

THE JOURNAL.

CLEARFIELD, PA., AUGUST 6, 1862.

Table with 4 columns: Time of Cars leaving Tyrone Station, Direction, Time, and Agent. Includes entries for Eastward, Westward, and Through Exp.

NEW BELL.—The new bell for the Court House reached this place last week. It is made of the regular bell-metal and has a most excellent tone.

PREACHING.—By divine permission, Rev. Britten of Chambersburg, will preach in the Lutheran Church in Clearfield Borough, on Sunday the 10th inst., at 5 o'clock in the afternoon.

DIVINE SERVICE.—Dr. Litch will preach in the Baptist Church this evening, at early candle-lighting. Subject—"Signs of the times, or the great tribulation." The public are requested to attend.

TALL OATS.—Mr. W. D. Shirley of Bradford township, left at the Journal office, on Monday last, a stalk of oats measuring 5 feet 7 inches in length, and the head 15 inches. This is a tall stalk and will be hard to beat.

THE CAMP MEETING.—By reference to the advertisement for a Camp Meeting near Mt. Joy Church, it will be seen that it is to be held on the 29th instead of the 15th of August, as first announced. Unforeseen circumstances have rendered this change necessary.

PERSONAL.—During the past month we have sent bills to such of our subscribers as owe more than one year. We desire to have all the old accounts settled, by the end of volume 8—the time mentioned in the bills sent. We hope our friends will respond promptly to this request—otherwise, we will be compelled to stop their papers and put the bills in proper shape for collection.

RELIGIOUS.—The corner stone of the Bloomingville Lutheran Church will be laid on Saturday the 16th August, at 10 o'clock, A. M. Several ministers are expected to participate in the ceremonies. The members of neighboring congregations, and all well disposed persons are cordially invited to attend. Communion will be held on Sabbath, in the School House near the ground.

D. D. RITTER, MOSES WISE, A. A. LOTT, Building Com.

HOUSE BURNED.—We learn that the dwelling house of Benj. Spackman, on his farm in Lawrence township, was burned on Sunday the 3d inst. It is supposed that the fire originated from some sparks falling on the roof from the chimney—fire having been kindled in it, to cook dinner, a short time previous to the occurrence. The house was a good frame building, and was worth probably eight hundred dollars. The house was occupied by Daniel Welsch, and a large portion of his household goods were burned also. The loss is rather a serious one.

WASHINGTON PENNSYLVANIA SOLDIERS' RELIEF ASSOCIATION.—This Association, having opened an office at No. 5 Washington Buildings, corner of 7th street and Pennsylvania avenue, where will be found a register of all Pennsylvania soldiers in or around this city in hospitals, invite the friends of the same to call, assuring them that all possible aid will be extended in finding their sons. Mr. Chas. L. Wells, the Register, will be found in the office. The Corresponding Secretary, Mr. S. Fodd Perley, will answer all letters in regard to sick and wounded Pennsylvania soldiers, whether in or around this city, Baltimore, Philadelphia, New York, or New Haven. Address, care Box 84, Washington, D. C. J. K. MOORHEAD, Pres't. J. M. SULLIVAN, Sec'y.

Metropolitan Observations for July, 1862. Mean temperature in the morning 68; noon 80; evening 67; mean of the whole day during the month, sixty nine. The month was mostly fair, with more or less rain on nine days, generally light showers; except on the 23rd, when we were favored with a heavy rain, but not injurious to the crops, or fields. The range of the mercury was from 46 on the morning of the 1st, to 93 on the morning of the 6th; on twenty one days the mercury rose to 80 and upwards at noon, and on four days to 90 and upwards. The weather throughout July was generally favorable to vegetation; moist and warm, yet at no time was the heat oppressive to the laborer. The hay is a fair average crop. The wheat is mostly well grown but will not make bushels or pounds as its appearance would seem to warrant. The oats has a good growth, and bid fair for a very fine crop, until near the close of the month, when many fields began to show strong indications of rust; as also ravages of insects. The corn as far as I have seen, promises a fair crop; July has been favorable for making stalks; we must depend on the heat and moisture of August for making ears. If the mercury ranges near ninety at noon for ten days, and about eighty for the balance of the coming month, the corn crop may be considered safe so far as the weather is concerned. July has passed with neither drouth, storm or flood; for which, I trust, we are all duly thankful.

