CHICKORY!

Gallatin County, M. T.

Is situated on the National Park Railroad, twenty-eight miles from Livingston and about the same distance from the National Park. At this point the Northern Pacific Railroad company are building a Depot, Section House, Water-Tank, Etc., and many other substantial improvements are going on. The town is indorsed by the railroad company, who own a one-half interest in the same, and will do all in their power to further its interests. The lands lying north and south are exceedingly fertile, and west cattle ranches are numerous; east are the celebrated Mill Creek, Emigrant Gulch and Six Mile Mining Districts and in the place itself thrift, energy and intelligence are to be found among its citizens. The Villard Mining Co's claims adjoin the town on the east. The Gold and Silver bearing quartz mines in Emigrant Gulch are very rich, as are the Placer mines. Coal mines within one mile of the town are being vigorously worked; and Iron, Lime and Sandstone abound. Before the town was platted, lumber was on the ground for a number of buildings, and before the town was entirely surveyed buildings were in course of construction.

THE TOWN IS YOUNG YET!

And thereby affords opportunities for securing lots at low figures, and we feel confident that the constant and increasing demand for the same will advance prices from twenty-five to fifty per cent. within a short time. Full particulars, prices and plats will be furnished upon application to

The Teller's Theft.

Readers of the ENTERPRISE will remember that on the night of the 9th of September while one of the returning Villard excursion trains was standing at or near the Livingston depot, two trunks were stolen from the platform of one of the cars. They belonged to H. M. Teller, secretary of the interior, and contained clothing and jewelry belonging to him and his daughters, and valued at \$12,000. The trunks were afterwards found, rifled of all their valuable contents. A reward of \$500 was offered for the return of the goods but failed to accomplish the desired end, nor was any clue to the identity of the robbers obtained till a day or two ago. It was known that two suspicious characters had left Livingston for the east shortly after the robbery. The detectives in St. Paul were notified to look for them, and yesterday a telegram reached the officers here that the men referred to had been arrested and a portion of the stolen goods found in their possession. The prisoners are David Staples and a man named Shannon. They were in Livingston for a time previous to the robbery and figured as sporting men. They will be brought to this county for trial.

Conventions.

Lest our readers may have forgotten the dates fixed we will again call attention to the fact that three conventions for Gallatin county are called for a short time hence. The republican convention will meet at Bozeman on the 13th, and primary caucuses are expected to be held before that date in each precinct, to elect delegates for the county meeting. By the democratic committee precinct caucuses are called for Friday, the 12th inst., to send representatives to the county convention, which will meet in Bozeman on the 17th. A people's convention, independent of any party, has been called to meet at Livingston on Saturday of this week, to which representatives from the various precincts are supposed to be sent. All these are preparatory to the election of delegates to represent the county at constitutional convention, to meet in accordance with a resolution of the legislature in January next. It is important that the county be properly represented at that assembly and to insure such a representation these preliminary preparations are made. It is well known how Livingston has been considered in the apportionment of delegates to the two party conventions. Opinion among those who have given the matter any thought is divided as to whether it is best to represent as apportioned, represent according to our voting strength, or not represent at all. "Whatsoever thou doest do quickly," as but a very few days remain in which to make the decision and to elect delegates to any or all of these three conventions.

Indian Troubles.

Various rumors are going the rounds about trouble that is brewing near Glendive between the Indians and stockmen. About 600 Indians are out, it is said, and have refused to obey the order sent them to return to the reservation. Troops have therefore been despatched to compel them to come back. Other rumors have also been coming in of trouble on the buffalo range between the Indians and hunters, in which there is likely to be more or less bloodshed before the matter is through with. In one case a party of a hundred or more Indians burned a large tract of prairie to prevent the hunters from getting near the buffalo. The hunters were, of course, much exasperated and many threats of violence were heard. It is said that these difficulties are only a repetition of those that occur every year.

Amusement.

The Billings Daily Herald says the entertainment of Prof. Martin, the magician and ventriloquist, at the new depot last evening was well attended and was received with much satisfaction. His sleight of hand performances were excellent, and were the wonder of the evening. "The wonder of the age," Miss Clara Martin, who in her performance of second sight, better known as mind reading, held the audience spell-bound. At

the conclusion or the performance Prof. Martin gave 100 costly presents to the audience, a little child of nine summers being the recipient of the principal money present, a purse of twenty-five dollars.

Prof. Martin performs in Wetzstein's Opera House three nights and a matinee, commencing Thursday night, Oct. 11th. The above entertainment comes to us well recommended by the press and public, and is one that possesses genuine merit, and we can assure our readers they will be more than pleased to see it. Tickets one dollar, which entitles the holder to two envelopes, containing a number in each for the grand drawing of the presents. Tickets now on sale at the postoffice.

Church Sociable.

On Friday evening a so sociable will be given at the Merchant's hotel. It is being gotten up under the auspices of the Ladies' Aid Society of the M. E. church, the arrangements being superintended by Mrs. W. S. Eberman, who is doing everything possible to ensure a pleasant gathering. Refreshments will be served during the evening and various other enjoyable features introduced. No charge will be made for admission and everyone is most cordially invited to attend—and bring a little money with them in case they should need it.

Mysterious Murder.

On Sunday last the body of a young man of about 28 years was found in the Beaverhead river near Dillon. In the forehead was a bullet hole, and the skull was crushed over the right eye. The body was dressed in good new clothes, and their owner had been apparently in well-to-do circumstances in life. It had apparently lain in the water two or three weeks. No one recognized the body, and after an inquest it was given decent burial. The coroner's jury brought in a verdict of homicide by a person or persons unknown.

Dance at Chicory.

On the evening of Wednesday, Oct. 11th, a ball will be given at Chicory, at which the ladies and gentlemen of Livingston are respectfully invited to be present. Tickets for gentleman and lady from Livingston to Chicory and return, including the dance and supper, \$5; without railway fare, \$2.50. Tickets may be obtained at the Northern Pacific ticket office or at the postoffice in Livingston. The management guarantee a good time and all are invited to attend.

The school trustees of Miles City have sold their bonds and are about to begin building their school house.

The Marquis de Mores writes as follows to Miles City: "I have decided to start the work at Miles City; I will come up about the 7th or 10th of October to settle with you about the land, and give the contract about the slaughter house. I would like you and your friends for this year to put up the ice necessary, which we would buy next year from you at fixed prices."

Percy Phillips, who has just returned from Benton, informs us that at nearly every ranch they struck there were complaints of horses being stolen. At Arrow Creek ranch one horse was taken from the stable, and La Mott's ranch and vicinity suffers the loss of two or three. Several parties en route for Benton were obliged to sleep in the stable in order to protect their horses from thieves. Horse stealing is becoming too frequent altogether of late, and strong measures should be inaugurated to suppress the nefarious business at once.—Maiden Argus.

A living specimen of the Rocky Mountain goat or ibex was recently purchased by Dillon parties, of an Indian, who caught it in the mountains near the Big Hole. The animal is about the size and shape of a domestic goat and is covered with a fine long fleece reaching to its knees, resembling in that respect the South American llama. Its horns are shorter and straighter than the goat's. Taken all together the beast very much resembles the ibex of the Alps and Pyrenees. It is understood that the Dillon lodge I. O. O. F. is making arrangements to buy it for initiation purposes, in lieu of an ordinary goat.
