SUBSCRIPTION \$1.50

DIES FROM HEART FAILURE

Lewis McBride Passed Away From Natural Cause Instead of Accident as First Reported.

Justice E. E. McBride received a telegram, Wednesday morning from Marsyas, Idaho, containing the startling news "Come at once your son Lewis has met with a serious accident". Mr McBride took the first train and on reaching Salt Lake received word the boy was dead and by asking for particulars and details, was informed his son had started to work (he was engaged at a grading camp of the Yellowstone Canal company as usual in the best of health and without the slightest warning dropped to the ground and expired within three minutes. The doctor pronounced it heart failure, and the first telegram was sent in order to break the news more gently to the parents.

Arrangements were made and the body was prepared and shipped at 3:30 yesterday to American Fork, arriving here this morning at 9:30.

The young man was 19 years old, a native of Utah and for several years American Fork has been his home.

The family are greatly shocked at the sudden death, but are glad he passed away naturally instead of being mangled by accident as was first supposed. The funeral services will be held at 1 o'clock Monday afternoon in the First ward chapel.

Another Rich Strike.

W.C. Earl, one of the three owners of the surprise lease informs the Citizen that they have made a still greater strike of rich ore, while grading out and leveling ground to build a cabin. This strike is very encouraging to the lessees, who were compelled to stop development work on the first strike owing to having trouble with Tyng Bros., who claim it, is on their ground and the case will have to be settled by the courts. The new strike is at least fifty feet from any other claim, being near the center of the Surprise ground.

First Ward Entertainment.

An entertainment will be given under the auspices of the Sunday school in the first ward meeting house Wednesday evening, November 28.

An admission of 10 and 20 cents will be charged; the proceeds will go to help purchase a Sacrament Set. The following program will be given: Solo, Mrs Laura McCarty; Musical selection, Rosa Durrant and A. B. Simmons; Duet, James Martin and daughter Minnie; Comic selection, E. Cutler; Violin Solo, Roy Boley; "Original", W. J. Wild; Solo, Blanch Kirkham; Duet, Roy and Jennie Boley; Solo, Julia Brown; Solo, James Martin. After the above numbers will be given a musical comedy in one act, entitled "Always knock at the door as I'm the Gardner", the cast of characters is Theophilus Thompson, a smart city man, Auburn Chipman; Miss Sarah Thompson, his aunt, Bertha Nicholes; Jane, a modern general, Fern Featherstone; Honest John, Thomas Martin; Mr Jones, Gardner, Ray Nicholes.

Yon Yonson Coming.

The attraction at the American Fork opera house on Thursday night, Nov. 29 will be Kennedy & Willard's scenic production, "Yon Yonson" which seems to have as strong a hold upon the public as "Way down East", this being its sixteenth season without the slightest decrease in its drawing powers. The play itself is the embodiment of all the elements of success and its construction is a marvel of modern stagecraft. A feature of more than passing interest in the play this year is George Thompson, the well known Swedish actor, in the title role.

"Yon Yonson" is a stirring picture of a novel phase of American life and it is one of the most successful dialect comedies ever produced upon the American stage. Besides having the merit of originality, Mr Thompson's characterization is said to be an amusing and faithful representation. "Yon Yonson" is the quiet, inoffensive Swede one meets every day, with all of his peculiar characteristics and his awkwardness of speech and movements.

In the Fourth District Court Wednesday the defendants in the case of Tyng brothers vs. the Surprise Mining company, gave a bond for the release of a lot of ore recently attached by the Sheriff, and the latter was ordered to release the ore to the defendant. Tyng Bros. recently entered attachment proceeding against the Surprise Mining company, claiming \$1500 worth of ore held by defendants.

Apollo Team Getting Busy

The Apollo basket ball boys, who made such a good record in the past two seasons are again preparing for an active season of games. They have already signed up for contests with the following teams, Crescents of Chicago; Reno, Nevada, University; Y. M. C. A. of Salt Lake and the B. Y. U. of Provo. The local team has arranged to hold the contests in the opera house, which will be remodeled somewhat, by removing the wings on each side of the stage to give more floor room.

How to Observe Thanksgiving Day.

The last Thursday in November is the day set apart by this great country of ours (these grand and glorious United States) for "Thanksgiving day, a day wherein every man, woman and child should bow their heads in prayer to our Maker for the multitude of blessings which has been sent to bestow upon each and every one of us, though wicked and sinful we might have been all of our lives. He has been good to the sinner as well as to the saint, he has caused the rain to fall on the unjust as well as the just, and yet how far we fall short of our duty to our Maker. A great many people, certainly misconstrue the object and purpose of Thanksgiving day. There are some who with gun and dog take to the fields to shoot the innocent and unsuspecting quail and duck, many others, for any kind of sport, fun or frolic, amusements of any kind, anything but the real purpose for which this day was intended. Some few have a different view and these will remain at home and talk, and discuss their neighbors, their faults and habits, not for a moment do they speak of the good traits of these friends and neighbors, but gossiping and tattling seem to be the ruling enjoyment of the day. Then there is a class, who well know the object of Thanksgiving day and this class though small, yes, very small, will respect this good day and spend it as the day should be.

