

Coming to Lehi, Am. Fork and Pl. Grove

The Harmon-Kendall Players

PRESENTING TWO RATTLING GOOD PLAYS

"SAGEBRUSH"

The above play is a beautiful western drama, involving a most intense love story. It is one of those kind of plays you will remember for the beautiful story and the good moral it teaches.

"THE WORLD AND A WOMAN"

The above play is a version of "The Thief," which is a modern drama in which a young wife steals to maintain the love of her husband. She finally is forced to confess her crime to him. A very gripping scene follows.

THESE ARE GUARANTEED ATTRACTIONS BY A COMPANY WITH AN ESTABLISHED REPUTATION.
AN EXTRAORDINARY THEATRICAL TREAT

Lehi---Mon. and Tues., Feb. 23-24 Am. Fork---Wed., Feb. 25. "Sagebrush"

Prices - - - 25c, 35c and 50c

Miss BLANCHE KENDALL,
The Leading Lady with the Harmon-Kendall Players.

Boys' Agricultural Clubs

From Lehi.

Mr. Frank H. Bothell, government expert in the Western Dairy Division, talked to a large gathering of boys and men in the Lehi Tabernacle on Tuesday evening on the value and importance of keeping records of the cows they are milking. It is estimated by experts that not half of the cows milked in the United States pay for their keep, and it is probable that in Utah the percentage of profitable cows is even lower. The only way to determine just what profit or loss a cow is yielding is to keep accurate records of the feed she consumes and of the milk and butter fat she produces.

Such records can be kept by any boy in the seventh or eighth grade and by some boys who are in lower grades. Mr. Bothell told of such work being done by boys in Colorado, in Oregon and in Davis county of our own state. He predicted that inside of three or four years the average yield of dairy cows in Davis county would be doubled on account of the culling and selection that farmers would be enabled to make as a result of the testing done and the records kept.

The work may be carried on in the form of a contest, under the direction of the school or other organization. Blanks will be furnished each boy who takes part, and he will be expected to weigh the feed given to each cow and to weigh the milk and test for butter fat, with the help of the person in charge. This weighing and testing need be done only once a month, but must be continued throughout the

year. This work seems to be commendable from every point of view. It will enable the farmers to cull out the unprofitable cows and to improve their herds by breeding only from the best ones. It will be of much educational value to the boy and will tend to interest him in farm work. It will form a connecting link between the home and school and will be to the advantage of student, teacher and parent.

A movement is on foot in Lehi to organize contests for the boys in various lines of agriculture, such as gardening, poultry raising, hog feeding and growing of field crops. There will be both junior and senior divisions and the work will probably be done under the direction of the Agricultural Club of the High School and the Y. M. M. I. A.

Parents are urged to encourage the boys to enter the contests. Those tak-

ing part will gain a great deal of useful information; they may be able to make a little pocket money; they have a chance to win prizes; they will be kept busy and out of mischief, and many of them will form such a love for the work that they will need no urging to stay on the farm.

LISTEN TO THIS, YOUNG MAN!

American Fork, Feb. 14, 1914. Mr. Editor: I wish to congratulate the young man from the First Ward who wrote "The Ideal Young Lady." There are so few young men who have such high ideals. Most of his sex does not look at a young lady's abilities or character. If she has a pretty face and can talk a little a young man takes the rest for granted. Therefore, I wish this certain young man to accept my congratulations.

Yours truly,
A YOUNG LADY FROM THE SECOND WARD.

COUNTY AFFAIRS

Provo, Feb. 17.—The Board of County Commissioners has fixed the following dates on which it will sit as a board of equalization:

June 2.—Lehi, Cedar Fort, Fairfield, Alpine, Highland and American Fork.

June 3.—Provo and Lincoln.

June 4.—Pleasant Grove, Springville and Mapleton.

June 5.—Spanish Fork, Benjamin, Lake Shore and Payson.

June 6.—Salem, Goshue, Santaquin, Spring Lake, Thistle, Clifton and Tucker.

June 22.—General.

At the meeting of the board, held yesterday, \$18,000 insurance on the county primary was placed with nine agencies in Provo, American Fork and Spanish Fork.

Commissioner Christensen was instructed to get a bad piece of road repaired near American Fork. The people living along the road had offered to put up half of the cost of the repairs if the county would stand the other half.

