

American Fork Citizen

AMERICAN FORK CITIZEN, SATURDAY, AUGUST 12, 1916.

NUMBER 17

AR OF PACIFIC ORE BRINGS \$4,211.76

Returns were received this week from the eighth car of ore shipped to the smelters from the Pacific mine. The present leasers have been using the present lease for 123 1-2 tons of silver per ton, 3.79 per cent copper and .047 ounces gold, making the whole lot average \$87.77 per ton. The car of this class at the smelter shipped this week and another car ready to ship. This last car netted the company in royalties \$840.63. At this rate the company will soon be in a position to declare a comfortable dividend to the stockholders. Supt. Ferlin is now breaking down a car of lead ore that will run about \$50 per ton, and of which class it is said the mine has a big supply.

CANYON WILL SOON GET GEOLOGICAL SURVEY

Government Engineers Now at Work Gathering Material For American Fork-Altta Report.

B. S. Butler and a core of Government geological engineers are now at work in Cottonwood canyon obtaining information and material from which to make an exhaustive and detailed report of the American Fork-Altta mining districts. Soon as they have completed the work on the Alta side of the divide they will come into American Fork Canyon and spend several months here.

They are now at work in Silver Fork and it is reported that they have determined the fact that the east side of Silver Fork fault is 200 feet higher than the west which is of value to the mining fraternity in that section of the camp. They found the Alta tunnel block of ground "very compact."

American Fork canyon has probably the most extensive system of fissures and mineralization of any camp in the state. There are a lot of prominent faults, all of which will make the report, when complete, a most interesting and valuable document.

AUTO CAME NEAR GOING OVER CLIFF

Kyes and Salisbury Jump as Auto Is Held Suspended 400 Feet at Top of Steep Precipice.

Kent Kyes and a Mr. Salisbury of Salt Lake, going up to the Belorophon mine, came near losing their lives in the canyon last Friday. They were going up the canyon in a big 7-passenger automobile and as they rounded a point on the Z hill just below the Hinds cabin, the steering gear refused to work and the machine shot off over the embankment with the bed of the creek about 400 feet below. The driver shut off the power and the two men jumped. Luckily the rear axle caught on a big rock and held it suspended from going over.

Fifteen men from the Dutchman camp, with heavy ropes and block and tackle, got the car back on the road. Mr. Kyes says that he never before came so near eternity and never wants to be so near again.

ATLANTIC MINING CO. SUCCESSFULLY LAUNCHED

New Company Strikes Ore Resembling That Taken From Pittsburg.

The articles of incorporation of the Atlantic Mining Company were gotten out this week by County Attorney Parker. Joseph Johnson and John L. McKinney are the principal owners of the Horseshoe group which forms the basis for the corporation. The Atlantic property lies directly north of the Pacific mine and adjoins it and the Copper Glance.

Mr. Johnson has a force of men working on the property and this week struck a small seam of silver ore resembling the rock from the Pittsburg. It is widening out as work progresses on the tunnel now being driven toward the lime shale contact.

LEHI-TINTIC SOON TO HAVE ELECTRIC POWER.

George Nicholes, Supt. of the Lehi-Tintic came in from this property this week and reports that everything is now ready to start the big power drills soon as the power company con-

nects up the electric power which will operate the machines. When this is done next week, then vigorous prospecting from both the Empire and Gold Blossom tunnels will be pushed vigorously and Mr. Nicholes hopes soon to have the Lehi-Tintic one of the big mines of the state.

CANYON NEWS

The body or 107-ounce silver ore in the left hand drift of the Dutchman tunnel is reported as opening up most satisfactorily with indications of becoming a regular bonanza. Additional men were put to work on the Dutchman this week, and the property is being looked on as the next big mine in the camp. Supt. Ferlin hopes to have it in the producing list by the time he has the mill ready to receive ore next month.

The old Austin Patent at the head of Major Evans Gulch, and recently acquired by C. W. Earl and associates from the Tearline owners, reports a strike of ore, assaying several hundred ounces in silver per ton, which is creating considerable interest in this section. It is in the old tunnel where the miners last week struck the ore. They will raise on it in an endeavor to learn its extent.

The Austin Patent lies between the Earl-Eagle and the Globe, because of this and its having produced some of the most sensational float in the canyon it is referred to as the "Soux Con" of the canyon.

A cloud burst last week in the canyon above the Bay State tore out its water line for a short distance, filled up gulches 10 feet deep with boulders weighing several tons and sent big logs down the stream as if they were tooth picks. Further down near Van's Dugway it caused a mud slide that made it impassable for several hours. The Canyon had many rocks washed into the road, but they have now all been taken out and the road is once more in good condition.

