

Raftsmen's Journal.

CLEARFIELD, PA., OCTOBER 17, 1866.

What has been Decided.

The political contest that has just closed, was one of more than ordinary interest, owing to the great and important issues involved in the result. Those fundamental principles which underlie and are essential to Republican Government, were menaced in a manner never before witnessed in our history.

A Hoax on the President.

The Philadelphia Ledger, of Oct. 10th, contained a dispatch, in which it was represented that the President had sent to the Attorney General a communication, asking whether the present Congress, composed of members of the Northern States alone, was such a Congress as the Constitution requires, or whether it was an illegal and unconstitutional body; and whether he would be justified in sending his next annual message to an illegal and unconstitutional assemblage, pretending to be the Congress of the United States.

Table with 3 columns: District, Covode, Wier. Rows include Indiana, Westmoreland, Fayette, Total, and Covode's maj.

LUZERNE COUNTY.—An old man named Reilly was found dead at the railroad bridge near Petty's mill, in the vicinity of Wilkesbarre, on the evening of the 9th, inst. It is supposed he fell from the bridge and received injuries which caused his death.

Making Democratic Voters. The Harrisburg Telegraph, of Oct. 10th, gives the names of fifty-eight foreigners, who were naturalized by Judge Fisher of York county, some of whom the Telegraph says it has "the positive evidence to prove filed their first application in August last," and adds that it is informed this fact was brought to the attention of Judge Fisher, but that he treated the information with contempt.

Senator Cowan. "The outraged and betrayed people of Pennsylvania," says the Pittsburg Commercial, "have laid a heavy hand on this man. Scarcely is there a parallel to his case in our political history. Elected by a party that gave him their confidence, he made haste to betray them and their principles. Infatuated with the idea of his own consequence and clothed with the patronage of the Executive, he had the temerity to go before the people. The result is, he has been condemned as scarcely another ever was. In the State—in his District—at his home—by those on whom, if anybody, he should have relied, and not been disappointed, to sustain him—by every body but those who profited or hoped to profit by his treason, he has been scorned, cast off, condemned, before all the world. It will long stand as proof of the spirit and virtue of the people of Pennsylvania that they did this. It will stand as a perpetual warning to public men, and be an illustration of the great truth, that in fidelity to principle alone is there a future or honorable fame."

Wallace—the flower of Democracy—the "sweet William" of the Copperhead flora—has been wilted, if not killed outright, by the braising air of liberty and justice that has been sweeping, with purifying effect, through the land this fall. Of political hot-house growth, he was illy adapted for a place on the "outer wall" of the Copperhead citadel, and hence has been prostrated, perhaps never more to "raise his drooping head." Having made a signal failure as Chairman of the Democratic State Committee, his once fond admirers will now feel disposed to cast him aside with ineffable disdain. Poor Billy! We pity him, for he worked like a Trojan in the bad cause of a dying party, and we really think his friends should not ungratefully charge him with the fatal disaster into which they have been plunged by their joint folly and persistent opposition to right, justice and freedom.

The New Orleans Frauds. On our outside we give an account of certain frauds alleged to have been perpetrated upon the Government by a Mr. Loewenthal.

From Mr. L.'s own statement it would appear that he has been badly treated by the wholesale charges made against him by the press. Mr. Loewenthal took with him from Washington city during the latter part of August, checks to the amount of \$46,000. By inquiry at the Pay Department this statement is corroborated by the facts as they are known there, \$46,000 being all for which checks have been issued for the payment of negro bounties through him. The greater part of these checks were sent to Philadelphia and Fort Monro, where the claimants reside. The remainder Mr. L. took with him to New Orleans, under instructions from the department, and delivered therein, with the exception of \$5,000, or \$6,000, to the respective claimants, partly at his own office and partly at the office of the Freedmen's Bureau. Certificates to this effect can be produced. The \$5,000 or \$6,000 above mentioned he voluntarily turned over to the Provost Marshal of the Gulf, Capt. Wm. H. Sterling, U.S. Regular Army. Much of Mr. Loewenthal's statement is confirmed, and a grave doubt is thrown over all the charges against him by the fact of the many checks thrown around the payment of this class of claims by the Pay Department. In the first place every note is indorsed across its face with the words: "Payment of colored bounty, under act of July 26, 1866." A list of these checks is regularly sent to the Assistant Treasurer, at New York, and in no case can a check be paid to any but the real claimant, after identification before the officers of the bank or sub-treasury paying them, by two responsible witnesses. Consequently, those frauds charged upon Mr. Loewenthal are very improbable.

