

## FASHION SHOW GREAT SUCCESS

The Fashion Show and Dollar Day yesterday was a novel undertaking for a city of our size, but the people responded to the idea and made it a success, all that the promoters could desire. In the forenoon business was only normal, but in the afternoon the capacity of the clerks in the stores selling fall goods, was pushed to their utmost. All of the managers when approached for an expression, said that they were delighted with the results. Nor did the sales stop at the usual closing hours for many in the evening and made purchases after seeing the living models. The parade in the evening was the feature of the whole day and drew an immense crowd of people, a good part of whom came from the out side. The contrasts between the old and new styles was most effective advertising and the fall styles exhibited in beautiful living models afforded a most excellent opportunity for the ladies to decide which styles to choose. The merchants will feel the beneficial effects during the entire season.

The kiddies crowded the Bronx in the forenoon, and the older people filled the house at night, and the well attended Band Dance in the Apollo was deserving recognition of the popular music furnished by the band in a free concert and parade.

### NOTES

Eunice Penrod drew the Prize at Chipman's on the Penny Guess. There were 681 pennies and her guess was the nearest to it.

The prizes at the Co-op were won as follows: Mrs. L. J. Hutchings, one ton of coal, her guess was 23,600 and there were 23,250 kernal of coffee in the jar; James Brown came second receiving 500 lbs of coal and Mae Hutchings third, receiving 500 lbs of coal.

### Thanks to All.

The committee of the fashion show and Dollar Day wishes to express their appreciation at the splendid turnout of the people; to the committees who worked so faithfully, to the band and for the pleasing music, to the "Citizen" for the publicity they gave us; to the Utah Power & Light Company for the brilliant display, to the ladies and gentlemen who acted as living models and to the donors for the means that helped make the affair such a splendid success. Where everybody does his or her part you can not help but succeed.

Respectfully,  
GENERAL COMMITTEE.

## LOCAL SHEEPMEN BUY VALUABLE RAMS

The biggest sale of rams that ever took place in Utah was in Salt Lake Friday and Saturday. Many sheepmen from this city attended. Nearly three thousand head changed hands. Many sold up into the hundreds and one was purchased by John H. Seely of Mt. Pleasant for \$1,000.

Sheepmen from this place purchased sixty-two head at a cost of over \$2,000. Messrs. A. B. Adams and Thos. Singleton purchased 54 head of Ramboldets at \$50 each. They were yearlings last spring. The lot averaged 14 1/2 pounds each in weight. They are especially profitable for producing spring lambs for the early market.

The Carson Bros. purchased eight head of Shropshire at prices ranging as high as \$102.50 each. Their eight head averaged 164 pounds each. They are especially valuable as wool producers, being heavily fleeced down to the hoofs.

## WESTERN SPRING LAMBS BRING GOOD MONEY

James and William Smith of Alpine, shipped 1,100 spring lambs to the Missouri River markets Monday. They were loaded on the D. & R. G. cars at the American Fork station. The lambs weighed in at about 65 pounds each brought \$7.50 per hundred pounds F. O. B. this city, which would make them worth \$4.87 1/2 each. These lambs were contracted for by the beginning of the year.

The same day in Kansas Morgan of Heber sold six tons of spring lambs that averaged each, 12 per cent of which were

as choice stuff at \$10.50 per hundred pounds. This would bring the lambs at \$7.45 each, said to be the highest price ever paid for western lambs.

## COPPER GLANCE TUNNEL PROGRESSING

Peter Miller came down from the Copper Glance yesterday and reports work on this property progressing most satisfactory. The tunnel is now in 225 feet and progressing at the rate of about 4 feet per day. The rock is becoming very hard, similar to that which was encountered before the ore was struck in the Pacific. However, he does not expect to get the ore for another hundred feet, when he counts on cutting a fissure, which on the surface, shows well in copper and silver. There are also several other well mineralized fissures ahead, which his tunnel will cut. Mr. Miller is not worried over the suit brought by the Fissures Exploration Co. for an interest in the Copper Glance ground.

## MINERAL FLAT POWER PLANT

It Will Soon be Repaired and Ready to Supply Air For Eudora Bell and Mineral Flat Development Purposes.

Supt. J. C. Jensen of the Mineral Flat mine was in town this week and reported good progress being made in repairing the Mineral Flat power house near the head of the main canyon. It has been several years since the power plant has been used but the main part of the machinery is in as good condition as ever. Last year a snow slide took out a section of the pipe line about 1.4 mile above the plant.

The Red Cloud Co. who own the Eudora Bell group of claims has contracted with the Mineral Flat people for sufficient air to operate two drills, and will commence work just as soon as the plant is in operation.