Miners from the Flora camp were exhibiting some of the finest looking rock shown in a long time. It is liberally filled with silver bromides taken from a six inch streak in the vein near the surface.

The Red Cloud miners have been working for the past month getting the property in shape to do active development work. Next week they will have the Mineral Flat power plant in shape to operate the machine drills to be used in driving the deep tunnel into the fissure.

DISTRICT COURT

Fissures Exploration Co. Files Suit Against Miller and Others.

Fissures Exploration company has filed suit in the Fourth district court against Peter Miller, Bert Durrant, J. L. Craig, H. C. Johnson, May Miller and Copper Glance Mining company. The complaint alleges that defendants, Peter Miller and Bert Durrant, while employed by the plaintiff, and while Peter Miller was a director in the Fissures Exploration company, located the Copper Glance Nos. 1 to 7, and Copper Glance Fraction Nos. 1 and 2 in American Fork canyon and organized the Copper Glance Mining company with intent to defraud plaintiff. A decree awarding to plaintiff the mining claims in question and all the stock of the Copper Glance Mining company is asked for.

Mr. H. C. Johnson, Secretary of the Copper Glance Mining Co. states that he believes the claims were located legally and fairly and that the owners will certainly resist the efforts of anyone to acquire any rights in them.

H. M. Rhebol and R. E. Hunter have filed suit in the Fourth district court against Albert Laycock to collect \$200 damages for the killing and injuring of sheep belonging to plaintiff by a vicious dog owned by defendant at American Fork, June 22, 1916.

OFFICIAL SCHOOL CENSUS

Secretary Kartchner of the Alpine School District reports the following official school census for American Fork:

Boys moved away 79; Girls moved away 86.

Over eighteen years of age dropped from roll of 1915, boys 31; girls 29.

Death, boys 2; girls 3.

Total dropped from 1915 census, boys 112; girls 118, total 230.

Total entered first time, 105.

SONS AND DAUGHTERS OF VETS. ORGANIZE

Will Perpetuate Memory of Ancestors Who Participated in Black Hawk War.

The Sons and Daughters of the Indian War Veterans perfected an organization at the Black Hawk encampment Wednesday. Following are the officers:

Commander—J. H. McDonald, Provo; 1st. vice Commander—Irving L. Pratt, American Fork; 2nd vice Commander—Clara Jones; quartermaster—Miss Annie Nebeker, Payson; adjutant—Nora Wilkins, Provo; Chaplain—Wm. H. Gardner, Salem; Choirster—Mrs. Ruth Farrer, Provo; Assistant Choirster—Mrs. Mamie Gray, Provo.

Council of Administration—Miss May Lott, Lehi; Mrs. Joseph H. Storrs, American Fork; D. B. Thorne, Pleasant Grove; Mrs. Nellie Beesley, Provo; Mrs. Ella Reynolds, Springville; Chance Thomas, Spanish Fork; Kinlan Curtis, Salem; David Mendenhall, Mapleton, Joseph Bates, Payson; Willard Smith, Stantaquin; Miss Edith Price, Goshen and Reed Moore Springville.

Mrs. Wolstenholm of Salt Lake was present and perfected the organization. It is the intention to have the organization meet at the annual camp fire reunions of the Indian War Veterans.

HAIL STORM DOES DAMAGE

The heaviest hail storm that ever visited American Fork was the one that swept the valley about 6:10 Monday evening. It came from the southwest and cut a swath from two to three miles in width. A few minutes before the hail began to fall what appeared in the distance to be a big dust cloud was seen and a roaring, rumbling sound like a tornado was heard. The roar on the lake was like the sound of the ocean, almost deafening.

Grown crops were considerably damaged, such as wheat, beets, etc., and especially grain which was ripe. Considerable fruit was knocked from the trees and windows broken in various parts of town. A few people struck by the heavy hails had black and blue marks left. Horses and cattle unsheltered were wild with fright. Some of the hails by actual measurement were three inches in circumference and an inch and a half in diameter.

The storm did not touch Pleasant Grove but went towards Alpine. Old timers say that never before have they witnessed such a hail storm here.

DEMOCRATS CHOOSE DELEGATES

Monday night there was a large attendance of the Democratic primary in the court house to choose delegates to the various conventions.

A resolution was adopted pledging the delegates to vote only for candidates who favor for the enacting of a state-wide prohibition law.

The following delegates were selected to the State Convention which meets in Ogden, August 18.

Alma Greenwood, Joseph H. Storrs, Adolph Nielson, E. A. Morgan, James H. Clarke, William Barratt, Miss Ida Chipman and Miss Josie Greenwood. Alternates—H. S. Rasmussen, Hyrum M. Blackburn, Mrs. Hyrum M. Blackburn, Fred Trane, E. W. Paxman, J. B. Storrs, B. N. Christensen and R. W. Vance.

