CHAMPION PILLSBURY HERE

Chess Player Comes to Coach the Congressional Team.

CABLE GAME WITH BRITONS

Scheduled for Tomorrow, But May Be Postponed—Probable Make-Up of the American Team—Pillsbury's Interest in the Woman's International Chess Tournament.

Mr. Harry N. Pillsbury, of New York, the great chess champion, is in Washington.

He came here at the request of Representative Pearson, of North Carolina, who had telegraphed him an invitation to act as coach to the House of Representatives team, which will play in the cable chess match with the British House of Commons.

Mr. Pillsbury, besides being one of the greatest exponents of the game living, has not personally played with many of the best players of the House of Commons, and for this reason any assistance that he may give to the American team, will be of the greatest value during the match.

He is daily imparting to them such of his knowledge of the science of the game as has been instrumental in placing him in the foremost rank of the greatest chess masters of his time.

He has met Lasker, Tschegorin, Steinitz, and Herr Tarrasch, the greatest of contemporary chess players, and has played in most of the large tournaments of the last decade, at St. Petersburg, Hastings, and Vienna. He was a participant in the last international tournament, at St. Petersburg, Russia, January 27, 1896, and played against Lasker, Steinitz, and Tschegorin. He is not yet thirty years of age, and the marvelous skill with which he handles his chessman has excited worldwide wonder and admiration.

Champion Pillsbury was seen at the Congressional Hotel yesterday by a Times reporter, and was asked about his future plan. He said he expected to participate in the next international tournament, which will be held in Berlin, this year. He said, though, that there was some talk in Berlin that it would not be held until next year. At any rate, he said he would take part in it. The Emperor of Germany, who is a lover of the game, will give a valuable trophy to the winner in this tournament.

Mr. Pillsbury is at present most deeply interested in the woman's international chess tournament that will be held at the Hotel Cecil, London, about the 22d of next June, and while he is here, he said, it is likely that he will give a simultaneous blindfold exhibition, playing chess against eight players at once without seeing the board, the proceeds to be used in securing a prize fund for the coming woman's tournament.

Mr. Pillsbury has undertaken to donate a prize fund of £50 to be given at the second prize.

"If arrangements can be made to have a simultaneous game here," he said, "I am very anxious to play it here, but if the arrangements cannot be made, it is likely that the game will be given in some other city."

He will sail from New York for England on June 19, and be present at the first international woman's tournament.

"The tournament," he said, "promises to be the next great event in the world of chess, and has been gotten up by the London Ladies' Chess Club. It has a membership of 1,120 ladies, many of them great players, and has only been organized about two years. They have their own parlors, and meet tri-weekly, as is the custom of most London clubs. Lady George Newnes, wife of Sir George Newnes, who has donated several international chess trophies, is president; Mrs. Koda A. Boyles, wife of H. L. Boyles, of the Metropolitan Chess Club of London, is secretary; and the coming tournament is largely due to her energetic efforts and enthusiasm. She is also the team captain."

"Several American ladies will participate, notably Mrs. Harriett Worrell, but who the others will be is not definitely known. Lady Thomas, who is the wife of Sir John Thomas, and who won the first prize at the Hastings tournament, will probably play, and I shouldn't be surprised if several of the foremost lady players of Australia are present."

"The Germans will very likely be represented by one of the Duchesses of Mecklenburg, and by Frau Tarrasch, wife of the great German chess player. Among the other well-known players whose names are mentioned in connection with the match are Frau Marco, of Vienna; Mrs.

Ridpath, of Paris, and a German player of Berlin, whose name is said to be known to Herr Emmanuel Lasker.

"The tournament promises to be a grand success, and will do much to increase

CLAIMS FOR FIRE INSURANCE.

The Julius Lansburgh Company Enters Three Suits.

Three more suits were filed at the clerk's office yesterday, with the Julius Lansburgh Furniture and Carpet Company as plaintiff, involving insurance claimed to be due as a result of the fire, which destroyed their stock, in the Kink, on New York

the interest of the ladies in the game. "I am informed that a ladies' club is now being formed in Philadelphia.

"In New York we have the Home and Country Club, and in Brooklyn, the Brooklyn Heights Sociable Club, both of which are composed of lady chess players."

Mr. Pillsbury said, in referring to the coming cable chess match with the House of Commons, that it has already aroused a great deal of interest in the game throughout the country. "I am quite sure," he added, "that chess is becoming daily more and more popular. In this respect the proposed game has awakened an interest somewhat similar to that maintained in France by the famous Cafe de la Regence, in Paris. It was here that Louis Bonaparte, when a lieutenant of artillery, played, and every chess player that visits Paris naturally seeks to play on the original board that was used by him, and which is there exhibited. The cafe is visited by large crowds, and any afternoon after 3:30 o'clock, aged Theodore Tilton, the famous journalist, is regularly seen deeply interested in the game."

