THE TRIBUNE FOR 1861.—PROSPECTUS.—The XXth Volume of the Weekly Tribune commenced with the issue of Sept. 1. During the past year the Tribune has been obliged to devote quite a large proportion of its space to political and social questions, and to discuss and discuss almost entirely for months if not for years, and devote nearly all our columns to subjects of less interest, but more abiding interest. Among these, we mean to pay special attention to Education, the subject of Emancipation, both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to elicit in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is the cause of Education that receives its impetus from the exertions of the Tribune in its behalf during the year 1861.

II. AGRICULTURE.—We have been compelled to restrict our attention to this great and noble pursuit, throughout 1860, and shall endeavor to atone therefor in 1861. Whatever discovery, deduction, demonstration, is calculated to render the reward of labor devoted to cultivation more ample or more certain, shall receive prompt and full attention in our columns. MANUFACTURES, &c.—We hail every invention or enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry, as a contribution to the Public Wealth, insuring ampler, steadier, more convenient, more remunerating markets to the Farmer, with fuller employment and better wages to the Laborer. The progress of Mining, Iron-Making, Steel-Making, Cloth-Weaving, &c., in our country and the world, shall be reported by us with an earnest and active sympathy.

IV. FOREIGN AFFAIRS.—We employ the best correspondents in London, Paris, Turin, Berlin, and other European Capitals, to transmit us early and accurate news of the great changes that are silently but certainly preparing. HOME NEWS.—We employ regular paid correspondents in California, at the Isthmus of Darien, in the Rocky Mountain gold region, or wherever else they seem requisite. From the more accessible portions of our own country, we derive our information from the multifarious correspondents of the Associated Press, from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with the fullest and most authentic news of every kind, and to do so, wherever afforded. Hoping to "make each day a critic on the last," and print a better and better paper from year to year, as our means are steadily enlarged through the generous co-operation of our many well-wishers, we solicit, and shall labor to do so, a constant and liberal patronage.
