

TO REST AT BURLINGTON

Remains of Senator Gear Will Be Taken There for Burial.

The Funeral Train Leaves Washington at 3:30 o'clock Today—Arrangements for the Trip—Interment on Wednesday—Last Illness of the Aged Statesman—His Career.

The body of Senator John Henry Gear, the venerable Iowan, who died suddenly at 4:30 o'clock yesterday morning, rests today in a magnificent cloth casket at the Gear apartments in the Portland, on Thomas Circle. It has been decided to have the interment at his old home, Burlington, Iowa, and a special car attached to the regular Pennsylvania Railroad train at 3:30 o'clock this afternoon will convey the funeral party thither.

At 2:30 o'clock this afternoon the remains will be removed to the station, under the guidance of Sergeant-at-Arms Ransdell, of the Senate, with eight Capitol policemen as pallbearers. Mrs. Gear will be accompanied to Burlington on her sad journey by Secretary Wilson, who was a lifelong friend of the Senator. Mr. Ransdell, two or three policemen, and the Senator's messenger will likewise accompany the remains. The burial will be under the direction of the Senator, Mr. Ransdell, two or three policemen, and the Senator's messenger will likewise accompany the remains.

The dead Senator personally was a most likable and lovable man, his title of Governor or only alter ego among his friends by the sobriquet "Old Business," by which he was known on account of his thoroughly reliable methods. His wife, who was a devoted and capable woman, had a peculiar capacity for securing places for her constituents and he was tireless in looking after the interest of friends whom he considered worthy of his attention.

Some of His Characteristics. Senator Gear's success in politics was much helped by his marvelous memory. No detail escaped his recollection and he recalled the most trifling affairs for years. He was a veritable library for information touching on the legislation enacted for his State. The same memory served him in good stead in meeting people. It is said in Iowa that he remembered every man to whom he had been introduced.

He was nothing of a grandstand politician and he talked little, but he ranked high among the conservative, thoughtful members of the Senate. One of his curious habits related to the low-crowned, broad-brimmed hat which he always wore. He was most careful of the head-piece, and the sleeping car in which he traveled was traveling was alderacked in the Allegheny Mountains. It was expected that the delay would only be for about ten minutes, but the train was held up for nearly three hours. It was bitterly cold, and the passengers suffered greatly.

Strike warm weather set in the Senator had been quite active. He had driven around the city almost daily. He was a frequent visitor at the White House, and was always cordially received by the President, who esteemed him highly. One of the last callers to bid farewell to Mr. McKinley before the departure of the latter to Canton was Senator Gear. The Senator was then with him at the time, and he had a large part in the national campaign in his State. Arrangements had been made for speeches by him at Burlington, Cedar Rapids, and Des Moines. It was to commence this campaigning that he had planned to leave for Burlington today with Mrs. Gear.

Friday night, after a ride over the city with Secretary Wilson, he spent some time talking with the Secretary and Colonel Root. He went to bed at 10 o'clock, in the best of spirits. About 1 o'clock he awoke with a pain in the region of his heart. Mrs. Gear rubbed his chest with alcohol, which seemed to help him, and he felt better, but at 1:30 o'clock he was taken violently ill. Colonel Root, who had his quarters also in the Portland, was called to the room, and, seeing that the Senator's condition was serious, he called for a physician, Dr. Frank A. Gardner. In the absence of the latter Dr. Davis was called. He arrived soon after 2 o'clock. Meanwhile the Senator had continued to sink, and the physician did nothing. The aged statesman was conscious to the last. At 4 o'clock Mrs. Gear asked him if he felt better. He nodded in assent. He passed peacefully away at 4:30.

An Iowa Pioneer. Senator Gear was born at Ithaca, N. Y., on April 7, 1825, and accordingly was well past his seventy-fifth birthday. He was almost raised on the frontier, for in 1836 the family moved to Galena, Ill., and in 1838 to Iowa, where he was engaged in a variety of occupations. He died at Washington, November 24, 1894. Interred here.

DABBLED WITH POISON

Perilous Task of Those Who Manufacture Deadly Drugs.