The Republicans have carried Nebraska.

PENNSYLVANIA ITEMS.

MERCER COUNTY.—The Greenville Argus says: A man named McNettie, a tailor in the employ of Nathan Block, was found in a dying condition, on Friday evening, in front of the clothing store of the latter named gentleman. About 10 o'clock, P. M., McNettie was sitting on the curbstone, near the store, when a cry was raised by some of the women who occupy the rooms above, that man was near the stairway drunk. Upon approaching him he was found to be in an insensible condition, and on being brought to the light, soon expired. It is believed that he had been complaining of heart disease through the day. William Buck, Esq., held an inquest upon the body and decided that deceased had come to his death from disease of the heart. McNettie was a Canadian by birth, and had been in the employ of Nathan Block about six weeks. The body of a man named John Partridge, from Northampton, England, was found drowned in Wolfcreek, a short distance below Vincent's Mill, on Oct. 7th. Among his papers were found drafts to a considerable amount, and a Land Office certificate for eighty acres of land in Iowa, also an Odd Fellows' certificate of membership, besides business letters and other documents. His age was about thirty-five.

JUNIATA COUNTY.—The Millintown Sentinel says: Mr. Joseph Kurtz, of East Salem, met with an accident on Tuesday, Oct. 2d, which resulted in death on the following Monday. He and a little daughter were out riding in a spring wagon, and while descending a hill the horse became frightened and ran off. The wagon struck a stump and Mr. Kurtz and his daughter were thrown out. The child was uninjured, but Mr. Kurtz had one of his legs broken in two places, and was otherwise badly injured. He lingered until Monday evening when he died. He was one of our most estimable citizens, and his death has cast a gloom over our entire community.

CAMBERG COUNTY.—Michael Hasson, a well-known politician of Elensburg, and a Member of the Legislature in 1847, died on the 9th Oct., aged about 70 years. On the 30th of October, Mr. John Walters, of Duncansville, went into his shop, as usual, to work, eating an apple. In one half hour afterwards he was discovered by his wife, dead. It would seem that he seated himself on his work bench to finish eating an apple, and died in that position. His age was about 55 years. The coroner held an inquest on the body, and found that he died of disease of the heart.

BLAIR COUNTY.—An old citizen of Sharpsburg, named Thomas Ritz, was found drowned Wednesday night, 10th inst., in Poplar Run, in six inches of water. The paper mills of Messrs. Eby, Morrison & Co., at Spang's Mill, were entirely destroyed by fire on Tuesday night, Oct. 9th. Loss estimated at \$50,000. The proprietors of this establishment appear to be unfortunate. Some three months since their engines blew up, and they were just getting rightly under way when the fire occurred.

FRANKLIN COUNTY.—A boy named Geo. Rhodes, of Clarksville (adjoining Chambersburg), died on Friday evening last, from the effects of eating acorns on the Sunday previous.

THE LATEST FASHIONS.—Since the invention and successful introduction of the Celebrated Duplex Elliptic (or double) Spring Hoop Skirt by Mr. J. W. Bradley of New York, the ladies throughout the country have given up the idea of discarding the fashion of wearing hoop skirts on account of the peculiar and graceful manner in which the Duplex Skirts adapt themselves to every exigency and emergency. So generally acceptable have these Skirts become that the ladies regard them as a special favorite in view of the superior flexibility, lightness and durability combined in their manufacture. They also consider them a far more economical and comfortable Hoop Skirt than ever has or can be made for all crowded assemblages, for the promenade or house dress. Any lady after wearing one of these Skirts will never afterwards willingly dispense with their use. Long experience in the manufacture of Hoop Skirts has proven to the proprietors of this invention, that single-springs will always retain that stiff, unyielding and bungling style which has ever characterized them, whereas the double spring hoop or the Duplex Elliptic, will be found free from these objections. Notwithstanding the ability of the manufacturers, Messrs. West's, Bradley & Cary, to turn out over six thousand Skirts per day from their large manufactories in New York, they feel obliged to request all merchants ordering the Duplex Elliptic Skirts, to send their orders a few days before they are wanted, if possible, as they are always most constantly oversold some days ahead.