By giving this place in your columns at an early date, you will do justice to those who were with me at the time referred to.

I am now able to walk about; and although quite weak, yet, I think, that I am in a fair way to recover. E. A. HOOPER.

A Brooklyn paper says a lady purchased an article in Fulton street the other day, when she received the following assortment of goods: one ticket, silver change for a dollar bill; Ferry ticket, silver change for a dollar bill; Ferry ticket, silver change for a dollar bill; Ferry ticket, silver change for a dollar bill.

Recruiting is going on gloriously in Michigan. It is expected that the whole new quota will be ready to take the field in a shorter time than the first four regiments were made up.

CORRESPONDENCE OF THE "JOURNAL"

CAMP NEAR HARRISON'S LANDING, VA., July 27th, 1862.

DEAR ROW.—Everything is quiet along the lines. It has been the universal report for the past few days; and, with the exception of a few reviews of the different army corps in as many different days, there has been nothing of interest transpiring here, within the scope of my knowledge. There was a Grand review of the 5th army corps, Gen. F. J. Porter's, to which is attached the Penn'a Reserve corps. I was not present on the occasion, but was told that it was a magnificent affair every scene of the word. I witnessed the troops as they passed out of camp, and the Reserves, notwithstanding their decimated ranks, made a highly creditable appearance. The troops were reviewed by the commander-in-Chief, who, by his familiarity with the men in the different commands, is endeavoring himself more and more to them. Confidence in him is daily increased.

The weather is exceedingly warm just now, yet notwithstanding the general health of the troops is improving. But, from the effect of the extraordinary fatigue the men have passed through, many are necessarily forced to give way, and fall victims to disease and death. It is not an infrequent sight to witness an ambulance slowly proceeding towards the last resting place of the dead, followed by an escort of soldiers with arms reversed; who, as they march, to meet the earth all that is mortal of their companion in arms, pay their last earthly salute to the noble dead by firing a volley over his grave. However, I am glad to learn that the list of mortality in the army is rapidly decreasing as we are free from the miasma arising from the numerous swamps, for which this section of Virginia has always been noted.

Our army here is ready to move at any time towards Richmond, but I doubt not that it would be much more preferable, if the ranks could be filled up, will good, reliable men, with some little opportunity to render them somewhat efficient by drill, before the word "forward" is given. But the accounts that come to us from the State are not cheering as they might be. There does not seem to be that readiness to meet the emergency, the expenditure of the times, and, unless there is more energy infused into the whole machinery of recruiting, I fear that a resort will have to be made to a draft. Then, we be to the fellow upon whose devoted head the hammer may fall. The shortness of the time for which the men are engaged, and the demands of patriotism alone, should, I think, be a sufficient incentive to supply all demands. There can be no plausible excuse for the thousands of young men, unemployed, from existing in this glorious cause. How many are there in Clearfield county who might enhance their reputation by enrolling themselves among the true patriots of our country, and by their practical deeds in the common cause, entitle themselves to the lasting gratitude of a redeemed and happy country. There are also men of families—married men—who might, without disadvantage to either party, in consideration of the shortness of the time for which they are asked, enlist under the nation's banner to redeem it from the disgrace which is sought to be heaped upon its fair children. When we consider that there are many stalwart men who barely make both ends meet, although receiving for their labor nominally much more than the price paid by the Government, yet, the difficulty of getting the same and the manner in which it is got, leaves a very large preponderance in favor of Uncle Sam, (whose employment for the time is constant) and in the end amounts to much more than the former, without saying anything about the one month pay in advance, \$25 of the bounty, and \$2 premium on his acceptance. If this is not inducement enough, I know not what is; and, in addition to that, if I understand it aright, \$50 State bounty is added. Why, there are as good men in the field to-day, as can possibly be in the State of Pennsylvania, who are not without an opportunity of trading the sacred soil of the boasted Confederate capital. Gen. Pope's operations give an entirely new turn to affairs, and are hailed with universal joy as the beginning of the new order of things. Let none who would like to assist in striking the last great blow at the monster, stay away; but leaving behind all minor considerations, hasten to join their brothers in arms, and share their dangers and their glory. W. R. B.

CAMP NEAR HARRISON'S LANDING, VA., July 29th, 1862.

