

# THE LEHI BANNER

VOL. XXIII.

LEHI BANNER SATURDAY, DECEMBER 3, 1914.

NUMBER 31

## \$100,000 Final Payment

Sugar Company Will Make Third Payment For Sugar Beets Next Week—Over Half Million Dollars Distributed Among Farmers This Year For Sugar Beets.

Next Tuesday the Lehi sugar factory will make its final payment of \$100,000 for sugar beets grown by the farmers of Utah, Salt Lake and Washington counties. This will bring the grand total for the year up to approximately \$655,000.

There has been grown for the factory this year 131,000 tons of beets, of these 14,000 were grown in Lehi and this locality, meaning the distribution among the farmers here of \$70,000, just at the time when money was most badly needed during the entire year. The yield this year has been the highest general average for several years, and has produced an average of 14 1-2 tons on the 825 acres planted. The price for the sugar for this season's crop has been most satisfactory also, and promises to keep up for at least another year as there will be no shipments from Europe for at least this time.

The sugar company will soon commence contracting for next season's crop and will take all that the farmers will want to contract for, paying the same price that has been paid during the past several years. Farmers generally were pretty well satisfied with indications as to the coming year will witness the greatest acreage planted in the factory's history.

## Sugar Factory Engine

### Runs Away Again

Monday night the sugar factory engine at Elismore ran away, causing a big fifteen ton fly wheel to revolve so fast that it flew to pieces, destroyed the governor to the engine and caused some other minor injuries. Fortunately no one was near the engine at the time of the accident, so no one was injured. It will cause the factory to be closed down for several days, till a new fly wheel can be obtained. Fortunately there was a junk pile in Salt Lake City, Utah, by being salvaged and trued up can be made to serve the purpose. A new governor was telegraphed for to New York, and is now on the way by express.

The accident was caused by the governor failing to work, and was similar to one in the same plant about a year ago. At the time, when the fly wheel went to pieces, a part of it went through the office floor above the engine room and drove the office chair through the ceiling above. A new fly wheel was then obtained from the Nampa factory. While the governor is coming a man will have to be stationed at the engine continually day and night, to turn the steam on and off as it is required.

## No Free Delivery For Lehi Yet

Brigham City will start the new year with city free delivery of mails. This is because Brigham has become

a post office of the second class, which entitles it to free delivery.

About two years ago Lehi and Brigham City were promised free delivery on an experiment that the government was making with third class cities, two in each state. Congressman Howell had recommended the service and an inspector had reported favorably on the two towns. However, the new administration discontinued the experiment of the delivery in third class offices, so that Lehi will have to wait till it gets a population of 5,000 people or has annual gross receipts amounting to \$10,000. We are gradually coming up to these figures.

## Another Lehi Man

### Interested In Mining

Charles Ohran and American Fork Parties Developing Promising Property West of Great Salt Lake.

Charles Ohran came in last week from spending two weeks on Desert Mountain, lying between Great Salt Lake and the Great American Desert, and just north of the Western Pacific Railway. Mr. Ohran and seven others own equal interest in an old mine worked in the early days, which they purchased about two months ago. They now have seven men working on the property, which is opening up in a most satisfactory manner. They have sunk over fifty feet on a fine carbonate vein, extracting enough ore to pay for the sinking of the shaft as it progresses. Besides this, they are also developing the property by means of drifts and tunnels. A prominent mining engineer, who recently examined the property, gave it a most flattering report, and says that perseverance and a little good judgment are all that is necessary to make it a steady zipper. The men already have a consignment on the dump ready for shipping to the smelter.

American Fork parties own most of the other seven-eighths interest in the mine. Harold Ohran is working on the property and will be joined by his father as soon as the Interurban depot is completed at American Fork.

## Swells Mountain Is Great Mining District

Bishop Henry Lewis Reports On Promising Property In Which Lehi People Are Heavily Interested.

Bishop Henry Lewis returned Monday from Carlin, Nevada, where he went to look after the interests of the Nevada Anaconda Mining company's property, located twelve miles from the above named station, on the Southern Pacific and the Western Pacific roads. Some leasers have done about \$10,000 worth of development work on the property during the past year and demonstrated the fact, so Mr. Lewis thinks, that the company has the making of a great mine. The property contains a mammoth copper vein carrying 12 per cent copper, and a well defined vein of carbonate ore running high in lead and silver.

