## Election Will Be Called

### Meeting Instructs City on Election on Bonding for Power Plant.

Members of Pleasant Grove held a meeting in the Tabernacle last evening to discuss the question of the city building, operating an electric light plant for the purpose of supplying lights to the citizens of the city. After discussion, it was decided by a vote of 49 for and 12 against to instruct the Mayor and Council to call a bonding election and let the people vote on the same some time in June. J. L. Harvey and Richards of the city, the engineers employed by the city, say that with a plant 100 feet long, a drop of 1171.86 feet secured, and that the 1.2 horsepower in Grove Creek will then be 164 horsepower. With 1.8 horsepower the plant may be built to 246. A plant with the capacity can be built for about \$25,000 and they are willing to contribute both the plant and the system for \$25,000. The engineers say that there is a saving of one second foot of snow lost in seepage, which at \$8,000.

## What Shall We Do With Central Park

### Communications on both sides of the question. The articles may be signed by a nom de plume, but must also contain the name of the writer, which will not be published.

What shall we do with Central Park is the question that will soon be put up to the people, and which they must soon answer one way or the other. It was purchased several years ago to be used for public purposes, a few trees planted out, a base ball stand erected, and otherwise made into a base ball ground for general amusement purposes. \$1,000 on the purchase price and improvements has been spent, but there is yet due about \$1,500. The time has come when this money must be paid or the park be sold to some one for farming purposes. There are eight acres in it, with full water right, so it will easily sell for \$1,500. But can the people afford to be without such a place? Every go-ahead place has a suitable ball park and a place for general amusements, and sooner or later this community must have one. The directors held a meeting Wednesday night, and after a full discussion, decided to call a general mass meeting to convene Wednesday, May 26th, at 8 p. m., and put the question squarely up to the people. If some arrangement can be made to have the public take it over, the present owners are willing to donate the \$1,000 they have spent.

## Teachers List Completed

### All of This Year's Teachers, Expecting Six, Will Return, Thus Insuring a High Standard for Another Year.

The teaching corps for the Pleasant Grove school has been completed. Most of those who taught last year have been re-engaged. Following are the accepted: Elroy West, Jessie Lee, Belle Olpin and Leona West. Elroy West will spend a year in an eastern university. Some of the ladies will go away to school, and rumors make engagements for the others. Following is the High School list: James H. Walker Principal, L. A. Richardson, Samuel Baird, Alma Miller, H. E. Johnson, Alma Kirk, Miriam Thurman and Effie Warnick. Following will teach in the grades: George W. Larson, Robert Walker, Burton Smith, N. G. Rasmussen, Junius A. West, Mary Gleason, Bessie Newman, Mae Clark, Florence Harper, Viola West, Lorena Rankin, Lucille Harvey, Rena Cooper, Ruth Lindsay, Dezzie Shoell, Stella Fenton, Miss Baird, Bertha Martin, Amy Walker and Nina Vance.

## LOOKS GOOD FOR PLEASANT GROVE

Provo, May 13.—County Horticulturist Otto J. Poulsen and Wm. M. Roylance have compiled a report on the damage done by the recent frost to the fruit in Utah county. They estimate about 30 per cent of a crop of apples, 25 per cent pears, 15 to 20 per cent peaches and about 15 per cent in plums and prunes, a full crop of strawberries and a total failure in sweet cherries for Provo and Provo Bench. Pleasant Grove and vicinity, 75 per cent of apples, 75 per cent pears, 75 per cent peaches, 75 per cent prunes, 75 per cent sweet cherries and 40 per cent currants. For Springville and Mapleton about 40 to 50 per cent of peaches, 40 to 50 per cent apples, 30 to 40 per cent cherries. The fruit crop in Payson is practically a failure, probably 10 to 15 per cent of a crop. In Lehi the crop will range between 40 and 50 per cent, and in American Fork about the same.

## Fishing Party to Provo Canyon

Three auto loads of Pl. Grove people enjoyed an outing to Heisel's, in Provo canyon, Tuesday afternoon. They went to Provo River over the lower road, then to Provo and over the boulevard to the canyon. Fishing was indulged in in the river, or rather the river bed, for below the bridge the river is practically dry and the fish are huddled in small pools where they can be picked up by hands or caught without trouble with grab hooks, the later method being used by the fishing party. Supper was eaten at Heisel's. Those in the party were Messrs. and Mesdames L. W. Lund, S. L. Swenson, W. L. Hayes, J. P. Walker, A. K. Thornton, J. R. Halliday, J. D. Thorne and Misses Mae Ellsworth and Laverne Johnson.

