LOCAL LAYOUT

The front of the postoffice building is being painted.

Blank books of any kind at Douglas & Weirick's.

Blindham's building on Main street is being improved by work on its front.

Do you enjoy a fine cigar? Douglas & Weirick's.

Lawrence & Staff have secured the services of a first-class driver in Gallatin county and guarantee satisfaction in this line to customers. 15

Henry Ward Beecher was expected in Paul on Sunday and was killed to there last evening.

Do you need a set of account books or any office stationery or blank books, paper of all descriptions, scratch blocks, mullage and inks, at Douglas & Weirick's Park street.

We omitted to mention our second trip to the Park in yesterday's issue because of being too fatigued on returning from the overland journey. It was late in the evening when we arrived at Gardiner in company with D. L. Willard, and turning the team over to a hostler we imbibed a glass of lemonade and was then shown to an excellent bed by the courteous gentleman James McCartney. Arising early in the morning we found great excitement throughout the town over the discovery of rich placer mines within the city limits on the day previous. Not receiving the news with an unusual degree of enthusiasm we were invited by an old forty-miner to go down to the point of discovery and be convinced of the richness of the find, and taking with us a pick, shovel and gold pan we soon reached the river side, and began washing dirt for the first time. From five pans of dirt about fifty cents' worth of the precious metal was secured, the only bad feature being that the dirt seemed to be better near the surface. On Friday a mining district was organized and claims staked out for a mile or two up and down the river. It is of course at present a matter of speculation as to how these mines will turn out when more fully worked. Water can be brought from the inexhaustible Yellowstone upon the ground with but small expense, and we doubt not that at this writing ditches are being dug and preparations made to sluice the dirt on a large scale and separate from it the yellow dust.

The population of Gardiner comprises a number of enterprising business men whose establishments if not metropolitan are well calculated to supply local needs. R. A. Bell, who to his numerous duties adds that of postmaster, keeps a well stocked general store. Everything in the way of groceries, dry goods and clothing can always be found on his shelves and all especially adapted to the needs of the country. He makes every effort to attend to the wants of his customers in the most accommodating style and enjoys a good trade as the result.

Dr. Tippie, whose "ad" appears in this issue of the ENTERPRISE, keeps the Health Office. It is not as might be supposed from the name entirely devoted to ameliorating the physical ills of mankind though so far as dispensing invigorating liquors and soothing cigars may have that effect the general proprietor does his best. The Health Office is a neat and orderly saloon where the tastes of patrons are carefully considered.

Babcock & Miles' hardware store in Gardiner is a branch of the parent establishment run by the same firm in Livingston. Tourists' and miners' supplies in their line as well as a full hardware stock are displayed in neat array. Our Livingston readers who know the principles upon which B. & M. conduct business will readily understand that their Gardiner branch is very popular with purchasers.

Lawrence & Staff, who conduct the only other hardware store in Gardiner, are not behind the times or their competitors in any respect. Indeed it would be hard to determine which is the most worthy of patronage or which of the two establishments enjoys the most. Mr. Staff gives his personal attention to the Gardiner business leaving his partner to manage the Livingston house.

Lane & Terrill, both of whom are well known along the Yellowstone valley, are now conducting a large saloon and gaming hall in Gardiner, and doing a good business. There is not as much bustle in their present location as that to which they have been accustomed in other Montana towns, but as both are sticking close to Gardiner and are apparently contented to remain, it may be taken as an indication that they are "putting money in their purses."

Curry & Whitby is another firm of Gardiner liquor dealers. Both are popular young men who fully understand their

before Judge Budlong on the charge of disturbing the peace. A fine of \$20 and cost was imposed, with imprisonment in default of payment, and an additional jail sentence of twenty days. For an offense so shocking to the ears of refined ladies who stood near, and so disgraceful to the town, the punishment would seem a light one.

Pure Drugs, Fine Perfumes, and beautiful toilet and fancy articles at Douglas & Weirick's Park St.

From Cooke City.

Frank Stone and C. M. Berrick arrived in town last evening direct from the Clark's Fork mining district, where, in partnership, they have been engaged in prospecting, but principally in developing their claims. Charlie Berrick is the owner and former proprietor of the Park Hotel in Billings, and those who know will recollect that he does not "enthuse" very readily. But about Clark's Fork mines he is all enthusiasm, having even stronger opinions than those expressed by Frank Stone. The two gentlemen, with another miner, have twenty-one claims on one lead and they fully believe that the property is a fortune for each and all of them. Mr. Berrick will go to Billings and close up, or in some manner dispose of his hotel there and then return to Cooke City to spend the balance of the year. He says the history of Leadville is to be repeated in that camp within the next two years. Neither he nor Mr. Stone have any mining property to sell unless at fabulous prices. They believe they have a bonanza and will not part with it.

Do you need a set of account books or any office stationery or blank books, paper of all descriptions, scratch blocks, mullage and inks, at Douglas & Weirick's Park street.

Curry & Whitby is another firm of Gardiner liquor dealers. Both are popular young men who fully understand their

business and keep in stock such goods as will suit the best class of customers. They report a satisfactory trade and certainly deserve good patronage.

Sweetland & Guysinger are about to go out of business. Warren Sweetland has received an appointment for himself and wife to manage one of the system of tent hotels which the Improvement Company are erecting at various points in the Park.

Up at Mammoth Hot Springs was a very busy scene around the colossal hotel. At the time of the writer's hurried visit a number of the rooms were receiving their furniture while forces of men were employed at carpentering, painting, plastering etc., in every direction around the immense building. C. T. Hobart was superintending the work in person and was evidently largely contributing by his presence and executive ability to the ease and rapidity with which the work seemed to be advancing.

Captain John W. Smith had just opened his saloon in the hotel. You all know John's style of doing business. If he cannot have a first-class place he will have none at all. He has operated on his usual plan in this last instance and has a sample room fully up to the standard of elegance which will characterize all the appointments of the hotel when complete.

Gardiner is enjoying a share of the tourists outfitting trade and supplies large numbers of miners. The town is not booming but seems receiving a quiet, steady support that allows all its inhabitants to make a comfortable living, and something more besides, or they would not remain there. They all seem to take a great interest in Livingston, and in a manner to look upon it as the mother town. Gardiner, at the terminus of the National Park, will always be a place of importance, and our merchants should not forget to cultivate its trade. The mines we have described, on the borders of the town, may largely add to its population and wealth. Our readers may be interested in knowing that our visit to Gardiner resulted in a considerable lengthening of the ENTERPRISE subscription list and other additions to our business. For this we feel duly grateful to the people of Gardiner, and may be pardoned a feeling of pride in thus chronicling the fact that the circle reached by the ENTERPRISE is constantly widening.

FOR SALE.—I HAVE FIFTEEN YOKE OF Oxen for sale. E. Goughnoor.