MR. ROW.—In your paper of the 23d inst., I find a letter signed "W. R. B.," which contains a paragraph stating that one of the Boys belonging to the 5th Regiment found me lying in the woods, nearly starved to death, &c. This was a mistake. The facts are, that through the untiring efforts of some of my friends in the 15th, I was brought from beyond White Oak Swamp to this place, whilst many others who had been in the same Hospital, were left behind. On the last day of our retreat, the rain fell in torrents, and the roads became almost impassable. In the morning, one of our boys rigged up an ambulance, placed me in it and started. After going a short distance the horse became so much fatigued, that I had to be placed in a wagon. About this time a body of cavalry came along, and compelled all who were able to walk, to move on and not wait for the train—then it was that my friend was driven away from me. Shortly after this it was deemed proper to throw a part of the load from the wagon. I was then placed in an ambulance belonging to the Bucktail Regiment, near the river, and finding that I was in the Reserve, I sent for Mr. Haiden of the 5th, not knowing where our own Regiment was. He came and had me taken to the hospital near the river bank, where I again joined the sick of our own Regiment. I was much fatigued, and felt the need of something nourishing, but who could have left otherwise under the circumstances.

By giving this place in your columns at an early date, you will do justice to those who were with me at the time referred to.

I am now able to walk about; and although quite weak, yet, I think, that I am in a fair way to recover. E. A. HOOPER.

A CONCERNED PLAN.

In noticing the recent stevedore riots in Cincinnati, the Toledo Commercial says: "There are positive evidences that these riots were the result of concerted movements, originating in New York, and incited by emissaries dispatched simultaneously to the different cities. It is understood that of four which left New York for this purpose, one remained in this city, another went to Cincinnati by the Dayton and Michigan road, and another proceeded to Chicago. This will account for the order and the time in which the riots in the several cities occurred."

These riots were to be moved to passion by the stories of negroes monopolizing the labor of the free states, and thus by convulsion in the loyal North, paralyze the power of the government, ruin its ability for self defense, and of course thus aid the rebellion. It may then be safely set down as a rule, whenever a newspaper is filled with reports of these monopolies of labor by the influx of negroes, that the object is to create a riot and thus divide the people of the loyal states, and seduce them from their allegiance to and support of the Union cause. Our rebel adversaries are ready for any work, however mean, to insure your success, and the means they use, the stronger the sympathy they receive from their friends, the dough-face Democracy in the loyal states.—Telegraph.

Root it Out.—War, sharp and decisive, is the only means by which the Republic can now be saved from premature death. The remedy is simple, and emergency is desperate. The country is stricken down with a maledy the most virulent and the most dangerous. No half way remedies—no administering of harmless sedatives—no doubtful medication will meet the case. The application must be vigorous and immediate. The disease must be plucked out before it has tainted the entire system. The virus must be extracted, and the system purified. The springs of our national life. The skillful surgeon does not shrink from the infliction of pain when he has a delicate operation to perform. If blood flows it is because the office of the scalpel has become imperative. If he lays open veins and arteries—if he probes down to the bone—it is because the evil must be dislodged. If the roots of the disorder strike deep, he cuts with all the vigor of his art, that it may not sprout again. It is only the empiric who would attempt to cure a cancer with bread poultices, or eradicate a tumor by the application of a "soothing lotion." The cause of the disease is now fully known, and there will be no restoration of health, till it is rooted out of our republican system.—Chicago Tribune.

DO YOU TAKE WATERS?—The Cleveland Herald says: "On Saturday morning, a countryman entered a store on Ontario street for the purpose of trading. After ordering what he wanted, he inquired of the clerk, 'Do you take waters in pay?' 'Waters?' replied the astonished clerk. 'Yes, waters,' he said, 'I took 'em of a chap down here, and he said they are good.' 'Well,' said the clerk, 'we take all sorts of good currency, but we haven't yet got to taking waters.' 'But these are good ones,' said the countryman, 'red waters—got a head onto 'em.' The clerk suddenly got an idea as to the state of the case, asked to look at the new currency, found them to be good blue ones, and decided that he did 'take waters in pay.'"

NEW YORK, August 2.—A letter dated the 31st says, two suspicious rebel crafts, probably the Merrimack and Young America, east anchor yesterday noon, off Turkey Point, on the James river. A broad gauge gunboat was immediately sent to the vicinity, the Monitor making a reconnaissance, after which the gunboat fleet, including the Galena and Monitor and others, anchored in line of battle, off Light House Point. A balloon and gunboat reconnaissance above and near Fort Powhatan discovered no rebels or craft in the vicinity. A rebel steamer, which was discovered from the bank of the James river, opposite Berkeley's landing, to the Petersburg road.

