

For the District of Columbia, partly cloudy weather, preceded by light showers in the early morning, southerly winds.

NO AGREEMENT ON SUGAR

Indications Are That the House Rates Will Win.

A REPORT EXPECTED MONDAY

Other Influences Beside the Speaker at Work—The Members of the House Stiffening the Backs of Their Conferees—Probable Policy of the Senate's Representatives.

There were strong indications last night that there will be a report from the tariff conferees Monday. This report will probably show an agreement on all items but the sugar schedule, and on that there will in all probability be a disagreement.

Being convinced that neither side would yield on this proposition, Speaker Reed has for three days been playing for a disagreement and urging the House conferees to bring the discussion up to a point where a disagreement on this item would be suggested.

Accorded yesterday morning when the conferees met and the sugar schedule was referred to. Mr. Grosvener, acting upon the tip of Speaker Reed, stated to the Speaker, that he would support the conferees if it got a chance for a separate vote on sugar.

That was the condition of affairs at the end of the day. There were no indications of a conclusion being any nearer at hand than when the conferees first began their sessions.

There is a spirit of unrest in the Senate. Mr. Hanna and others want a tariff bill passed, and if an agreement can be reached on sugar it will not require one member's vote to come to a final conclusion on the whole bill.

Mr. Hanna and others want a tariff bill passed, and if an agreement can be reached on sugar it will not require one member's vote to come to a final conclusion on the whole bill.

big building through the Senate and walked up the stairs and passed the conferees' room. There was no one outside, so without sending for anyone, he passed his way to the House end where, during the hour he saw the majority of the House conferees and learned from them that they were standing fast for the House.

Contrary to his usual custom, the Speaker appeared upon the floor of the House a half hour before the hour for convening and spent the time discussing the overshadowing subject with Republicans. He was told by several of fifty members that they intended to stand in line on the House floor if it took all summer.

During the late afternoon yesterday the report was circulated that an agreement had been reached on the sugar schedule and the Senate had received from its amendment a member of the conferees committee.

THE SUGAR PULL.

THE GOLD FEVER GROWING

Thousands Anxious to Start for Alaska's Frozen Shores.

TALES OF THE PROSPECTORS

They Say That the Mineral District Is Extensive Enough to Accommodate All Comers, but That No One Must Attempt to Go There Without Some Capital.

San Francisco, July 16.—San Francisco has not been stirred by any mining discovery since the opening of the great bonanza on the Comstock lode in Nevada, nearly thirty years ago, as it has been for two days by stories of two score well-known and hard-featured miners, who have just returned from New Columbia camp on the Yukon River, far Alaska.

These stories would have excited delirium were it not that all these men were able to furnish clear proof of their tales with pounds of yellow gold. Not one of the party went into this camp last fall with anything more than outfit and a few hundred dollars.

They are careful to warn any one about venturing into the Yukon country unless they are young, vigorous, brave, able to bear hardships and have from \$500 to \$1,000 for outfit and current expenses.

A QUESTION OF MORALITY.

Princess Chimmy's Risque Photos Cause Trouble in Berlin.

Berlin, July 16.—Princess Chimmy's photographs have caused a conflict between the police and the court. A few days ago the police confiscated four risque photographs of her highness.

Now the Berlin lower court has ordered the police to return the pictures on the ground that the pictures do not offend public morals. The police and most of the better class of newspapers are indignant over the decision.

WORKING FOR Bimetallism. The French Embassy Co-operating With the American Commission.

London, July 16.—The French embassy here, acting under instructions from the French government, continues actively to co-operate with the American bimetallist commission in urging Lord Salisbury to agree to the holding of a national monetary conference some time this autumn, and to reopen the mints of India.

THE HOUSE AGREES TO THE SENATE ARMOR PLATE AMENDMENT.

The House held a spirited session yesterday that lasted until almost dark. Much of the time the Speaker was unable to hold the members down to even the appearance of order, and during almost the entire session more bitterness was shown on both sides than has manifested itself in all the sessions since the tariff bill passed.

THE ADVOCATES OF THE CARNEGIE COMPANY MAKE A DETERMINED FIGHT, BUT THE HOUSE PROVES TO BE OVERWHELMINGLY AGAINST THEM. ACTION ON OTHER AMENDMENTS.

Mr. W. A. Stone, in whose district the Carnegie works are principally located, followed in an earnest defense of that company and its works, saying that no defective piece of plate was ever knowingly sent out therefrom.

Mr. Barker of California criticized and contradicted many of the statements made by Mr. Stone, and then Mr. Simpson followed in one of his characteristic and breezy speeches against the \$400 rate.

MARK HANNA'S INFLUENCE

The Compliment Paid It by the Coal Operators.