"Negro Suffrage." The only issue made by the Democratic leaders was the right of negroes to vote, and the right of the President to rule as best pleased his pleasure, without regard to the wishes or judgments of those representing the other branch of the Government. Wallace, Chairman of the Copperhead State Central Committee, rung his appeals upon the single idea of negro. Every Copperhead organ in the Commonwealth teemed only with charges of miscegenation, negro equality, negroes on the judge's bench, negroes in the jury box, negroes everywhere, until the poor white dupes who echo the sophistries of the more cunning copperheads, actually believed that the African was about to thrust aside, in the race of progress, the entire race of Anglo-Saxons. Taking the copperhead argument before the election, accepting now as true what every copperhead swore would be the effect of Geary's election, we are bound to believe that "negro suffrage has been endorsed—that universal suffrage has been approved and upheld by the majesty of Pennsylvania's majority for John W. Geary. We give our copperhead friends joy on the result of an issue which they exclusively made, and having tested the temper of public feeling on the subject, we hope the Cops will now concur in the superior intelligence of the people of Pennsylvania.—Telegraph.

SCHENCK'S SEAWEED TONIC.

This medicine, invented by Dr. J. H. Schenck, of Philadelphia, is intended to dissolve the food and make it into chyme, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the tonic soon restores the appetite, and food that could not be eaten before will be easily digested. Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. One or two boxes of the Seaweed Tonic and three or four boxes of the Mandrake Pills will cure any ordinary case of dyspepsia. Dr. Schenck makes professional visits in New York, Boston, and at his principal office in Philadelphia every week. See daily papers of each place, or his pamphlet on consumption for his days of visitation. Please observe when purchasing, that the likeness of the doctor, one when in the last stage of consumption, and the other as he now is, in perfect health, are on the Government stamp. Sold by all druggists and dealers, price \$1.00 per bottle, or \$7.50 the half dozen. All letters for advice should be addressed to Dr. Schenck's principal office, No. 15 North Sixth St., Phila. Pa. General Wholesale Agents: Demas Barnes & Co., N. Y.; S. S. Hance, Baltimore, Md.; J. D. Parke, Cincinnati, Ohio; Walker & John, Chicago, Ill.; Collins Bros., St. Louis, Mo. October 17, 1866-17. [1]

LATEST FASHIONS DEMAND

J. W. Bradley's CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING) SKIRT. The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, opera, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress, an invaluable quality in crinolines, not found in any single spring skirt. A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic steel spring skirt for a single day, will never afterwards willingly dispense with it. For children, misses and young ladies, they are superior to all others. They will not bend or break like the single spring, but will preserve their perfect and graceful shape when three or four ordinary skirts will have been thrown aside as useless. The hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice, (or double) covered; preventing them from wearing out when dragging down steep stairs. The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the standard skirt of the fashionable world. To enjoy the following inestimable advantages in crinolines, viz: superior quality, perfect manufacture, stylish shape and finish, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article. CAUTION.—To guard against imposition, particular notice that skirts offered as "Duplex" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waist-band—none others are genuine. Also notice that every hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs twisted together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt. For sale in all stores where first class skirts are sold throughout the United States and elsewhere. Manufactured by the owners of the Patent. WEST'S, BRADLEY & CARY, 97 Chambers & 79 & 81 Rade St., N. Y. October 17th, 1866-2m. STRAY SHEEP.—Came to the premises of the subscriber, in Decatur, Ga., about the last of August, two ewes and one wether. The wether is requested to come forward, prove property, pay charges and take them away if they will be sold as red hinds. K. D. SHOWALTER, Oct. 3, 1866-pd