The Mineral Flat people themselves will also use power for two drills in extending their deep tunnel 600 feet further into the hill. The plant has a capacity for six drills. Mr. Jensen is completing arrangements and getting in a stock of supplies at the Mineral Flat for an active campaign.

## BAY STATE CROSS-CUTS FOR ORE

The Bay State deep tunnel is now in about 320 feet and is in the brown ore bearing lime mixed with carbonates. The men have started a drift which in 23 feet will be directly under the ore winze where some good ore was encountered on the level above. The ground is good working and the men should reach the objective point within ten more days. About 80 sacks of good shipping ore was taken out from the upper tunnel where the ore was left going down. The management look for a better grade of ore and larger bodies on the lower level.

## GOLD HILL MINE STARTS NEW TUNNEL

Theodore Nicholes was in town yesterday from the Gold Hill property in Silver Lake district. He reports tunnel number two nearing the quartzite lime contact. It is now in about 60 feet and has been in porphyry much of the way. When he commenced his ore showed but about 2 per cent copper but it has now increased to 17 per cent with good values in silver.

In running the 60 feet several promising veins have been cut all going down strongly. To prospect these at depths he has now started three shafts on a deep tunnel which will crosscut the formation and reach the contact with a distance of about 300 feet at a depth about 100 feet greater than the present workings.

## BIG LUMBER ORDER FOR PACIFIC MILL

The Bonneville Lumber Co. this week received an order for 40,000 feet of lumber from the Fissures Leasing Co. for use in erecting the Pacific Mill now building on Dutchman Flat, and which is intended to work the ore from the Pacific and Dutchman mines. Teams are now busy hauling the ore up the canyon.

## DEMOCRATIC PRIMARY

The Democratic Primary was held in the City Hall Tuesday evening. The first business transacted was a very thorough and complete organization of each of the four wards of the city, with the chairman of each ward, a secretary, treasurer and a committeemen of three members. The Woodrow Wilson Club was also more thoroughly organized and preparations made to make a complete canvass of all the voters of American Fork.

The following delegates and alternates were elected to the County Convention which is being held at Spanish Fork as we go to press.

Delegates: E. A. Morgan, Jesse Misener, M. E. Bezzant, James H. Clarke, Alma Greenwood, Joseph H. Storrs, Mrs. Bernard Christensen, Wm. Barratt, Mrs. Mattie McTague, Mrs. M. E. Bezzant, Jacob Greenwood, Adolph Nielson, Earl S. Greenwood, Mrs. Joseph T. Walton, Stephen Shelley, T. F. Trane, H. S. Rasmussen, Leonard Shelley, E. W. Paxman, E. J. Clayson, J. B. Storrs, Jed Mercer, W. J. Shipley, Thomas J. Barratt, J. W. Storrs, James Pulley, Rochel Hunter, Mrs. Jesse Misener, Mrs. Joseph H. Storrs, Reno W. Vance, Marion Robinson and E. B. Hawkins. Alternates: Jane C. Robinson, Heber Bate, Hyrum Blackhurst, Geo. W. Varney, Mrs. Adolph Nielson and Mrs. T. F. Trane.

After the adjournment of the meeting the delegation of the county convention met and completed the organization with E. A. Morgan as chairman and Wm. Barratt as Secretary. It was the unanimous sentiment that they go out after two county officers, the county clerk or county recorder and a representative of the legislature. Alma Greenwood was unanimously indorsed as representative to the legislature.

## REPUBLICANS NAME DELEGATES

A Republican Primary was held in the City Hall Wednesday evening September 6th. On motion John H. Hunter was elected chairman and George F. Shelly, secretary. Leonard S. Harrington was elected precinct chairman for the ensuing two years and Reed Gardner precinct secretary for the same length of time. The following were selected as precinct committeemen: First precinct, J. E. Chadwick and Mrs. John H. Wootton; second precinct, S. W. Chipman and Mrs. C. M. Beck; third precinct, Wm. Elsmore and Mrs. Bert Adamson; fourth precinct, Stephen Anderson and Mrs. Sadie Bromley. As members of the Utah Central committee, John H. Wootton and Leonard S. Harrington. For precinct justice of American Fork, Wm. Hunter; for precinct constable, Wm. Duncan. On motion the delegates were instructed to have inserted in the county platform a plank asking for an eight hour day shift at the sugar factory. The following delegates were selected to attend the county Republican convention at Salem on Sept. 14th: John H. Wootton, F. M. Houston, C. E. Young, Reed Gardner, Wm. Chadwick, Dr. J. P. Noyes, Geo. F. Shelly, Dr. P. M. Kelly, Leonard Henroid, Mrs. Sadie Bromley, James Gardner, W. S. Chipman, Mrs. Thomas Coddington, B. S. Kershaw, L. S. Harrington, Wm. Elsmore, Mrs. John Chadwick, J. F. Chadwick, Mrs. John H. Wootton, Thos. B. Parker, Bert Adamson, Clyde Crookston, Jehnathon Steggle, Stephen Anderson, Thomas A. Osborne, Thomas Coddington, John R. Hindley, C. M. Beck, Mrs. Myra Gardner, Mrs. J. E. Chadwick, Mrs. Wm. Elsmore, Mrs. Wm. Chipman, S. L. Chipman, Ben Fullmer, Lafayette Parker, Earl Varney, Wm. D. Stewart, Wm. Thornton, W. H. Chipman, Mrs. W. H. Chipman, Mrs. Annie E. Haggard, John Hunter, John Jacklin, Niels Nielson, S. W. Chipman, Heber Walton, James Chadwick, Mrs. Nellie Dickerson and Mrs. Bert Adamson and the following alternates were named, Wm. M. Miller, Warren F. Anderson, Mrs. Lenora Henroid, Mrs. Ada Wilcox, John Berg, W. D. Loveless, Mrs. Thomas B. Parker, Mrs. S. W. Chipman, Mrs. F. M. Houston, Mrs. Atlantic Christensen, Wm. Chipman, Mrs. James T. Gardner, Mrs. Sam Kelly, Mrs. Thomas A. Osborne and Mrs. John R. Hindley.

