RUPTURE EXPERT HERE

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO SALT LAKE

F. S. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Utah Hotel, and will remain in Salt Lake City from Monday December 25, until Saturday December 30th, inclusive. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. This result effected during the day—the repair continues of itself throughout the night during sleep while all strain is removed. Being a vast advancement over all former methods—emptying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Warning—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate, without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts—F. H. Seeley, Home Office, 117 N. Dearborn St. Chicago. 33-11.

Mr. and Mrs. Roy Greenwood and Miss Theima Boley motored to Salt Lake Tuesday on business matters.

American Glassware Best. According to tests of the bureau of standards, this country makes better chemical glassware than has ever been imported, with respect to resistance to chemical attack, power to withstand sudden cooling and mechanical strength.

LEHI, UTAH

HEALTH

CHILDREN from birth learn to walk are constantly bumping, and sometimes injuring themselves. Their spines are very delicate, twisted and misplaced, very serious illness follows a bump caused by spinal subluxations. Be fair with the kiddies, have spinal column examined. Don't tell me anything I can't tell you all from the spine.
