

American Fork Citizen

HENRY C. BOLEY DIES FOLLOWING OPERATION

What seemed to be very untimely was the death of Henry C. Boley, Friday morning at a Salt Lake hospital. Mr. Boley had been working in the South Fork of Provo Canyon when Wednesday a severe pain struck him. He was rushed to American Fork where he was examined by local doctors. Thursday morning he was taken to Salt Lake where he was operated upon. According to Dr. Clark, who was in attendance, he was suffering from a ruptured ulcerated stomach. Dr. Clark said that the attending physicians all entertained hopes for his recovery. However, he was called to his reward about 6 a. m. He was about 46 years of age and was the father of six children, who with his wife, survive him. He is also survived by several brothers and sisters, and his mother, Mrs. Melissa Boley of this city. The body was brought to American Fork for burial Friday, but as we go to press no funeral arrangements have been made.

PLENTY OF WATER THIS SUMMER

This week Mr. A. N. Iverson spent two days in American Fork Canyon, returning Wednesday. His trip was for the purpose of seeing how soon he would be able to start up his saw mill, but he decided it would be almost a month yet on account of the deep snows. He says the prospects for irrigation water for the farmers is fine; that there is more snow than usual up in the mountains, and that it is melting and will lay there until late, unless extra warm weather comes on. There has been few snow slides up there this winter, he says, but it looks as though there had been considerable wind, as a great portion of the snow lies in the hollows. He also states that there are more rocks in the roads, which has rolled down from mountain slides, than he has ever seen before, but that the road supervisor at Alpine has a force of men at work removing them and repairing the road, and that they are doing good work.

WIN FIRST GAME THEY PLAY

The American Fork base ball team took on the air of real champions when they came forth in their class new uniforms Wednesday and defeated the East High of Salt Lake to the score of 7 to 5. The game was fast throughout and some brilliant fielding and hard hitting was staged. Jim Kelly of American Fork acted as umpire. Miller as pitcher did excellent work and all other members of the team worked hard to make the game snappy and interesting. Bunched hits in the second, third and fourth frames, including a three-base smash by Miller and a home run over the left field fence by Holmstead gave the Forkers their seven runs. Dent Rich, on the mound for the high schoolers, allowed but eight blows, but seven of these flocked together. The visitors drew first blood in the second with three runs. They pushed another across in the fourth, and Foyler's home run in the eight counted the fifth.

Destroying Trees

There appears to be some people in our city who do not believe in beautifying our little town, or else they are somewhat demented. Mr. and Mrs. T. F. Trane have planted a nice row of young shade trees in front of their home. Some few nights ago someone came along and slashed the bark on several of them. Mr. Trane noticed this and carefully bound up the injured places in the hope to save the trees and then what is thought to have been the same person came along and slashed the other side of the trees, determined to stop their growth. This week several trees in the same condition have been replaced around the tabernacle grounds. Mr. Trane has offered a reward for information concerning the destroying of his trees.

MUST NOT SLACKEN THEIR EFFORT

The Provo people have been very active the past two weeks trying to persuade the forest supervisors and county commissioners that Provo Canyon is the only place for the Mount Timpanogos trail. In fact several committees have met and discussed the matter with them and have received a partial assurance from Mr. Parkinson that something will be done relative to assisting in the work of improving the North Fork road to Aspen Grove through Provo Canyon and, also the building of a trail from the base of Mt. Timpanogos to the summit. The Provo people are already aware that the people of American Fork are not asleep, and that we do not intend to let an opportunity to boost American Fork slip by. Aside from this, it is apparent to anyone who cares to investigate that American Fork Canyon will furnish, beyond a doubt, the best place to start the hike up Mt. Timpanogos. American Fork is closer to Salt Lake; the camping facilities are splendid, and with the aid of the Commercial Club and other organizations, a first-class, sanitary camping ground will be established. From all appearances the people of American Fork must not slacken their efforts towards making American Fork canyon the place for the county trail to the summit of Mt. Timpanogos, as the Provo people are doing their utmost to take this from us. Let's boost for American Fork Canyon, the most scenic "caded" in the state.

GRAIN ELEVATORS NOW COMPLETED

The two large grain elevators which have been under construction at the People's Mill and Elevator Co.'s Mill are now completed. They will hold 2,200 bushels of wheat. The work of building the elevators has been accomplished in less than a month by the Floyd S. Whiting Co., of Salt Lake City. The two large bins are made of reinforced cement and are 44 feet in height and 20 feet in diameter. They are connected with the mill by a runway which runs from the top of them over to the top floor of the mill. It is expected that much grain will be stored there this summer. The mill has made several improvements and has met with wonderful success since it changed hands some few months ago.