## A Double Header Surveying Party

The U. S. Government sent out two surveying parties to survey government land in Southern Utah, last Monday, May 10th, in charge of David Thomas of Salt Lake City and J. Clarence Clark of Pleasant Grove. They expect to be out eight or ten months.

## Pleasant Grove Graduates Sixty-Three

### Many Eighth Grade Students Come to Pleasant Grove From Other Towns To Take Examination.

About one hundred Eighth Grade students from all the towns in this end of Utah county were in Pleasant Grove Tuesday taking the Eighth grade examinations. Practically all who took the examinations passed successfully. Those who had maintained an average of 85 per cent for the season were not required to take the tests.

Pleasant Grove furnished a large class. Those who will be given diplomas entitling them to entrance in the High School are:

Johnson, Katie M. Smith, Chas. M. Holman, Iva Huntington, Alvin Monson.

## Initiated Into Old Folks Club

Bishop E. D. Olpin was initiated into the "Old Folks' Club" Monday evening, when thirty of his friends gathered at his home and treated him to a genuine surprise party, the occasion being his 50th birthday. J. R. Halliday acted as master of ceremonies. The evening was spent playing games, dancing and serving refreshments.

Following were present; Messrs and Mesdames S. L. Swenson, W. L. Hayes, L. W. Lund, A. K. Thornton, Sant Walker, LeGrand White, G. E. Oscarson, J. R. Halliday, J. D. Thorne, Joseph Adams, Bert Olpin, D. M. Smith, Than West and Wm. Merritt and Mrs. Rose Hayes and Mrs. E. R. Halliday.

## An Explanation

Since the publication of our last issue we have had several calls over the telephone complaining that the article on "Chasing Rainbows" was an intended reflection on several of our leading citizens. It was certainly not intended as such, for those who were caught with the gib talk of the glass promoter are some of our very best and leading citizens. They not only are helping in every way with building up our public institutions, but themselves took stock in the local canning factory, and as we understand it are ready to come up with more money when it gets ready to run.

Our sole aim in using the suits as news items was to preach a lesson generally, to build up our home institutions and warn others against being taken in by strangers. Some of the leading merchants of Lehi were taken in by the same scheme last year, and almost every one would not question a proposition endorsed by a letter from Bishop O. P. Miller, and it is only that even a man like Bishop Miller may get caught some times. We certainly think that the Pleasant Grove citizens who purchased the stock are doing the general public a service by commencing suit for an accounting by the glass promoters.

## PLEASANT GROVE MAN FOR SUPERVISOR OF MUSIC

Rumor has it that Mr. A. R. Overide of this city will be the supervisor of music for the new consolidated Alpine School District, in recognition of the efficient work he has been doing in this district for the past three years.

## NOTICE

There will be a meeting of all telephone users, present and prospective, in the City Hall at eight o'clock this evening, to discuss the proposed independent telephone system. Speakers from American Fork and Lehi will be present.

## GERMANS WIN VICTORY

A crowd of boys about 8 or 10 years of age were playing war last Monday. One side represented the Germans and one side the English. The English were using an old barn as a fort and Glade, the 8-year-old son of Mr. and Mrs. E. T. Culmer, while reaching for his gun fell off the barn and broke his arm. He is now carrying it in a cast.

## COMMUNICATED

Editor Review:—

Sir—Recently there appeared in the Review an article termed "Chasing Rainbows." Right here in Lindon, through lack of a little capital, work has stopped on a proposition that bids fair to give Lindon one of the best water systems obtainable anywhere. The Culmer tunnel is now in twenty-six hundred feet and a stream of water large enough to half fill a four inch pipe has been secured. That a larger stream can be had with a little more work is quite certain. Means to continue the work, however, are lacking, and it is hoped that some of those interested in the Lindon water works will interest themselves in the work. The water is the purest obtainable, being entirely free from contamination, and by means of a small underground reservoir the present stream would easily supply a dozen families with culinary water. LINDONITE.

## PROGRAM FOR HOME ECONOMICS

The Home Economics Class will meet next Monday in the Eight grade school room. All ladies interested in home economics work are invited to attend. The program follows: The Carbohydrate Foods, Continued—Mrs. Cleone Kirk. Vocal Solo—Katie Lamb. The Fly and Making of Traps—L. A. Richardson. Piano Solo—Vera Thorne. Canning Asparagus—Mrs. Clara Bullock.

## FIRE AT CLARKS

A fire in Joseph Clark's home Tuesday came near being a bad one. As it was, six suits of clothes belonging to the children of Mrs. Grace Nicholes were burned up, and some damage was done to the furniture. There is a fire place with a wooden screen in the room where the fire took place. It appears that the soot in the chimney caught fire from a stove pipe, and some of the soot dropped down into the fire place. When it was discovered, there was a good blaze, but a few buckets of water soon extinguished it.
