AFFAIRS OF THE DISTRICT

The Need for Additional Police in the Fifth Precinct.
 The Superintendent Reports Upon the Petition of G. M. Neely and Others—Defense of the Assessor—The Wards at the Washington Asylum Hospital Badly Crowded.

Richard Sylvester, Major and Superintendent of Police, yesterday reported to the Commissioners upon the petition of Guy M. Neely and others of the Fifth precinct asking for a larger assignment of policemen for that precinct. The petition was recently published in The Times.

Major Sylvester states that his department is utilizing the limited force at its disposal to the best advantage. He informs the Commissioners that he realizes that the force is insufficient in numbers, and he refers to the annual report for the year 1900, wherein the conditions existing in the several precincts are set forth.

Continuing, Major Sylvester says: "With many men sick the force has been depleted more than usual and it has been necessary throughout the past season to detail men from other precincts temporarily in order to meet emergencies. The shifting of the men in this way has been a source of much anxiety to the Superintendent, but has been made necessary by inadequate numerical strength.

"The Commissioners have repeatedly appealed to Congress, as I have myself, for a proper appropriation. I have yet up to the present time provision has not been made as recommended. It affords me pleasure to state that the party who has been working for the relief in the section referred to was arrested February 6 by Detectives Flather, Brown, and Walton."

The Commissioners have approved the report of the Major and Superintendent and the petition will be informed in accordance therewith.

Dr. Richard Klegman, of 711 East Capitol Street, recently wrote to the Commissioners requesting remission of penalties and costs on account of the years 1897 and 1899 on lots 7, 8, 17, 55, 56, Block 45, Washington Park. The reason assigned for the request was that he was not given the bills for the years named when called for at the office of the Assessor.

In replying upon the matter, H. H. Darnelle, the Assessor, says: "While it may be admitted that the clerical force of this office has been deficient and the demands of the taxpayers, especially at the times of the semi-annual payments of taxes, it is submitted that all requests in person or by letter meet with prompt attention. It frequently happens that taxpayers call for tax bills specifying the particular year desired, and, in some cases refusing to receive bills for prior years, but it does not necessarily follow that the applicant in this case comes within that class.

"Our present system of bringing up arrears of taxes to date affords greatly improved facilities for furnishing information as to taxes.

"In this case the taxes were duly advertised in the daily papers twice a week for a period of three weeks, also in a pamphlet edition, which was all the notice required by law. The failure to liquidate the taxes in question cannot be attributed to any fault on the part of the office, and therefore I am constrained to recommend adverse action."

Dr. Percy Hocking, visiting physician at the Washington Asylum Hospital, has called the attention of the Commissioners to the crowded condition of the wards of the institution at the present time. He states that while there are beds, and that the colored female ward is in a similar condition, while the colored male ward has four more patients than there are beds. He calls attention also to the dissatisfaction that occurs among the staff and the nurses as well as the patients under the conditions that prevail, and he asks that he be permitted to refuse admission to patients when the ward to which they are assigned is full.

George S. Wilson, Secretary to the Board of Charities, in response to the matter at the request of the Commissioners informs them that the board has carefully considered the request made by the visiting physician, and has decided to refer the Sanitary Officer be instructed that when the Washington Asylum Hospital As-

ylum is filled to its normal capacity, he make an effort to secure the admission of patients to other hospitals before sending them to the Asylum Hospital. In case other hospitals have no room, or in any reason to admit the patients, Mr. Wilson says as the Washington Asylum Hospital is the only hospital to which, under present conditions, the Commissioners can demand the admission of patients, the Board of Charities does not deem it advisable to grant authority to the visiting physician to refuse admission to any patient sent to the hospital by the proper authorities.

W. C. Haskell, Sealer of Weights and Measures, has reported to the Commissioners that for the past few days his office has been looking after the bucksters who use short measures. He states that on February 4, a man was found using a quarter-peck measure sewed off at the top, reducing its capacity over one-eighth of a peck. The same man, he says, had a half-peck joined together, from which he was drawing out a smaller measure, reducing its capacity very materially.

Mr. Haskell states that he had the man arrested and taken into Police Court, where he was fined \$15 and costs. The court said, in making the fine, that it was about time this practice was stopped.

Lord Pauncefote, the British Ambassador, recently requested the Commissioners to send him a copy of the regulations in force relative to the operation of automobiles in the District of Columbia. Yesterday the Commissioners sent to his lordship a complete copy of the Police Regulations, reference being made to details of the regulations relative to the auto-vehicles.

The Commissioners explain that their reply was delayed somewhat by the fact that the Police Regulations have been under revision, and it was found necessary to insert slips of recent amendments to the regulations.

The Commissioners have notified Gen. George H. Harries, Vice President of the Washington Traction and Electric Company, that they have decided to hearing at 11 a. m. on Tuesday, February 12, to all who may wish to be present and give their views relative to House resolution 1331: "To protect employees of street railway companies." etc. A similar notice was also sent to George T. Dunk, President of the Capital Traction Company.

By order of the Commissioners, \$2,900 of the \$10,000 appropriated under the joint resolution of January 27, 1901, has been

Scrofula THE OFFSPRING OF HEREDITARY BLOOD TAIN.
 Scrofula is but a modified form of Blood Poison and Consumption. The parent who has the disease in either will see in the child the same disease, manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores, and abscesses and other symptoms which white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 15 Public Square, Nashville, Tenn., writes: "My six-year-old daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Several of the best doctors here, but elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S., and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.