The Many Dangers to Which Those So Engaged Are Constantly Exposed—Precautions Taken by Them—The Almost Irresistible Temptation to Sample Their Wares.

NEW YORK, July 14.—A factory for the manufacture of some of the deadliest poisons known is located not far from the heart of New York City, and sufficient poison is being made there now to annihilate the whole population of the greater city. It is guarded carefully from all intruders and no one passes beyond its portals without a special permit, and even employees have to be skilled in their work and the nature of the risk they take before admittance is granted to them.

Probably the next in importance to this acid is the cyanide of potassium, which is manufactured in the same factory, only in another part of the building, where a fireproof and airtight wall shuts it off from the first. The fumes of this are not so dangerous as those of the cyanide, but it is manufactured without fear, except that he must not touch it. The slightest quantity of the poison in its pure state will kill a man in a few minutes. It is a white crystalline substance, and it is said that it has a sweetish odor, and as you gaze on it and smell the fascinating odor, there is a strong temptation to taste it. This fascination is probably much like that which draws a man over a precipice. At any rate, the attraction to taste of the poison is so well recognized that a workman is never allowed in the room alone.

Some of His Characteristics. Senator Gear's success in politics was much helped by his marvelous memory. No detail escaped his recollection and he recalled the most trifling affairs for years. THE FAYERWEATHER WILL

Famous Ten Years' Litigation Reviewed by an Attorney. NEW YORK, July 14.—The Fayerweather will case, in which Judge Lacombe of the United States Circuit Court handed down the eighth decision on Thursday, is a story of ten years' litigation, and is interesting for the fact that it has reached the hands of Mr. Fayerweather in 1890, and also because, according to the lawyers representing the heirs of Mrs. Fayerweather and others next of kin, who claim \$3,000,000 of the dead man's estate left to various colleges and charitable institutions, the case involves an admitted miscarriage of justice which is entirely discordant with the Constitution of the United States and the usual practice of courts of justice.

William Blalock, of counsel for the estate of Mrs. Fayerweather's estate, summed up the legal history of the case today as follows: "The first trial occurred early in 1894, before Justice Truax, in the State Supreme Court, Justice Truax deciding that Mr. Fayerweather had legally willed all his estate to the colleges. He stated, however, that he had not considered how the releases had been obtained, which were given by the widow and next of kin.

"On December 28, 1895, the Appellate Division decided that at the death of Mr. Fayerweather his widow and next of kin owned one-half of his real estate. This decision was made on the assumption that Justice Truax had passed upon the validity of the releases, but when it was discovered that this was not so, having no power to pass upon questions of fact which the lower courts had handled, decided that it was powerless to look into that validity, and so, in its lower court, affirmed the decision of the lower court.

ACCUSED OF LARCENY.

Young Man Charged With Falsely Obtaining a Check for \$25. ROCHESTER, N. Y., July 14.—William H. Mangin, a young man employed on the "Star," a weekly sheet appearing on Saturdays, was today arrested on the charge of petit larceny, preferred by the proprietor of the paper. It is alleged that Mangin unlawfully cashed a check made out to the "Star" by J. Breck Perkins, candidate for Congress in opposition to Representative J. M. E. O'Drilly. The proprietor of the paper says that Mangin, on Thursday last, collected a check for the amount from Mr. Perkins, presented the check for payment at the Central Bank and endorsed his name as proprietor of the "Star."

Mangin says that several weeks ago the proprietor of the paper invited him with the manager of the "Star" to make a public announcement to that effect was made, and that acting as manager of the "Star" he made a contract with J. B. Perkins for the publication of a number of political articles to be published until the fall campaign is over, and that Mr. Perkins agreed to pay \$100 for them. As manager of the paper, Mangin says he received 25 per cent of the receipts, on Thursday last he sent the following note to Mr. Perkins: "Kindly send check for \$25. Will credit you with that amount on presentation of the bill."

Mangin signed his name as manager of the "Star" and enclosed with the note one of his checks for \$25. Mr. Perkins, it is alleged, and Mangin, accompanied by Attorney Ira L. Ward, for the purpose of identification, went to the Central Bank and cashed the check.