CITY AFTER MORE CULINARY WATER

Work has been going on for the past two weeks on the city drain ditch which is being dug near the old Robinson mill site. The drain is 700 feet long and is being dug by Mr. Richard Steele and his sons. The purpose of the drain is to drain the water from the present city well and run it down into the settling tank and thus do away with the cost of pumping the water up from the well and then down to the settling tank. The new drain will cost the City \$1,500, but there will be a great saving over the old system and ought to furnish more drinking water and a better force. It is estimated that about six weeks time will be consumed in the building of the drain. It is stated by the contractors that unless complications set in the job will be finished in schedule time.

Vaccination for Black Leg

John Jacklin reports that out of 125 head of cattle tested here Monday by federal veterinary surgeon, C. L. Jones, only one diseased and one suspected were found. He also reports that vaccination for black leg will be given to any cows under two years which are brought to the dehorning corrals near W. H. Chipman's residence Saturday. All cattle going out on the range this year are required to be vaccinated. The cost will be in the neighborhood of 20c per head. This vaccination will give immunity for life to the cows, it is stated.

THIRTY WILL GRADUATE THIS YEAR

The largest class in the history of the American Fork High School will graduate this year. There are 30 in all. The commencement exercises will be held in the Stake Tabernacle, Friday evening, May 14th at 8 p. m. Attorney Daniel Alexander will deliver the graduation address and the following program will be carried out: 1. Opening Chorus—High School Chorus. 2. Invocation. 3. Piano Solo—Stella Greene. 4. Address—Edith Thornton. 5. Double Male Quartet—High School Boys. 6. Valedictory Address—Mahlia Hansen. 7. Violin Solo—Florence Friday. 8. Address—Atty. Daniel Alexander. 9. Ladies Glee—High School Girls. 10. Presentation of Diplomas—Supt. Jas. H. Walker. 11. Closing Chorus—High School Choir. 12. Benediction. The following is a list of the graduates for 1920:

Fern Foster	Katie Forbes
Haydee Jackson	Zina Clayton
Marie Robinson	Mary Pulley
Katie Paulson	Glen Sykes
Edith Thornton	Norman Wing
Willard Clarke	Stella Greene
Yenna Crookston	Mahlia Hansen
Velma Miller	Le Vonne Bromley
Lacey Adams	Leo Meredith
Donald Parker	Myron Boley
Helen McCleery	Ralph Chipman
Lillian Grant	Willis Shipley
Rintha Greene	Leonard Madsen
Ida Shelley	Delta Fay Miller
Rulon Nicholes	Lela Thornton

PETER CRYSTAL'S AUTO FATALLY INJURES CHILD

Jack Vincent, 7-year-old son of Bert Vincent of Garfield, was fatally injured at 4 p. m. Tuesday when he was struck by an automobile said to have been driven by Peter Crystal of 163 east Ninth South street, Salt Lake. The accident occurred near the school in Garfield. Those who saw the accident absolved Mr. Crystal from blame. According to reports received in this city, several Garfield teachers were accompanying a group of school children from one building to another and they were walking in the road. As Crystal approached he is said to have sounded the horn on his machine several times and the children scattered to allow him to pass. As he was driving by, the Vincent boy is said to have become confused, running directly in front of the automobile. He was knocked down and the front wheels of the machine passed over his body before it could be stopped. The boy was immediately taken to the office of Dr. Robinson where he died an hour later. Tuesday was the boy's seventh birthday.—Tribune. Peter Crystal was a former resident of this city and is well known here.

ENTERTAINING MEETING

A very entertaining meeting was held Sunday night in commemoration of the 100th anniversary of Joseph Smith's first vision. The presidency of the Fourth ward Mutuals was in charge and musical numbers and addresses were given from the various wards. The following program was rendered: Opening Song—"Praise to the Man" Solo—Joseph Smith's First Prayer—Mrs. Ren Halliday. Girl's Chorus—Fourth ward. 10 Minute Address—The Vision—Mrs. E. J. Seastrand. Solo—Rulon Nicholes. Joseph Smith's Testimony of the Vision—Lyle Timpson. Mixed Quartette—First ward. Effects of the Vision, 10 minute address—J. M. Grant. Closing song—We Thank Thee, Oh God for a Prophet. The meeting next Sunday night will be under the direction of the Sunday Schools of the four wards. The speaker for the evening will be President Geo. H. Brimhall of the B. Y. U. and his subject will be along the lines of Mother's Day. A splendid program will be rendered in connection. Everybody invited.

GRADUATING STUDENTS

In Advance
We certainly congratulate you on Your Success
It is an accomplishment that will ever shine out like a bright star in your life's history.

Before the final comes let us help you to appear well, by furnishing your Graduating Suit OR YOUR Graduating Dress

We can supply your every need from head to foot---Let us show you.

If Its Pumps

We have them

WE ARE Headquarters for NICE SHOES or PUMPS any size any style

Make it Oxfords

You can get them here

Materials for Graduating Dresses

Georgettes	Nets	White Flaxon
Satins and	Plain Organdies	Crepe de Chine
Charmeuse	Emb. Organdies	Lace Flouncings
Taffetas	White Silks	Plain Voiles
Tricolettes	and all kinds trimmings to match.	

Come and make your selection and we will tell you how to make it.