A few of these good people will lift up their voices in prayer to their Master for the many blessings and comforts showered upon them and theirs. This class of people are few and far between, but the good Lord will hear and answer their prayers. My dear young men, stop and reflect, ever you deprecate this great and good day. Celebrate it as it should be, and as it was intended it should be, a day of prayer, and thanksgiving to our good Master for his goodness and kindness to us through all of our lives.

The "American" party of Salt Lake with the assistance of the Tribune are now putting forward a movement to install politics into the management of the Public schools. The only argument put forth is to stop the Mormons from grafting religion into those institutions. The schools of Utah are among the foremost of this great enlightened country, simply from the fact that their management has always been non-partisan—free from political or sectarian influences and it is to be regretted that the broad minded people of Salt Lake will allow the Tribune to exert them to such feelings, as to wish the schools to be controlled by political grafters.

The Pennsylvania and Redding railroads have increased wages 10 per cent Amalgamated Copper and Standard Oil have done the same, and it is reported that the great steel corporation with its 187,000 employees will grant an increase of 10 percent in wages. Other great concerns and corporations will possibly follow suit in an effort to make wages commensurate with the increased cost of food, board, rent and extras. Prices of food, rent and clothing have gone up considerably in the last ten years. There would be more cause for alarm if it were not for the fact that with this increased cost work was never so plentiful and the country never so prosperous. Prosperity and plenty are in part the cause of increased prices.

In view of the above facts, why can't the job printers of Utah County get together and ask living prices for the product turned out by them, instead of underbidding each other until it is impossible for the printer who gets the job to give good work or first class material, any time a printer can't make wages in his own office when he has all the work he can do, he is not getting enough for the work.

Dr Lorenz, the Viennese surgeon, who recently passed some time in the United States, says that he has found women inferior in physique in all other countries save in the United States, where their physique is so superb as to make that of their countrymen seem insignificant in proportion.

Things to Talk About.

A Chicago employment agency is advertising for "homely girls." Just as well advertise for old girls.

No young man of today can succeed to any great extent who is not enthusiastic in his business or occupation.

The fair weather friends always come in bunches, but the friends that come during adversity are miles and miles apart.

Some day a paternalistic government may even undertake to regulate the hotel charges for the benefit of the people at large.

Since the government has begun an investigation of divorce it is noticed they are fewer in number. Publicity's the thing.

After this the American girl who marries a title must understand right at the start that it will be useless for her to expect any sympathy.

A sorehead in Kansas says there are no women mummies because a woman never was known to dry up and stay dried.

A Chicago judge sentenced a man to jail for allowing his wife to support him. What is the country going to do for jails, if this thing spreads?

Count Castalani accuses his wife of being very extravagant. Doubtless she is and was, but the most reckless purchase she ever made was the little French Count.

The doctors say running improves health and promotes long life. If this is so, Mr Bryan is destined to be a modern rival of Methuselah.

Dr Edward Everett Hale says speak every day to some whom you recognize as your intellectual superior, but this advice will fail of effect upon the average male or female egotist.

In a reading room in Boston, there is a sign "Only low conversation permitted here". We are surprised at this. We supposed that all Bostonian conversation was high-toned.

The Pullman sleeping car octopus is shown to have a surplus of \$29,000,000 in its treasury, squeezed out of the traveling public. This does not include the holdups of the porters.

Milwaukee is to have an apartment house for the exclusive use of unmarried women and bachelors. It is impossible to decide at this time whether the projector intends to promote or discourage matrimony.

Uncle Sam has a flag factory which costs the government \$69,000 a year and at least 50 women are employed. Each ship in the navy has to have 250 flags and they receive a new set every three years. A set is valued at \$2,500.

Commissioner of Immigration Sargeant thinks that all Chinese arriving in the United States with a view of remaining here should be taxed \$1,000 a head. He believes that the time has come when all the Chinese in the United States should be registered.

The empire of Russia is rich in horses. According to the statistics of the Department of Agriculture at Washington, there are on earth 60,455,000 horses, of which Russia alone has 33,000,000, averaging twenty-five horses per hundred inhabitants.

According to Miss Julia Richmond district superintendent of the schools in New York City, God created mothers and when he saw what a sorry job he made of it, he created teachers. And yet if it was not for the mothers the teachers wouldn't have much to do.