The leasers have run several tunnels on the lead carbonate vein, demonstrating its permanency, and the fact that it increases in richness with depth. They have shipped several car loads to the smelters and have another about ready to ship now. The company will use the royalty from these shipments to run a deeper tunnel, which when in about 800 feet will top the lead fissure at a depth of about 800 feet, and then by extending the tunnel about 300 feet further the big copper vein may be tapped at a depth of about 1000 feet. Three men will be put to work at once running this deep tunnel.

During the winter parties who have a bond lease on the Carlin-Nevada adjoining property, have sunk a shaft over 100 feet deep and have encountered a body of copper ore said to be 40 feet across. Lehi people are largely interested in this property also.

Mr. Lewis says that Swells mountain, on which the above property is located, is one of the most highly mineralized districts he has ever seen. The formation of lime, porphyry and granite contacts taken in connection with the presence of mineral already discovered, indicates the making of a great district.

## Panama-California I-position

At San Diego, California, opens January 1, 1915. Special excursion tickets on sale at all Salt Lake Route stations in Utah, December 19, 20, 21, 22 and 23rd. See nearest agent for particulars, or write A. G. P. A. Salt Lake Route, Salt Lake City, 5-41

## Amos Rhodes Passes Away

Leaves a Wife and Large Family of Young Children—Buried Yesterday.

Mr. Amos Rhodes died at his home Wednesday morning from a complication of heart and kidney troubles. He has been ailing all fall, but thought it was only a bad cold. He has been sick for the past month, but took much worse last Monday, when he had several convulsions and passed away in one of them Wednesday.

Amos Rhodes was a son of Alonzo D. and Sarah J. Rhodes, two of the early settlers of Lehi, his father being the second city marshal. He was born here on December 24, 1869, making him 22 days less than 45 years of age, during his life he has been largely engaged in the stock business, buying and selling for other people.

About 21 years ago he married Miss Susan A. Riley, whose parents live in the Big Horn Basin, Wyoming. To them were born eight children, seven of whom are now living, the oldest being nineteen and the youngest three years of age. Besides his wife, he also leaves a brother, D. R. Rhodes, living in American Fork, and a sister, Mrs. Olive White, living in Idaho, and a number of half brothers and sisters.

He was a good and kind husband and father, and his death will be a hard blow to his wife and children. Funeral services were held yesterday in the First Ward Meeting House, the bishopric having charge of the services.

## Martha Phillips Dies

### From Fractured Skull

Martha, the seven-year-old daughter of Mr. and Mrs. Charles Phillips died Wednesday morning from a fracture of the skull, received last Sunday. The funeral was held yesterday at Malad, Idaho. Information regarding the accident was received over the long distance telephone and was very meagre. It appears that the little girl was swinging when the pole broke, falling on the back of her head.

George Phillips, Sr., and daughter, Eliza, took the Monday morning train for Idaho, and George Phillips, Jr. went up Thursday. Mr. and Mrs. Phillips own a ranch in Malad, where they have been living for the past five years.

## Funeral Services

### For George Davis

Tabernacle Filled With Sympathizing Friends and Relatives.

Funeral services for George E. Davis were held in the Tabernacle Sunday afternoon. The house was well filled and the floral tributes were beautiful.

Joseph Anderson of the First Ward Bishopric, presided. Patriarch Jas.

## A Perplexing QUESTION ANSWERED

The happiness of occasions brings its problems, and even Christmas, the most joyous of holidays, has—the gift problem.

One of the essentials for making the gift problem a positive pleasure is imagination—to imagine yourself in the recipient's place.

What kind of a gift will brighten the eyes, bring satisfaction to the soul, warmth to the heart and inspire appreciation of the giver?

A beautiful bunch of flowers, fresh with perfume from our new

Cornations in large White, Pink and Christmas Red per dozen \$1.00.

Snap Dragons, Pink, Rose, Red and White, per dozen \$1.00.

And assortment of all Sweet Peas 25c per bunch.

Green enough to look nice, no charge.

Telephone us your orders. We will deliver promptly.

## Lehi FLORAL Co.

Telephone 25-Red, We Will Do It Best.