J. E. Chadwick was indorsed by the meeting for County Assessor on the Republican ticket. The following were named as the steering committee.

John H. Wootton, Reed Gardner and F. M. Houston.

## PUBLIC SCHOOLS COMMENCE WORK

The schools all commenced their regular season's work Tuesday morning Monday was registration day. The attendance is fully up to normal and the school spirit never was better. In the High School, the attendance is the best in its history for the opening day. The registration there was Freshmen 70, Sophomores 40, Juniors 22, and Seniors 12. Prof. Nielson says that the attendance will reach 200 when the students are all in. In the sub-freshmen or eight grade the registration is 130 which is 5 more than graduated from the seventh grade. The outlook is bright for a most successful year.

## NOW IS THE TIME.

Now is the fly season proper. During the last of summer flies are more plentiful than at any other time. Disease may be more readily germs more easily distributed during the months of September and October and typhus becomes the most prevalent disease to be recorded on statistics. Such is the assertion made by Dr. T. B. Beatty, secretary to the state board of health.

Dr. Beatty urges great care in the handling of foods that may have become contaminated by flies. He says: "In the earlier months of summer and spring a great cry is raised to swat the fly. Toward the end of summer when the flies are most plentiful and most dangerous people seem to forget that the need of extinction of the pests then is much more urgent than ever before."

## THOUGHTS ON THE EUROPEAN WAR

Blame wild, untutored tribes no more  
Who fought and bled in days of yore  
To suit their masters well;  
No savage lands that ever fought  
Such awful deeds of horror thought  
As are committed still.  
Let Europe's rulers blush for shame  
And vaunt no more a christian name  
But live to suffer scorn;  
Far better they had never known  
Or never had been born.  
A scepter or an earthly throne,  
With every law of man and God  
Defied and trampled in the sod,  
They pray for strength to kill  
They seem to reckon God a fool  
Who needs the military school  
To guide his sovereign will.  
That kings have oft been arrant knaves  
And sleep dishonors in their graves  
Is known by sage and clown  
But thank the Lord that better things  
Await the world, when tyrant kings  
Are forced to knuckle down.  
J. C.

## THE WILSON CLUB ORGANIZED

Last week a number of prominent Democrats of this city met in the City Hall and organized what will be

known in the future as the Wilson Club. Chairman E. A. Morgan took charge of the meeting. An excellent musical program was enjoyed by those present. The speakers of the evening were Samuel Thurman, Henry Moyle of Salt Lake City, and District Attorney J. H. McDonald of Provo. The purpose of the Wilson Club as defined by Mr. Thurman is to foster the spirit of Democracy throughout the towns and cities of the U. S., and to place before the people facts concerning the Wilson Administration in order that persons who are in doubt as to the success of Democracy in the U. S. during the last three years may know with certainty what has actually been accomplished by President Wilson and his colleagues at Washington.

Meetings will be held every Thursday evening in the City Hall. Good programs will be arranged and prominent speakers from Salt Lake and elsewhere will be engaged to deliver addresses. All citizens are invited to attend.

The officers of the organization are as follows: William Barratt, pres., M. E. Bezzant, vice pres.; J. B. Storrs, Secy, and Treas.; Committee—Mrs. A. Greenwood, Jesse Misener, Ray Nicholes, Ida Chipman, Stephen Shelley, Lillian Clayson, Earl S. Greenwood and Emma G. Anderson.

No job of printing is too small or too large for us. Phone 142.W and we will do the rest. 6-11
