THEIR LEADERS AT FAULT. Should Not Be Content to Follow Second-Class Republicans—Best Element in the South Friendly to the Blacks—Trouble the Result of Their Own Actions—His Remedy.

A representative audience of colored people assembled at the Shiloh Baptist Church, in L Street, between Seventeenth and Eighteenth Streets northwest, last night to hear the lecture of Rev. James L. White, on the "Political War in the South."

Prof. White is a forceful speaker, and he is unhesitating in expressing his views on the question which is vexing the people at present, although his ideas are in direct opposition to the opinion of many of the so-called leaders of his race.

"I have been waiting for over thirty years to hear some colored man speak out in this political war. I have heard in profound silence—that is, I have heard no one speak as to the real cause. Many speak of the condition, and from this recent outbreak in Wilmington, N. C., I feel that I am called on to present not only the condition, but the real cause and the remedy.

A Changed View of a Changed Man.
