

LEHI LOCALS AND PERSONALS

Messrs. William Goates and Virgil Groo spent Monday in Payson. Mrs. LeRoy Lott entertained at a house party Thursday evening. Mr. and Mrs. Samuel K. Jackson spent the early part of the week with friends in Salt Lake. Ike Bone came up this week from the Powell ranch, in Juab, with a sleigh load of hogs, which were sold to Lehi people. The home of Mr. and Mrs. John Makin was made happy Monday by the arrival of a new baby girl. Orson Hocking of Cedar Fort was a Lehi visitor Tuesday. See A. Bradder, Lehi for your cemetery and monument work. Dan Matthews and family have moved to Washington County, where Mr. Matthews will purchase a home. Dennis Giles, who is learning the auto repair trade in Salt Lake, spent Sunday with his folks. Mrs. Annie Blackham of Moroni has been spending the week in Lehi visiting her daughter, Mrs. N. P. Sorenson. Mrs. Blackham accompanied her mother to Salt Lake Saturday. We not only give you quality, but we lead in low prices and in assortment. Chipman's Big Red Store. Harold Olmstead, J. S. Taylor, Roy Varney, Ruel Evans and Chester Thomas formed a hunting party that spent Wednesday and Thursday in Cedar Valley. G. A. Goates of Ogden stopped off in Lehi Tuesday to see his Lehi relatives. He was on his way to attend the state convention of juvenile court officers in Provo. Mr. and Mrs. John Woods Sr. went to Salt Lake Tuesday and returned with their son, John Jr., who is just recovering from an operation for appendicitis, performed three weeks ago. City Attorney A. J. Evans attended the sessions of the State Municipal League meeting in Provo. James Kirkham Sr. was ill several days early in the week. Owing to our issuing 5000 copies of this paper, some of the pages are printed earlier and the late Lehi news will be found on the second page. We offer you 50 Ladies' Overshirts, worth \$4.50 to \$10.00, for the small sum of \$2.00 each. They are a little narrow, but splendid for girls. Chipman's. Mrs. Mary Mandley, who has been with the Z. C. M. I. in Salt Lake City for the past six months, has accepted a position in the dry goods department of the Chipman Mercantile Company in American Fork. The local high school opera company played "Bulbul" to a crowded house in Alpine Wednesday night. The Alpine people were delighted. The trip was made in six pairs of bob sleds. Mrs. B. C. Earl, Mrs. C. W. Earl, Mrs. Olive Lott and Mrs. Andrew Field spent Thursday in Salt Lake and visited C. W. Earl in the L. D. S. Hospital. Mr. Earl is recovering nicely from his operation. A. J. Evans, George G. Robinson, Michael Brown and Bishop Henry Lewis were Orem passengers to Salt Lake Thursday. The following card was received Thursday, which may be of interest to Dr. Holbrook's many friends: Seattle, Jan. 17, 1912.—Dear Ross: The trip is fine. We are all well and enjoying it all as we go. We sail from Vancouver. B. C., January 19, send my "Banner," including the issue, to Dr. H. C. Holbrook, Upper Queens street, Auckland, New Zealand. Winter, it seems, has only begun. Why not buy those Rubbers, Overshoes, Underwear, Overcoats, Ladies' Coats, Sweaters and Blankets that are being sold so cheaply by the Chipman Merc. Co.?

WILL INCREASE ITS LEHI PICKLE PLANT

Andrew Jacobs went to Springville Monday to superintend the taking down of the pickling station. The Goddard Pickle Company, which owns the pickling plants at Lehi and Springville, will abandon the one at Springville and increase its acreage in Lehi.

BURGLARS ENTER HERTELL STORE

Some unknown party entered Hertell's store on the corner of First East and Sixth North streets Friday night and took some cigars, candy and gum. Entrance was effected by breaking out a panel of the door and turning the lock.

FARMERS HAPPY.

The local farmers are happy over the big snowfall that has covered Mother Earth a foot deep in the crevices and from eight to ten feet deep in the canyons, with several times this depth in the canyon gulches. It insures an abundance of water for irrigation and will be an incentive for farmers to increase their sugar beet acreage and plant more tomatoes.

