

PORCELAIN

DEMONSTRATION AND SALE UNIVERSAL

WASHABLE

OCTOBER 29-30

You are invited to call at our store during our special demonstration and sale of UNIVERSAL ranges and heaters, October 29-30.

A very interesting entertainment will be given in front of our store at 3 p. m. October 30th.

Has it occurred to you that long ago you junked the old black, dirty, greasy sink for a porcelain sink. How would you like to go back to that old black sink again? How about the old black range that keeps your wife busy most of the time trying to keep clean, when she has many other pressing duties to look after? How would you like to be fireman for some of the old time ranges that burn up coal like a steam engine?

The UNIVERSAL is the last word in range construction
MODERN PORCELAIN WASHABLE SANITARY

Use One Ton of Coal Where You Now Use Three

Eventually It Will Be a UNIVERSAL IMPROVED FEATURES

Gray Iron Construction will last a Life Time
Porcelain Washable Sanitary
Economy fire box cuts fuel consumption 50%

Key plate lift to feed fuel, toast bread, broil steak; sliding damper, instantly regulates the oven to just the temperature you require. Being a cast iron construction, in twenty years you can replace any defective piece, plate or casting in this range with a new one, and in a few minutes time. All cook stoves and ranges are made with a gray iron fire box, because no other material would stand the intense heat. Why buy a range that has been cheapened with steel-asbestos and other cheap compositions, when you can secure a 1920 model UNIVERSAL in all Gray Iron.
