LOCAL LAYOUT.

W. H. A. Campbell left town yesterday for a trip to Glendive.

Work done at Charles F. Easton's, opposite

J. B. Clough and M. G. Grant, of engineer force, went to Billings yesterday.

Trains will leave Livingston each day; one at 10 o'clock, in the morning being first class, and a construction train at four in the afternoon. Trains will arrive at Livingston at 2:05 a. m., and at 12:05 p. m. The time table is arranged only for a distance of ten miles from Livingston, but trains will always run to the end of the track.

We understand that hereafter, every other day, an express car will leave St. Paul, attached to the regular train, specially provided with a refrigerator for the transportation of fruits, fish, and everything of a perishable nature. These refrigerators will be kept supplied with ice along the route to insure against the fermentation or tainting of their contents. It is to be presumed that the shipments will be limited in amount, as large quantities of perishable goods can be brought through in the regular refrigerator cars.

W. H. Sutherlin, of the Rocky Mountain Husbandman, after spending three days in Livingston, will leave this morning for his home in White Sulphur Springs. He informs us that from a business point of view his visit has been a very successful one, beside the pleasure it has given him to mingle with our people and make their acquaintance. We know that during his visit he has made a host of friends, and hope that he will not let this general feeling in Livingston lapse into indifference by neglect to return frequently.

Engineer M. G. Grant, of Livingston, received orders on Sunday last to repair to Billings and make the final location of the branch road from Billings to the extensive coal fields. The engineers now employed on the Park branch will be removed in a week to the new road and the work of construction will commence at once. This item comes direct from headquarters and is authentic. Billings will now boom. This item, from the Bozeman Chronicle, is in part correct and in part incorrect. The engineer force now in Livingston, including Col. Clough, will remain here during the next four or six weeks, or until the completion of the Park branch. Meanwhile a locating party will be at work on the coal branch from Billings to the Bull mountains. We have not yet learned when construction will begin on that line, but presume it will be in a few weeks, as the road must be completed in time for the shipment of coal before the beginning of winter.

W. P. Brush, of Fort Worth, Texas, accompanied by his wife and child, are stopping at the Metropolitan. Mr. Brush was one of the starters of the Kansas City Live Stock Indicator, and later of the Texas Live Stock Journal, the two publications now taking the lead in their particular field. He is still a special correspondent for various stock journals, and certainly, from the short conversation we have had with him, seems to have a better understanding of the stock-raising industry in all its phases than any man we have met. One object of his visit to Montana is to view the prospects for establishing and maintaining a stock journal in this territory. We hope he may be successful. Except the Husbandman, which, while an excellent paper, does not fully cover the ground the great stock-raising industry of Montana, is without representation in newspaper ranks.

Dropped to it.

It is an evident fact from large sales the past week, that the people of Livingston appreciate a large stock of goods to select from, and where they can get goods once more at eastern prices. At Charles Gilbert's Evergreen front, Main street, Livingston.

FOR SALE—A SQUATTERS' CLAIM ON ONE of the finest ranches in the Yellowstone Valley, located only seven miles from Livingston. Forty acres fenced, a log house and a small garden with good hay lands. Can be bought very cheap, and on the best of terms. Enquire at this office.

ing and shipping of wool from his band of sheep lately driven through from the Judith basin. He has sold the band, but has now 5,000 more coming from California to take their place.

Lawrence & Staff have secured the services of the only first-class tinner in Gallatin county and guarantee satisfaction in this line to customers. 18

Henry Ward Beecher will lecture in Bismarck August 10th. He is on a lecturing tour which will take him through to the Pacific coast via the Northern Pacific route. Are there enough people in Livingston interested in H. W. to warrant an effort to have him name a date for this town? It would be an expensive treat, but an evening with one who is undoubtedly the greatest living American lecturer is worth more than a trifle.

In this issue we publish a time table for the Park branch railway, which goes into effect to day. Two trains will leave Livingston each day; one at 10 o'clock, in the morning being first class, and a construction train at four in the afternoon. Trains will arrive at Livingston at 2:05 a. m., and at 12:05 p. m. The time table is arranged only for a distance of ten miles from Livingston, but trains will always run to the end of the track.

ALIAS SUMMONS.

In the District Court of the First Judicial District of the Territory of Montana, in and for the County of Gallatin. Bernhart Meyer, plaintiff, against Sarah Meyer, defendant. Action brought in the District Court, the First Judicial District of the Territory of Montana, in and for the said County of Gallatin, and the complaint filed in said District Court. The people of the Territory of Montana send greeting to Sarah Meyer, the above named defendant. You are hereby required to appear in an action brought against you by the above named plaintiff, in the District Court of the First Judicial District of the Territory of Montana, in and for said County of Gallatin, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service of the said summons—if served within this county; or if served out of this county, but in this district, within twenty days, otherwise, within forty days—or judgment by default will be taken against you, according to the prayer of said complaint. The said action is brought to void a decree of the court dissolving the bonds of matrimony heretofore and now existing between the plaintiff and defendant, on the grounds of desertion, and for such other and further relief as to the court may seem just and equitable. And you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said plaintiff will apply to the court for the relief prayed for in his complaint.

Given under my hand and the seal of the District Court of the First Judicial District of the Territory of Montana, in and for said County of Gallatin, this 9th day of June, in the year of our Lord one thousand eight hundred and eighty-three.

THEO. MUFFLY, Clerk.
 By E. M. GARDNER, Deputy Clerk.

RIVERSIDE ADDITION,

The best evidence of the quality and popularity of property is in the selection of locations made by actual settlers—parties who bring their families before they buy and are here to stay. We have to-day in Riverside Addition five times as many families who own their property as there are in any other Addition in town. These people come here with their eyes open and money in their pockets. They are under no obligations whatever to any one.

Why, then, do they buy their Residence Lots in Riverside Addition? Simply because it is the pleasantest and most desirable place to live.

Pure Spring Water,
Grassy Lawns,
Natural Shade,
AND GARDENS
Without Irrigation,
 being among the attractions. We still have choice lots at low prices. I am directly interested in the property and can make you terms to suit your circumstances. Come and see me before you buy. Correspondence solicited.
