BILLS ALLOWED.

At the Last Meeting of the City
Council.

B. J. McIntire, attorney Hundley case, \$50; Maud Haney, clerk's expenses, \$12; Great Northern Express company expressage, \$2.35; J. T. WRECKED ON THE HILL.

Two carriages were wrecked and the occupants thrown out, but not seriously hurt, by an accident on the hill road near the lake, Wednesday evening. Mrs. F. E. French and Mrs. Morse and child were driving along the road in the vicinity of Bose's place, when the harness of the horse became deranged. The vehicle was stopped on the side hill and an attempt was made to arrange the defective harness, when a rig was heard coming down the hill at a rattling pace. This was a double carriage, driven by C. A. Pierce, in it his wife and little girl. At the top of the hill his emergency brake gave way and the horses were going some when the driver discerned the still carriage ahead. It was impossible to slow up, and Mrs. French could not clear the road in time, so the vehicles mixed up. Both carriages were badly smashed, but by good luck none of the occupants were hurt in the mixup, and they proceeded to console one another after the horses had been quieted.

CLOUD BURST IN COLORADO.

Pueblo, Col., July 9.—Accounts are coming in tonight of a cloud burst which swept the West mountain valley, the Grape creek region, and other portions of Fremont county. Water was four feet deep in portions of Florence.