LEHI TINTIC PROSPECTING JIMMY CRYSTAL FISSURE

George Nicholas came in Monday from the Lehi Tintic mine, where he has five men doing development work. He is pushing work in extending the regular Gold Blossom tunnel, working in the Empire drift and also cross-cutting to cut what is known as the Jimmy Crystal fissure. The most promising showing is in the latter workings, where the indications are that they are nearing the ore body, which will be cut at a depth of 400 feet. The Jimmy Crystal fissure on its surface shows good values in lead and silver, and is about twenty feet wide. Mr. Nicholas says that more activity is now being manifested in North Tintic than in years. The Humboldt people are getting ore in their shaft the Selma mine is working a good face, the Tintic Delmar is working, and the Chief Consolidated is preparing to do some extensive development on their ground just south of the Selma.

THE VITAL PROBLEM OF AGRICULTURE

By Peter Radford. There is no escaping the market problem and the highest development of agriculture will not be attained until it is solved, for a market is as necessary for the producer as land on which to grow his crop. Governmental and educational institutions have spent \$180,000,000 in the United States during the past ten years for improving soil production and improving seeds and plants, but very little attention and less money has been given to the marketing side of agriculture. The problem is a monumental one and one which will never be solved until it gets within the grasp of a gigantic organization where master minds can concentrate the combined experience and wisdom of the age upon it. It is a problem which the farmers, merchants, bankers, editors and statesmen must unite in solving. The Farmers' Union stands for all there is in farming from the most scientific methods of seed selection to the most systematic and profitable plans of marketing, but does not believe in promoting one to the neglect of the other. We consider the work of farm demonstrators valuable and we ask that governmental and commercial agencies seeking to help us, continue to give us their assistance and advice, but we believe that their influence should be extended to the marketing side of our farm problems also. We cannot hope to develop manufacturing by over-production of the factory; we cannot build up mercantile enterprises by the merchants loading their shelves with surplus goods and no more can we develop agriculture by glutting the market with a surplus of products.

DARIUS

The neigh of a horse made Darius King of Persia, the six contending powers for the throne agreeing among themselves that the one whose horse should neigh first should possess the kingdom. This ancient method of settling disputes among politicians could be revived with profit today. If our partisan factions and petty politicians could only settle their disputes by the neigh of a horse, the bark of a dog or the bray of a donkey, it would be a great blessing and would give our citizens a better opportunity to pursue the vocations of industry free from political strife. Let those who pick political plums by raising rows and who flash swords dripping in the blood of industry understand that they cannot turn the public forum into a political arena and by a clash of personal aspirations still the hammer and stop the plow and that their quarrels must be settled in the back streets of civilization.

Dog Knows Bad From Good Coin.

San Gregorio, Cal., has a dog, says the San Francisco Chronicle, which, with the exactness of a banker, can detect the difference between the ring of a genuine and counterfeit coin. A few weeks ago some hunters threw some coins on the counter of John Marshall's hotel. Marshall did not quite like the sound of one of the dollars. Calling in his dog, he placed him on the counter. The dog carefully picked up with his mouth four genuine coins and took them to his master, and left a counterfeit dollar on the counter. Hearing that his dog's ability was questioned, Marshall put the animal to a series of difficult tests recently in the presence of several constable citizens. Not in a single instance did the wonderful dog fail to detect a counterfeit coin. The final test was to nail a genuine and counterfeit dollar in separate cigar boxes. After shaking each box furiously, the dog chewed open the box containing the genuine coin and took it to his master.

NEEDED INVENTIONS.

- An auto that will run without fuel.
A furnace fire that will not make any ashes.
A woman's hat that will never go out of style.
A pair of shoes that will not run over at the heel.
A calendar that will not tell a woman how old she is getting.
A dollar's worth of street car tickets that will last a month.

OTHER PEOPLE ARE SAVING

The number of savings accounts with this Bank is an evidence that the people are saving money. How is it with you—are you saving a part of your income? You can do as well as others, and then you will have money in the bank for any emergency that may come. Adopt a plan for saving a definite amount each month or every week. It is in this way that money is accumulated.