HE PLEDGES HIS ASSISTANCE

The Text of the Telegraphic Correspondence Between Him and the Pennsylvania Labor Commissioners—Why His Influence Was Asked and How It Will Be Effective.

Senator Hanna acceded yesterday with promptness to the wish of the arbitrators at Pittsburg, who are trying to settle the coal strike, which is expressed in the following telegram to them yesterday:

"With earnest co-operation of Cleveland operators in the Pittsburg district, strong probability of securing uniformity agreement, which others and Dr. Armat say, and we believe, would result in the settlement of the strike, I suggest his name be invited."

The telegram was signed by Owen, Little and Bishop.

This dispatch was received here early in the morning, but Senator Hanna, although asked for an interview as to his intentions, declined to talk. Later in the day he sent the following dispatches, which explain themselves in the light of the request of the labor commissioners above. The first one said:

"Little, Bishop and others, Pittsburg: Telegram received. Our coal interests at Pittsburg are represented by Mr. Thomas Young, who is here, and will co-operate along lines suggested by you. We are glad, urging other operators to join movement. Will gladly co-operate, and will urge other operators to do the same."

"M. A. HANNA."

The second telegram reads:

"M. A. Hanna & Co., Cleveland: See other coal operators and urge them to join in movement for amicable settlement of coal strike at Pittsburg. M. A. HANNA."

Senator Hanna had nothing to say further than what is found in the telegrams. They expressed his views fully and succinctly, he said.

It will occur to everyone that the arbitrators sought and secured a powerful influence in Senator Hanna. They have in fact stated that the cooperation of Mr. Hanna would settle the strike. This active interest of Mr. Hanna will, of course, have an effect politically considered, but the arbitrators had, it is said, good authority, a practical motive in trying to enlist Mr. Hanna with the arbitrators.

It was stated last night that some of the men working for Hanna & Co., or for operators in the interest of that company, had struck. The reason for that is that the Hanna Company and its allies have been paying 5 cents a bushel less than any other operator or coal combine in Pennsylvania. A bread spearing for Mr. Hanna, said last night that it was just as well perhaps to state this fact, inasmuch as Mr. Hanna had been held up and fastened as the "owner of the labor" in the strike at Pittsburg.

"There is the undeniable fact, however," he added, "that it is Mr. Hanna, who has been paying a higher wage than any other man in the State, and 5 cents on the bushel is a valuable consideration in the aggregate of a week or month's work."

ARBITRATORS AT WORK. Trying to Secure Signers for the Uniformity Agreement.

Pittsburg, July 16.—Arbitration Committee John Little, of Ohio, and Coal Operator Deamatt left tonight for Philadelphia, where Mr. Deamatt will try to induce the operators of the Pennsylvania and West Virginia coal fields to sign the proposed uniformity contract.

Commissioner McCormack left today for the District of Columbia, where he will buy large quantities of coal from Pittsburg operators and, who is therefore supposed to have much influence. Commissioner Bishop went to Columbus tonight. From there he will go to Wheeling. The commissioners all hope the uniformity agreement can be obtained. Mr. Deamatt himself has his doubts of obtaining the necessary number of signatures, and his chief opponent, F. L. Robbins, while willing to sign his name, says the movement will fail.

District President Patrick Dehan denied the story printed this afternoon that he had backed down from his promise to support the uniformity plan. He will work for it, he does not believe 95 per cent of the Pittsburg operators will sign. The supporters of the movement believe it cannot be put through, and some of them, as F. L. Robbins, for instance, think that even if it should succeed, the situation in West Virginia will render its supposed good influence ineffectual.

FRANK BUTLER HANGED. He Confesses to the Murder of Weller, Preston and Burgess.

Spokane, N. S. W., July 16.—Frank Butler, who was arrested at San Francisco while seeking to escape justice, has been hanged here for the murder of Capt. Lee Weller, who he enticed into the bush on the pretense of going on a gold prospecting trip and then killed for a paltry amount of property in his possession. Shortly before his execution Butler confessed that he had not only killed Weller, but that he had murdered two other men named Preston and Burgess in a similar manner. He also confessed other crimes.

Trenton, N. J., July 16.—An opinion was filed today by Justice Joseph, of the court of errors and appeals, denying a new trial to Jacob S. Johnson, the colored preacher of Somerville, who was indicted for killing Sarah A. Rogers in 1895. Johnson was hanged early in May, but the opinion of the court was only just prepared.

Crocker Sure to Die. San Francisco, July 16.—Vice President Crocker of the Southern Pacific, who has been ill for some days, is sinking rapidly. His death is only a matter of a few hours.

\$5.00 Mountain Excursions via Chesapeake and Ohio Railway. To Virginia Hot Springs, Greenbrier, White Sulphur and other noted resorts weekly. Tickets good going Saturday and returning following Monday. Inclusive of meals, \$5.00. 117, 18, 21, 23, 25.
