CHICKORY!

Gallatin County, M. T.

Is situated on the National Park Railroad, twenty-eight miles from Livingston and about the same distance from the National Park. At this point the Northern Pacific Railroad company are building a Depot, Section House, Water-Tank, Etc., and many other substantial improvements are going on. The town is indorsed by the railroad company, who own a one-half interest in the same, and will do all in their power to further its interests. The lands lying north and south are exceedingly fertile, and west cattle ranches are numerous; east are the celebrated Mill Creek, Emigrant Gulch and Six Mile Mining Districts and in the place itself thrift, energy and intelligence are to be found among its citizens. The Villard Mining Co's claims adjoin the town on the east. The Gold and Silver bearing quartz mines in Emigrant Gulch are very rich, as are the Placer mines. Coal mines within one mile of the town are being vigorously worked; and Iron, Lime and Sandstone abound. Before the town was platted, lumber was on the ground for a number of buildings, and before the town was entirely surveyed buildings were in course of construction.

THE TOWN IS YOUNG YET!

And thereby affords opportunities for securing lots at low figures, and we feel confident that the constant and increasing demand for the same will advance prices from twenty-five to fifty per cent. within a short time. Full particulars, prices and plats will be furnished upon application to

Building Notes.

As the season advances building goes forward with redoubled activity. Every available workman, whether in wood, brick or stone, is kept as constantly employed as the variable weather will permit. The work is not confined to the erection of new buildings alone. The improvement and preparation for comfortable winter occupation of a large number of buildings erected earlier in the season, when immediate use was the main consideration, is now going forward actively. Though each of the improvements is comparatively small they represent in the aggregate a large value, as evidenced by the fact that large forces of men and teams are kept constantly employed at the two city yards in loading and delivering lumber as it is bought.

Upon new buildings there would be much more work and more rapid progress if more mechanics were to be obtained. But the scarcity of skilled labor, taken in conjunction with the unpleasant weather, has greatly retarded work, and in some instances will be productive of positive damage. On Park street the Tribune building is receiving its brick front and veneering and will be, when complete, a handsome structure. The First National block is advancing as rapidly as the character of the work will permit. For the bank building proper the stone cutters have prepared a large amount of stone, which is being laid as fast as the weather permits. Work is progressing on the walls of the other buildings of the block, which are to be of brick with stone trimmings. On Main street E. R. Dean & Co.'s brick building is very rapidly approaching completion. The exterior is nearly complete and the inside is being plastered. The owners hope to occupy the building by November 1st. Mr. Burch's brick store, next adjoining, is also going forward rapidly. Nye & Co. have brick on the ground and the mortar is being mixed for their building on the same street, while two lots below, the interior finish of Dodson's block is going forward, and it will soon be ready for occupation by C. W. Savage & Sons, who have rented the first story. The addition to the New York House is finished and its front presents as creditable an appearance as any on the street. Twoby Bros. & Chisholm have been occupied in fitting up the inside of their store, and the interior of Sol. Alderson's saloon is being remodelled. At the lower end of Main street, next to the river, Billy Miles has built a livery stable and extensive feeding sheds. Another very large livery stable is being erected on C street by James Carroll, and if finished in accordance with the style in which it has been begun it will be as fine a barn as there is in Livingston. The Methodist Episcopal church is assuming definite shape and gives promise of being when complete a neat and handsome building, a credit to the society and the town. Material is being placed on the ground for the Congregational church on Yellowstone street, and it is hoped that the structure will be considerably advanced before the season closes. On B street John McMahon is erecting a large two story building to be used, as we understand, for a saloon. On the same street next the Babington lodging house, Mr. Richards is putting up a good sized residence and in the rear of the ENTERPRISE office Newland & Howell are building a well finished and substantial carpenter shop 36x40 feet. John A. Higgins has so entirely remodeled his Bank Exchange building on Park street as to make it almost entirely new. From a one story rough building he has changed it into a two story substantial structure, thoroughly finished in every way. The brick block to be erected by F. D. Pease and G. H. Carver & Co., has not advanced beyond the stone basements, but by the early completion of a number of buildings a force of workmen will be released and the work on that block carried forward. Of the many residences being erected we have obtained no list, but there are a large number, particularly in Riverside addition and the adjoining district where the work of building goes forward so rapidly that it is difficult to keep a record of it.

Mr. Curry's Nomination and Declination.

A. B. Curry has received the nomination from the republican convention as delegate at large to represent the First judicial district, comprising the counties of Dawson, Custer, Yellowstone, Gallatin and Madison at the constitutional convention. Mr. Curry's nomination is virtually an election to the position, and we therefore extend our congratulations for the honor that has been thrust upon him. The district is also singularly fortunate in agreeing upon a delegate who will represent it so honorably and faithfully.

Since the above was put in type the following copy of a letter, the original of which has been forwarded to the gentleman to whom it is addressed, has been placed in our hands for publication:

LIVINGSTON, M. T., Oct. 18, 1883.
Mr. J. V. Bogert, Chairman of the Gallatin county Republican Committee.

DEAR SIR:—I am credibly informed that I have been chosen by the republican district convention, held at Bozeman on the 17th of this month, as the district delegate to the constitutional convention, to be held at Helena in January, 1884; and, while I am aware that such nomination is, under the law authorizing such convention, equivalent to an election, and am heartily thankful for the honor thus bestowed and deeply appreciate this manifestation of the confidence reposed in me by my fellow citizens. I respectfully and candidly assure you that my business engagements are such as preclude the possibility of my accepting the proffered position. In communicating my declination to the chairman of the said district convention please do me the honor of conveying my expressions of gratitude to each member, or delegate, of said convention.

Very respectfully yours,
ALBERT B. CURRY.

NEWS NOTES.

At Hagertown, Ill., the fireman of a locomotive was killed in a railroad accident.
Yesterday the Czar and Czarina of Russia with imposing ceremonies laid the corner stone of a church to be erected on the spot where Alexander II., was killed.
The Oregon pioneers have been heard at Washington.
At Nashville, Tenn., Prior Lockey shot and killed Wm. McBride for seducing his sister. Both were colored.
Yellow fever still retains its hold upon Breweton, Alabama, and a few new cases are making their appearance.
At Baltimore where the grand jury has been investigating the Tivoli disaster in which sixty-five lives were lost, indictments for manslaughter have been returned against the proprietor and lessee of the grounds.
C. J. Van Winkle and Wm. Alkorn of Chicago, have been arrested by the Western Union for conspiracy in obtaining reports for the use of the bucket shops.
Near Oskaloosa, Ia., the boiler of a locomotive exploded, killing the fireman and engineer and causing a terrible wreck of the train.
There is a strike of railroad men in the St. Louis yards. New men have been put in but are being interfered with by the strikers.
O'Donnell's trial in London has been postponed until November.
By earthquakes along the coast of Asia Minor, upwards of 1,000 people perished and 20,000 are houseless.
The Daily American, of Nashville, Tenn., said Miss King, an actress, was a small woman with a very big nose and ugly. She sued for libel, laying damages at \$50,000, but failed to recover a cent. The age of chivalry is gone.
Two men, supposed dynamite fiends, have been arrested at Halifax, Nova Scotia. Their pockets and valises were full of dynamite in bulk or cartridges.
J. W. Mackey and James Gordon Bennett have arranged for laying two transatlantic cables.