A well-known Congressman, whose name has been mentioned quite prominently in connection with the coming cable match, said that it will probably be postponed until a later date. Representative Pearson, who has the matter in charge, has been on a visit to his home in Asheville, N. C., during the past week, and has not returned as yet, so nothing definite in regard to the first details has been arranged. The match is set for tomorrow, but the chess players of the House are still at sea in regard to the names of the players that will constitute the team.

Those who will be selected will likely be some of the following: Mr. Shafer, of Colorado; Mr. Handy, of Delaware; Mr. Pearson, of North Carolina; Mr. Bodine, of Missouri; Mr. DeArmond, of Missouri; Mr. Swanson, of Virginia, and Gen. Wheeler, of Alabama. Other good players are Gen. Henderson, and Messrs. Foote, Shannon, and Bennett, of New York.

It is stated on good authority that the team will be Messrs. Shafer, Handy, Pearson, and Bodine.

It is also said that many of the chess players of the House of Representatives are unwilling to manifest an interest in the game, as it may be greatly to their disadvantage in the judgment of their constituents at future elections. The game, if postponed, will be played on a day when the House is not in session.

THE ENGINEER SHARPSHOOTERS.

The Company's Quarters Handsomely Decorated by Lady Friends.

At a recent meeting of Company A, Engineer Battalion, the following gentlemen were elected to membership: J. M. Harrison, Robert Davidson, M. F. Hubbard and P. L. Bush.

The rooms of this company have been handsomely decorated with bunting, flags, pictures and other devices suggestive or appropriate to the special military work of the company. The lady friends of the members are responsible for the pleasant change in the appearance of the company quarters. The work was in charge of Mrs. and Miss Farrow, Mrs. Albert, Mrs. Huttery, Mrs. Scott, Mrs. Buell, Mrs. Tomlinson and others.

The civic name adopted by the company is "Engineer Sharpshooters," and the scores made by the members at rifle practice during the gallery season just closed indicates that the name was well chosen, for the record of each man runs far above the military requirement of 80 per cent for sharpshooters. The following is the total score of each of the thirty-eight men in the company, bearing two strings of five or ten shots at each distance, 200, 300, 500 and 600 yards, viz:

Capt. Tomlinson, 200; Corporal Callahan, 200; Corporal Albert, 200; Private Good, 200; Private Leland, 200; Private Leake, 200; Private Williams, 195; Lieut. Harvey, 195; Sergt. Garrison, 185; Private Farrow, 195; Private Lines, 194; Private Masole, 193; Sergt. Dickey, 192; Private S. I. Scott, 192; Private H. Beckert, 192; Private Winans, 191; Private W. H. Beckert, 191; Private Stambaugh, 191; Sergt. McLaughlin, 191; Private Davidson, 191; Private Pollard, 189; Private Harrison, 189; Lieut. Huttery, 189; Private Bush, 189; Private E. W. Scott, 188; Sergt. Stewart, 187; Private Harley, 187; Private Shepherd, 187; Private Cook, 187; Sergt. Smythe, 186; Corporal Wetherald, 185; Private Morgan, 184; Private Schaffir, 183; Private Berg, 182; Sergt. Appleby, 182; Private Hill, 181; Private Rollins, 181; Private Holman, 181; Private Russell, 181; Total, 7,220.

It will be observed that five members made 100 per cent, while the low score in the company are over 90 per cent. The above scores give the company the high average of 190 points per man out of a possible 200, or an average of 95 per cent per man, for the entire company.

avenue, between Thirtieth and Fourteenth streets, last December.

The companies sued were the Reading Fire Insurance Company, of Reading, Pa., \$1,000; Westchester Fire Insurance Company, of New York, \$2,500, and the Palatine Insurance Company, Limited, of Manchester, England, \$2,500. William F. Mattingly and Leon Tohrner represent the plaintiff.

I HAVE BEEN EVERYWHERE LOOKING FOR A HOME

I could not be suited in every particular until today. It has either been an undesirable neighborhood, poorly built houses, or very exorbitant rents. But I had a lovely surprise this morning. I answered an advertisement in THE TIMES and secured a great bargain, a charming up-to-date brick residence, with stable and large side yard, worth at least \$45 per month, for only \$24.50. I am delighted with my choice—there is one more, and one without stable and side yard, for only \$19 per mo.

These houses are all built of the best material by day labor; have eight rooms and bath, verandas, sanitary plumbing, city water, gas, sewers, porcelain-lined roll-rim bath tubs, electric bells, ranges, hot and cold water, speaking tubes, southern edge grain pine floors, tiled hearths and fireplaces, handsome mantels and beautifully papered. They are erected on terraced lots with substantial copings, steps and walks, shaded by a beautiful grove. They are near the Soldiers' Home and not far from Mt. Pleasant, on the Brightwood Electric Car Line. For further particulars apply on premises or to