SECESSION EDITOR FLOGGED.—Mr. J. J. Jacobs, the editor of the Ashland (Ohio) Union, was recently declared a rebel, and his office was in the presence of a Lieutenant, calling the volunteers "shirking Hessians" and Mr. Lincoln a greater traitor than Davis. Finally the Lieutenant remarked that he received over a hundred dollars for whipping such people, and proceeded at once to give Jacobs a severe chastisement.

The Nashua Iron Company have just finished for the Government a test plate fifteen feet long, forty inches wide, four and a half inches thick, and weighing ten thousand pounds. This plate is considered ball proof, and will put to rest some of the new projectiles which have recently been invented.

CAUTION.—My wife Catherine having left my bed and board, without just cause or provocation, and harboring or trusting her on my account, as I will not pay any debts contracted by her. EBELIAT KEOSTERUS, Covington pt., July 23, 1862, pd.

MILITARY NOTICE.—The Captains of the organized volunteer companies in Clearfield county are hereby ordered to make immediate returns to the Brigade Inspector of the number of members belonging to their respective companies, or if broke up return them as such. S. C. PATCHIN, Brigade Inspector. July 2, 1862.

ESTRAY.—Came to the premises of the subscriber in Decatur township, Clearfield county, some time in the month of October, 1861, one cow sheep since which time there has been an increase of one. The owner is requested to come forward, prove property, pay charges and take them away, or they will be disposed of as the law directs. R. D. SHOWALTER, July 23, 1862, pd.

STRAY COW.—My cow has been missing since the 11th of July last. It is supposed she went from Clearfield in the direction of the Blue Ball and it is reported that she was seen on the old turnpike a couple miles beyond Clearfield bridge about the 20th. She is fresh, of ordinary size, and in color a light red and white spotted. Any person returning her or giving me information of her will be suitably rewarded. J. B. MENALLY, July 23, 1862.

At the Lowest Cash Prices. We invite every person in need of clothing or any of the above mentioned articles, to favor us with a call and view our goods and prices, and we are confident that we can give satisfaction, so that every person shall feel inclined to tell his friends where good and cheap clothing can be got. We are constantly receiving accessions to our stock from our own manufacturing establishment in Philadelphia, and shall always be supplied with the latest styles in Fashionable Clothing, which shall surpass in style, cut, workmanship and cheapness those of any other similar establishment in this part of the State, and by fair and honest dealings, we hope to merit a liberal share of the patronage of our friends. WM. C. IRWIN, April 9, 62. REIZENSTEIN BROS' & CO.

AYER'S SARSAPARILLA.—Is a concentrated extract of Pasa Sarsaparilla, so combined with other substances, of great medicinal power as to afford an effective antidote for all diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Stramon complaints, and of that one which will accomplish their cure more speedily than any other. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints: Scrofula and Scrofula complaints, Eruptions and Eruptive diseases, Ucers, Pimples, Blisters, Tumors, Salt Rheum, Cerebral, Syphilis, and Syphilitic affections, Mercurial diseases, Dropsy, Neuralgia, Rheumatism, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from impurity of the blood. This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. It is a powerful purifier of the blood, and spares themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of impurities, if not assisted to do this through the natural channels of the body by an alternative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it whenever it is foul; and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health and live longer for cleansing the blood. Keep the blood healthy, and all is well; if diseased, the whole system is deranged, and there can be no lasting health. Sooner or later, something must go wrong, and the great machinery of life is disordered or overthrown. During late years, the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any sarsaparilla, but painful disappointments have followed the use of the various extracts of Sarsaparilla, which flood the market, until the name itself is justly despised and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, by large bottles, pretending to give a quart of the name from the load of obliquity which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. Prepared by Dr. J. C. AYER & CO., Lowell, Mass. Price \$1 per bottle, 6 bottles in one package \$5. B. D. Watson, Clearfield, Wm. Irwin, Curwensville, Arnold, Luthersburg, Elm, Chase, Ansonville, J. C. Bonner, Morrisdale, C. R. Foster, Phillipsburg, and Dealers everywhere. May 7, 1862.