Kirkham delivered the opening prayer and Bishop James H. Gardner the benediction. Herbert Taylor lead the choir, which rendered the opening and closing songs. Mrs. M. S. Lott sang, "I Have Read of That Beautiful City," and Junius Davis rendered "Oh My Father." The speakers, all of whom paid tribute to the honesty, integrity and faithfulness of the deceased were Hyrum Kirkham, John S. Evans, Wm. E. Evans and George A. Goates. B. W. Ross read the following biographical sketch:

George E. Davis was a son of Elihu Davis and Mary Ann Mitchell. He was born in Bingham's Fort, near Ogden, February 4, 1857.

He died November 26, 1914, making his age 57 years, 9 months and 22 days. The cause of his death was heart trouble, which lead to dropsy. He was sick about two months, but has had warnings during the past six years.

He has been a consistent Latter Day Saint, and at the time of his death had full faith in the Gospel of Jesus Christ and its promises, and many times has expressed a willingness to leave this sphere of action.

In 1858 his parents moved to Lehi, and spent the next ten years at Mulliner's flour mill.

George took an early liking to horses and his life was largely spent raising horses and cattle. During the last few years of his life, he had drifted more into general farming.

He was ordained to the several offices of priesthood, and in June, 1882, was ordained elder. November 15, 1903, he was ordained a seventy by Seymour B. Young, and on November 21, 1914, he was ordained to the office of High Priest by Elihu H. Davis.

He was married to Miss Harriet M. Brown, daughter of Mr. and Mrs. Newell Brown, June 8, 1882. The result of this union was three boys and two girls. One boy and one girl have died, leaving Ellis, Verland and Hilda- brand, who survive.

On January 25, 1905, he was married to Miss Mary Ann Bone, daughter of Mr. and Mrs. Wm. Bone. The result of this marriage was three children, Evelyn, Edward and Margaret, who with their mother survive.

George E. Davis never had aspirations for public life, but was content to be a worker in the ranks. He was a true and faithful acquaintance as an individual. Any promise he made to his friends could depend on being filled to the letter—the kind of a man that gives to help make up a good citizenship.

## Orin Rockwell In

### Judge Mercy Hospita

Stricken With Paralysis On His Ranch In Cherry Creek, West Tintic.

Orin Rockwell, one of the early settlers of Lehi, is critically ill in the Judge Mercy hospital in Salt Lake City. Mr. Rockwell has been ill for several months with dropsy, and last week suffered a paralytic stroke, which also caused him to suffer the loss of speech. His children have been sent for. The doctors do not hold out much hope for his recovery.

Mr. Rockwell has been living alone for several years on his ranch in Cherry Creek, in the West Tintic district, where he has been engaged in raising horses and cattle. During his recent illness his daughter, Nina, has been living with him. His other children are: Mrs. John W. Jones of American Fork, Mrs. Ida Scott, Horace and "Pete" Rockwell, the latter living in Nevada. He is a son of Peter Rockwell, famous in early Utah history.

## BARNES' BABY DIES

The infant baby boy of Mr. and Mrs. George Barnes, which was born on Thanksgiving morning, passed away Monday, due to an ailment present at the time of birth. This makes the fifth baby in succession that Mr. and Mrs. Barnes have lost while in their infancy. They have the deep sympathy of their many friends.

Funeral services were held at the family residence and were presided over by Bishop Lewis.

The speakers were John E. Jones, Joseph H. Woolston and Bishop Henry Lewis.

## NEW ORCHESTRA ORGANIZED

A new orchestra has been organized in Lehi. It will probably be called the "Giles Orchestra." Following are the members: Dennis Giles, violin; Miss Flossie Dorton, piano; Herbert Taylor, cornet; Wm. Osterloh, trombone; Ira Taylor, bass horn, and Ernest Webb.

Five A.M. and the Fire is Out!!

Wow! Cold as the dickens!

Why do you put up with such a nuisance? You don't have to—if you furnish your house with a

## Cole's Original Hot Blast Heater

You build only one fire each winter. It is never out from Fall till Spring.

You get up and dress in rooms warmed with the fuel put in the night before.

This is not possible with other stoves.

Burns anything—soft coal, hard coal or wood.

Come in and see this great fire keeper and fuel saver.

See the name "Cole's" on the feed door of each stove. None genuine without it.