To stimulate marines, to improve in rifle practice, Secretary of the navy Bonaparte has issued an order that every mariner who qualifies as an expert rifleman shall receive \$3 per month extra pay, those qualifying as sharpshooters \$2 per month, and those rated as marksmen \$1 per month.

It is said that the way a woman takes a compliment stamps her place in society. A blush denotes the debutante; a giggle, the unsophisticated; a brusque protest, the sensible but unpolished; but the quiet unelated smile, with a quieter "thank you," if reply be necessary, unmistakably denotes the woman of social training, the one accustomed to compliments.

On his recently completed tour around the world Mr. Bryan was accompanied by his wife, who put in typewriting all the newspaper articles he prepared. Mrs. Bryan not only studied law and was admitted to the bar soon after she married her then undistinguished husband but she also learned to manipulate the typewriter as a further means of being of practical help to him in his work.

Lovers of tobacco in its various seductive forms who have been at times a trifle conscience smitten by reason of the alleged deleterious effects of the tobacco habit upon the mind and body should henceforth be able to smoke their pipes in peace since no less an authority than the London Lancet, the foremost journal of the medical world, has risen up to declare in the most deliberate and positive way that tobacco smoke contains an appreciable amount of formaldehyde, one of the most powerful of antiseptics and germ killers.

A single hair from a cow falling into a pint of milk and being permitted to remain there for thirty-six hours will produce 5,000,000 bacteria, a bit of sawdust or straw from the stable floor if it gets into the milk and stays there twenty-four hours germinates 7,000,000 bacteria and a live fly drowning in milk will produce 3,410,000 bacteria if its carcases stays in the milk one day—at least, some doctor has said so.

Here is our condensed opinion of the Original Laxative Cough Syrup: "Nearly all other cough syrups are constipating especially those containing opiates. Kennedy's Laxative (containing) Honey and Tar moves the bowels. Contains no opiates. Conforms to the National Pure Food and Drug Law. Sold by the American Fork Drug Company.

UTAH PATENTS.

Granted this week. Reported by C. A. Snow & Co., Patent Attorneys, Washington D. C.—John Kemp Jr., Salt Lake City, Fence-post.—William H. Snow, American Fork, Insect-destroyer.—F. T. G. of any of above patents send ten cents in postage stamps with date of this paper to C. A. Snow & Co., Washington D. C.

DeWitt's Kidney and Bladder Pills act on both kidneys and liver, and as a result afford the quickest relief from those troubles resulting from an excess of uric acid. Such troubles as rheumatism, backache, sciatica, etc., are quickly relieved by a few doses of this modern remedy for the kidneys. Sold by American Fork Drug Company.

The Western farmers are always in hot water. This year their crops are too big for their cribs. Soon their bank accounts will be too big for their consciences.

To protect the little ones and for the information and satisfaction of mothers the contents of each bottle of this sweet and pleasant-tasting, Cough Syrup have been placed on every label. Cough Syrup is a harmless compound of vegetable extracts that is wonderful in its beneficial effects on the stomachs of babies and children. Recommended and sold by American Fork Drug Co.

When the tip of a dog's nose is cold and moist, that dog is not sick. A few crumb dry nose means sickness with a dog. And so with human lips. Dry, cracked and colorless lips mean feverishness, and are as well ill appearing. To have beautiful, pink, velvet-like lips, apply at bedtime a coating of Dr Shoop's Green Salve. It will soften and heal any skin ailment. Get a free trial box, at our store and be convinced. Large nickel capped jars 25 cents. At American Fork Drug Co. and William Thornton's.

THE COPPER HAND BOOK

(New edition issued Nov. 15th, 1906) Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Terminology, Uses, Statistics, and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper industry.

Its facts will pass muster with the trained scientist, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor.

It lists and describes 4625 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is considered to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER.

The Mining man needs the book for the facts it gives him about mines, mining and the metal.

The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed and explained.

Price is \$5 in Backram with gilt top; \$7.50 a full library morsere. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

It may cause no less surprise than uneasiness to learn that we are likely to run short of iron inside of a single century if we keep up the present rate of consumption, figures of Leslie's Weekly. As a matter of fact, we are more likely to increase the consumption than we are to reduce it. The world has only 10,000,000,000 tons of iron ore available. Of these, Germany has twice as many tons as the United States. Russia and France each have 400,000,000 tons more than this country. Our consumption is placed at 250,000,000 which is more than a third of the world's total consumption, and far in advance of the present rate of production.

PATENTS

PROCEDED AND DEFENDED. Send model, drawing, etc., to C. A. Snow & Co. Patent Attorneys, Washington, D. C. We will advise you as to the patentability of your invention, and if patentable, we will prepare and prosecute the same in all countries. Business done with full success. Money advanced when the patent is secured. Patent and Invention Practice Exclusively. Write or come to us at 433 Ninth Street, opp. United States Patent Office, WASHINGTON, D. C.
