Mr. Guysinger, of Swetland & Guysinger, who formerly ran a saloon at Billings, but are now in the same business at Gardner, got off the train from the east to-day.

Those desiring clothes, furnishing goods, hats, caps, or anything in the line of wearing apparel will save trouble by first calling upon H. Frank.

Dr. W. A. Burleigh, of Miles City, and J. D. Matheson, F. M. French, E. G. Woolfolk and Thos. Hanlon, of Billings, were among the east bound passengers who dined in Livingston.

Do you want a home? Do you want to own the best city property? Then call on Allen Brothers and buy in the famous Park addition.

W. F. Smith, the genial assessor for Gallatin, has been doing the upper country during the past few days. He went up to Bozeman to-day and will return in about six weeks to assess the town of Livingston.

We learn that Col. John Eldridge has gone into partnership with A. W. Porter, in the real estate business. Both these gentlemen are experienced in the business, having recently contributed greatly to the prosperity of Jamestown, Dak.

Allen Brothers have listed one of the finest coal mines in Montana, which can be bought at a bargain if purchased within thirty days.

One of our local artists took the opportunity of photographing the busy scene at the passenger depot to-day on the arrival of the eastern train. As usual there was a swarm of small boys willing to pose in graceful attitudes in front of the camera.

Do not forget that H. Frank, the merchant tailor, will make clothes to your order that cannot be beaten in Livingston or elsewhere. 1-tf

H. H. Mund, of the Bank of Livingston, came up from Billings yesterday to look over his business interests here. As he returned to-day, it is to be presumed that under A. L. Love's careful management he found everything moving along very smoothly.

Travelers between Livingston and the Park report that in consequence of railroad work and the recent rains the roads through the first canyon of the Yellowstone, and at other points along the route, are in bad condition. They will doubtless improve with the improving weather.

We offer for a very few days some of the most desirable business lots in Livingston at prices which defy competition.

A. M. Mallony, the gentleman who effected the sale of the Drum Lummon mine, near Helena, to the English syndicate for the sum of \$1,500,000 was a passenger on to-day's train for the east. He is on his way to England on mining business, the exact character of which he does not state, but as the Drum Lummon has already proven itself a valuable investment, other English capitalists may be negotiating for Montana mineral property.

The largest assortment of business and residence lots in the city can be seen at Allen Brothers.

A. H. McKenzie, an Emigrant Gulch miner, came down the river yesterday to spend a day among the busy scenes of metropolitan life. He says there are about 100 people in and around Chico, and more are coming every day. Among the latest arrivals are two or three families, comprising a number of children, the first in the district for some time. The "kids" have already established themselves in the hearts of the miners and the latter propose to start a Sunday School for the benefit of their little friends.

One hundred and fifty dollars will buy a residence lot, with one-story cottage, and garden planted. H. T. CEPERLEY.

A number of the Yellowstone valley gentlemen who had been summoned to Bozeman as United States grand jurors, returned eastward to-day, the jury being adjourned till Monday next. They report that business is moving along slowly, no cases of importance having been disposed of yet on either side of the court. Geo. Bell, the notorious, was arraigned yesterday and pleaded "not guilty" with his accustomed air of injured innocence. His trial will come on in a day or two, and it is almost safe to predict that by some hook or crook he will this time, as hitherto, escape the law's clutches.

Painting of every kind, kalsomining, sign writing, lining, and paper hanging done by Kennedy & Co. Shops on Second street, next McDonald & Harvat's meat market. 1-3t

Will contain platform and ladies' dressing room, and contain nine dozen chairs, eighteen coat and hat racks of four hooks each, and four two-light polished brass bracket lamps, with smoke bells, one fine hall lamp and one outside street lamp. No bar will be on the premises and no smoking will be allowed in the hall. Will be finished about July 1, 1893.

"A word to the wise is sufficient." Those desirous of securing fine styles at lowest cash prices will please call at Smith, Hagy & Co.'s, Park street.

The managers of the Billings street railway, now in operation, seem disposed to minister to the most pressing desires of their patrons, as instanced by the unique

tickets in use on the cars. These tickets cost a quarter, and besides being good for a round-trip over the line, entitle the holder to two glasses of beer at Coulson, the terminus of the road. This is a brilliant scheme, though it might not work elsewhere so well as it does in Billings. Just think of it! A ride of from four to six miles, through a fine pastoral country, all laid off in town lots, with two glasses of beer thrown in, and all for two bits twenty-five cents, or a quarter of a dollar. There's a prize in every package, and no mistake. The people of Billings have never had such a snap before, and they are making the most of it while it lasts, which will probably not be very long.

Silk, satin and velvet ribbons, and latest styles Ladies dress buttons at Smith, Hagy & Co.'s, Park street.

J. H. Matheson, a resident of Emigrant Gulch, was down from "the diggings" to-day. He reports a flourishing condition of things in the Gulch, with fine prospects for the summer. The Villard Company have begun operations. They are sinking a shaft in the upper portion of their property and will carry forward immense developments during the summer. They are also constructing a ditch ten miles long to connect the waters of Six Mile Creek with those of Emigrant Creek, and the united streams will give them 2,500 inches with which to prosecute their Hydraulic mining.

The snow is still too deep in the upper gulches to allow of prospecting or work of any kind. A large number of quartz leads, which were claimed last autumn, will be developed during the summer, and owners are impatiently awaiting the reduction of the barrier of snow. All the placer ground on Six Mile Creek has been staked and recorded. It is believed to contain rich deposits of auriferous gravel, and will be thoroughly investigated this season. Six cabins have been built in the district, where hitherto there had been no habitations. Judge H. N. Maguire and his associates are also preparing to develop the placer and quartz locations owned by them in the Emigrant district. They feel sanguine of having struck the old channel of Emigrant creek, which should prove a very rich and valuable property. In consequence of recent discoveries of valuable gold-bearing rock ore, Mill creek mining property in that locality is rising in value. Altogether it would seem that mining developments along the Yellowstone and its tributaries above Livingston are to be very actively prosecuted during this season.
