German Reply to U. S. May Now Mean Break

Conditions Named in Answer to Submarine Question Cause Alarm

BERLIN, May 5—Germany's reply to the United States in substance sums up the entire controversy in the question: "Is the United States government willing to go to war with Germany over secret British admiralty orders issued to merchantmen—orders which are in direct contravention of international law?"

WASHINGTON, May 4.—Germany's reply to the demand of the United States for immediate abandonment of present methods of submarine warfare, delivered to Ambassador Gerard today, was awaited by officials of the Washington government tonight with expectant tension. They were without any definitive idea of what the communication contained. A brief message from Ambassador Gerard as well as press reports, however, had created the impression that the imperial government would propose conditions which the United States could not accept.

It was reiterated that President Wilson stood unalterably by the position declared in the note to Germany—that the abandonment of present submarine methods must be declared and effected immediately, or the United States must sever diplomatic relations. This demand was designed to permit of no argument, and high officials repeatedly have asserted that anything short of a literal compliance would be followed by a diplomatic rupture.

Man and Wife Are Charged with the Murder of a Miner

Following an inquest conducted by Coroner H. B. Buterbaugh last evening into the murder of Sam Rosso, who was fatally shot at Nowrytown, near Iselin, Tuesday evening, Mr. and Mrs. Frank Borgi were held to answer for the crime at the next term of criminal court.

The couple made a statement to Sheriff Harry A. Boggs, in which they declared that Rosso had been paying attentions to Mrs. Boigi and that the husband was jealous. They talked the matter over and decided that the surest way of ending the difficulty was to kill Rosso.

Following the shooting, the Borgis fled to Saltsburg on an early train. They were captured there and returned to Indiana Tuesday afternoon.

Rosso is a miner and formerly resided with the Borgis.

Mr. and Mrs. Borgi are said to have hired an automobile and gone to Iselin, where Rosso worked in the mines. They waited until he had returned from his work, as they knew that Rosso must pass that way to get to his home. Shortly before 6 o'clock he quit work and started to his boarding house. When he got within a short distance of Borgi and his wife both opened fire upon him simultaneously. Both Borgi and his wife, it is maintained, emptied their revolvers and four of the 10 shots fired took effect, two entering Rosso's breast, while two struck him in the back.

Throwing away their revolvers they ran through the town and out the road towards Saltsburg. A short distance from Iselin they overtook George Hart, of Saltsburg, who was driving in the direction they were proceeding. They asked him for a ride, and with him drove to a point a short distance from Iselin where they met Miller, who was returning from Narrytown. They got into his auto and drove to their home at Narrytown, secured their 2 children and drove to Blairsville, evidently with the intention of taking the 7 o'clock train out of that place for Pittsburgh. They missed that train, but boarded another shortly before 2 o'clock.

Sheriff Boggs, of this place had learned of the movements of the fugitives and he telephoned to the constable at Saltsburg, who boarded the train when it stopped at Saltsburg and placed the two under arrest. Sheriff Boggs went to Saltsburg Tuesday morning and returned about 4 o'clock with his prisoners.

The dead man was single.