"WH-RE DIRT GATHERS, WASTE RULES." USE SAPOLIO

allotted to the purpose of erecting supports for rope and for purchasing and placing ropes along the line of Pennsylvania Avenue March 4, 1901.

The Commissioners have ordered that the time for the completion of the contract with Herman E. Burgess, for constructing the building at Takoma Park, D. C., has been extended to March 12, 1901, without penalty or cost of inspection.

Permission has been granted to A. Loeffler to drive cattle over a specified route at times other than those mentioned in the regulations at Takoma Park. The driver be cautioned against allowing the herd to overrun the grounds of Howard University.

By order of the Commissioners, F. D. Barlow, E. J. McQuenny, and J. F. Hayre, have been appointed additional privates of the Metropolitan Police Force, for duty respectively at the Carberry, Maury, and Lenox schools.

The Commissioners have ordered that the resignation of Fred. R. W. Reib, private of the Metropolitan Police Force, be accepted to take effect February 6, 1901.

The Electrical Engineer has been authorized by order of the Commissioners to purchase twenty-five combination iron fire alarm boxes and street designation lanterns, as recently recommended to the board.

An order was yesterday issued by the Commissioners that the night naphtha lamps be erected on Hamilton Road from Good Hope Road to Alinger Avenue and that six naphtha lamps be erected on Alinger Avenue, between Hamilton Road and Bruce Avenue.

BEGINS SUIT FOR DAMAGES.
 A. A. Farver Charges G. T. Harrell With Malicious Prosecution.

Jacob A. Farver yesterday sued George T. Harrell to recover \$10,000, claimed as damages for malicious prosecution. It is explained that the plaintiff was in the employ of the defendant as a grocery clerk at 1515 Fourteenth Street northwest, and upon leaving his employer took services with a neighboring grocer. After leaving the service of Mr. Harrell the plaintiff returned to Harrell's store and took charge from a gas stove which he claimed as his own property. Harrell, it was said, demanded the return of the stove, claiming it as his property, and upon failure to obtain it had the plaintiff arrested. The case was tried before Judge Scott and the defendant was acquitted.

Attorneys C. J. F. Graff and J. Walter Wheatley appear for the plaintiff.

THE MASON THOMAS INQUEST.
 Coroner's Jury Renders a Verdict of Accidental Death.

The death of six-year-old Mason Thomas, colored, who was killed Tuesday afternoon at the corner of Third and Van Streets southwest, by being caught under a falling fence, was due to unavoidable accident, was the verdict of the coroner's jury which met at 50, S. Stationhouse yesterday morning to investigate the circumstances surrounding and place the responsibility for the death of the little boy.

It was shown that a high wire was prevailing at the time, and that the fence was in a fairly good condition. Dr. Glanbrook, the deputy coroner, who performed the autopsy, testified that the immediate cause of death was hemorrhage of the nose, and that a nail had not penetrated his brain as was at first supposed. The body will be removed to the home of the boy's parents, 323 Van Street southwest, from where the funeral will take place.

The Death Record.
 The following deaths for twenty-four hours were reported at the Health Department to men yesterday: Maria R. Burns, 80 years; Jed H. Hallowell, 60 years; Rebecca D. Walker, 86 years; Marian Perryman, 56 years; Theodore A. Winkling, 49 years; George A. Bateman, 80 years; James F. Smith, 19 years; Annie Weir, 21 years; Mary Ashton, 19 years; Mary J. Proctor, 15 years; Eva M. Allen, 5 months.

Synoptist Mooreman's Tour.
 Jean B. Mooreman, the noted soloist of the National Academy of Music, was with Lieutenant Santelmann for his Western concert tour.

Hotel Guests Robbed.
 Mrs. Harriet Wason, who keeps a lodging house at 200 Pennsylvania Avenue northwest, reported to the police that she had been operating among her roomers. According to Mrs. Wason, several of her roomers have lost money during the past month and drew goods valued at \$55 also missing from the house.

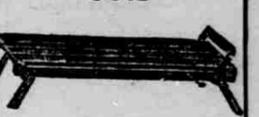

Harris' Condition Still Critical.
 James Harris, the colored man whose skull was fractured Wednesday afternoon by fragments from a fly wheel while he was engaged in operating a steam saw on Executive Avenue, near the White House, is still in a critical condition at the Emergency Hospital. He has shown some signs of improvement since the completion of the operation that it was found necessary to perform on him, and the surgeons now entertain slight hopes of his recovery.

Wounded by an Unknown Person.
 It was shown that a high wire was prevailing at the time, and that the fence was in a fairly good condition. Dr. Glanbrook, the deputy coroner, who performed the autopsy, testified that the immediate cause of death was hemorrhage of the nose, and that a nail had not penetrated his brain as was at first supposed. The body will be removed to the home of the boy's parents, 323 Van Street southwest, from where the funeral will take place.

Charged With Theft.
 Abel Bammy, colored, eighteen years of age, was arrested last night by Detective Trumbull and locked up at the Second precinct station, charged with the theft of \$4.75 from her former employer, Nicholas Wagner, who lives at 1227 Seventh Street northwest. The theft was committed several days ago. It is stated that the accused returned to his home yesterday and was found in a bedroom on the second floor. The police were notified of her presence, and she was arrested. The woman denies her guilt.

Damages for Personal Injuries.
 In the case of George Mauer against the District for damages for personal injuries, which has been on trial for several days before Chief Justice Bingham, the jury yesterday awarded the plaintiff \$480. Mauer was injured by a limb falling from a tree on the south side of M Street near Twenty-third northwest. He sued for \$10,000 and was represented by Attorneys Barrett and Niles.