Delegates to the Fourth Judicial convention to be held at Provo August 17: Vern Walker, E. A. Morgan, W. E. Robinson, Earl Greenwood, Meliss Greenwood, Rachael Hunter, Elizabeth Durrant and J. W. Storrs. Alternates—James Spratley, Mrs. Thomas Binns, J. H. Storrs, William Barratt, William Grant, Adolph Nielson and E. E. McBride.

The delegates to the Congressional convention are the same as those to the state convention.

CHIPMAN BUILDS ANOTHER SILO.

W. H. Chipman is building another silo on his farm east of town. He erected one two years ago and is so well pleased with it that he has decided to build another and double his silage capacity. He finds silage a most valuable feed for both milk cows and for fattening purposes. The Chipman Mercantile Co. has the contract for the new one.

SERVICE!

E R V I C E

Service is the Greatest

Good in the world

If you want good service,
If you like quick service,
If you need special service,
call on us or phone at once
and your wants will have our
prompt and best attention

WE DO NOT CONSIDER A
SALE COMPLETE UNLESS
OUR PATRONS ARE ENTIRELY SATISFIED.

If our Employees, either through carelessness or neglect, should ever mistreat you, do not get offended, but report to the management at once, and all wrongs as far as possible will be made right.

It is our request to the Clerks, Yea, it is our ambition to give just a little more IN SERVICE than the customer EXPECTS.

The Big Red Store will not be Undersold, Quality Considered, for

MANY TRANSCONTINENTAL AUTOS

It is interesting to note the hundreds of automobiles that pass along Main Street and through town daily. A large percentage of them have streamers bearing the names of almost every state in the Union, and many have quilts, tents and camping utensils.

Sundays are particularly busy days. Last Sunday it is estimated that nearly 1,000 cars passed through town coming largely from Salt Lake and Ogden. At one time in the early evening they formed almost a continuous procession with but a few rods between them.

ARE YOU REGISTERED?

If you did not vote at the county election two years ago, you must register before you can vote this year. There will be eight days on which you may register, August 14, 15 and 26, October 10, 11, 17 and 31 and on November 1st.

The four districts practically conform to the ecclesiastical wards. The registration agents are: District No. 1, Mrs. Joseph Walton; district No. 2, Mrs. F. M. Houston; district No. 3, Mrs. Ada Wilcox and district No. 4, Mrs. Grace Barratt.

PROFESSOR AT UTAH AGRICULTURAL COLLEGE.

Mark H. Green, an American Fork boy has just reached Logan from the University of Wisconsin, Madison, Wisconsin, to take up the duties of an assistant professorship in Farm Management, at the Utah Agricultural College.

Mr. Green, graduated from the Utah College of Agriculture in 1913 after graduation he spent two years in the graduate school of the University of Wisconsin where he received his M. A. degree.

At Wisconsin he specialized in the marketing of farm products. While there he contributed a chapter on the Relation of Landlord to Tenant to Professors Commons and Andrew's text, "The Principles of Labor Legislation," and contributed three chapters on Land Grants for Educational Purposes to Professor B. H. Hibbard's book, "Federal Land Policies." In addition he contributed a chapter on the marketing of peaches to a government atlas treating on the Distribution of Agricultural Products. During 1915-

16 Mr. Green was an assistant in the Department of Agricultural Economics at Wisconsin.

WILL HOLD REUNION.

There was a meeting held Sunday, August 6th, for the purpose of having a Greenwood reunion. Alma Greenwood was chosen chairman and Myra Gardner secretary. It was decided to have a reunion Friday, August 25th, at the Utah Lake Resort. The follow-

ing committees were chosen: Invitation: Reed Gardner, W. M. Barratt and Abram Greenwood; program and sports: Ernest Paxman, Reno Vance, Rachael Hunter, Grace Barratt, Ivy Steele and Myra Gardner; finance: Earl S. Greenwood, Lou Binns, Jacob Greenwood and Josie Greenwood; refreshments: Josie Greenwood, Mae Greenwood, Mrs. Abram Greenwood, Edna Parker, Joe Walton, Roy Steele and Lottie Greenwood.

Build a Barn to Fit Your Needs

The needs of one farm may not suit another. You have certain conditions to meet that are not found on any other place. The size and arrangement of your barn should be determined by your requirements.

Your aim is to build a barn that will comfortably house the live stock, hold the feed, machinery, etc., with economy. It is easy to put too much money into any building. The barn is no exception.

Our experience in selling materials for building barns and in helping farmers in many ways should be worth money to you. This is merely a part of our helpful, serviceable way of doing business. Why not come in and discuss your barn plans with us? You need not buy here—unless you feel it is to your advantage. Let us talk it over, anyway.
