FARMERS POOL PEACH CROP

Thursday the first car of peaches was shipped from Pleasant Grove for the year left for the East. It is estimated that fruit growers here will ship over 75 carloads of this delicious fruit.

Some time ago the peach growers here formed a pool. The peaches this year are shipped on a commission basis. The farmers are guaranteed 100 per bushel, this amount being advanced to them. When the peaches are sold, the seller gets 10 per cent and the remaining portion will be sent to the farmers, according to R. D. Wadley. The present price of peaches is from 90c to \$1.15 per bushel in the East. This price should give the farmers a fair margin.

The only trouble will be to get cars soon enough to ship the fruit before it gets too ripe.

There will be plenty of peaches for local markets at from 50c to 60c per bushel this year, Mr. Wadley declares.

CANNING FACTORY AT OREM STARTS UP

Tuesday, the canning factory at Orem commenced on its long run for the tomato crop of the north end of the county. This is the first time for three years that this factory has been extensively used. Last year it was only used or a few days. The factory has not canned tomatoes for some time. This year's run will perhaps be one of the largest in its history.

Two or three days last week were spent in preparing the factory for starting, and some pulp and ketchup was made. Tuesday, the mill commenced on a permanent run until the tomato crop is harvested.

The plant here is busy canning pears, string beans, apples and tomatoes.