A letter was received from E. P. Palmer, county clerk of Salt Lake county, asking when the board would consider claims connected with the Lopez case. He stated that the Salt Lake county commissioners considered that Utah county should pay a portion of the expense incurred, as three of the murders were committed in Utah county. County Clerk A. V. Robinson was instructed to inform Mr. Palmer that the first Monday of each month is the day on which the board considers claims.

Utah county has already paid over \$500 in the Lopez case for automobiles, special deputies, provisions, etc., sent out from Sheriff East's office at the time of the hunt for Lopez.

WARNING TO WOOLMEN; DO NOT SELL TOO SOON

Secretary C. B. Stewart of the Utah Woolgrowers' Association received Saturday last the following letter, which will be of special interest to sheepmen in this region:

"Chicago, Feb. 11, 1914.

"C. B. Stewart, Salt Lake City, Utah.
"Dear Sir: I really feel that the Utah growers have made a mistake if there has been as much wool sold as is reported (about 10,000,000 pounds), as conditions are shaping up much more favorably, and if the wool is better grown and lighter conditioned, even on the same market the grower can reasonably expect more money.

"Take as an illustration a clip shrinking 68 per cent, marketed at 45 cents would indicate 154 cents in the grease. If, however, that clip shrinks 65 per cent and could be marketed at 50 cents, it would mean 17 cents, a full difference of 2 cents.

"If the American mills can not only shut out foreigners in goods, but can successfully invade foreign markets, it means more demand for American wool. During the next two or three months the manufacturers will be testing out this proposition, and while they are doing so, it would seem as if it would be a safe proposition for the growers to sit tight and be ready to take advantage of the better market,

if one should arise. In our opinion, nothing can be gained by selling now, and much may be sacrificed.
"Yours very truly,
(Signed) "R. B. THOMSON,
"Secretary."

AMERICAN FORK DRUGGIST HAS VALUABLE AGENCY

The American Fork Drug Co. has the American Fork agency for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka, the remedy which became famous by curing appendicitis. This simple remedy has powerful action and drains such surprising amounts of old matter from the body that JUST ONE DOSE relieves your stomach, gas on the stomach and constipation almost IMMEDIATELY. The QUICK action of Adler-i-ka is astonishing.

TOO MANY CATTLE FOR UTAH FOREST

The time for receiving applications for cattle, horses and sheep grazing on the Uinta Forest and the Nebo Addition to the Uinta Forest, for the season of 1914, has expired and it is found that 31,600 cattle and horses have been applied for. Only 27,600 cattle and horses are allowed to graze on the Uinta and the Nebo addition this year. Quite a number of the applicants are new men, and it will be necessary to go over each application and consider it on its merits before approving it in order that each applicant may be given fair consideration. One hundred and eighty-six thousand three hundred and seventy-six sheep will be allowed to graze on the Uinta Forest and Nebo Addition this year, but the number applied for has not yet been ascertained. It is thought, however, that very few new applications for sheep grazing will be made, as the range for sheep grazing is already fully occupied and the sheep grazing permits are pretty well established.

A dry, hacking cough is hard on the lungs, often causing them to bleed. BALLARD'S HOREHOUND SYRUP is a healing balm that quickly repairs damage in the lungs and air passages. Price 25c, 50c and \$1.00 per bottle. Sold by Wm. Thornton. (Adv.)

Grandma Never Let Her Hair get Gray

Kept Her Locks Dark, Thick, Glossy, With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it is done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair is stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.

THE WINDSOR HOTEL

225 South Main Street Salt Lake City. Clean, quiet, comfortable and most centrally located. Rates 75c to \$1.50

If you have anything to sell a little ad in the want column brings results. See page 2.

TWO-MINUTE TITLE TALKS

The Reasons for Abstracts of Title: The business of abstracting titles is of comparatively recent growth. The fast increasing values of land required that a purchaser know that the title was clear.

So many frauds have been discovered, so many titles proven worthless that no wise investor considers buying property without an abstract of title.

Protection is the idea. Protect your property by knowing your title is clear. Don't buy a lawsuit. Good titles make real estate as negotiable as stocks and bonds.

There is no way of knowing about your title except by the aid of an abstract. Start right and AVOID TROUBLE—SAVE EXPENSE—PREVENT DELAYS.
