W. G. M. STEWARD, Assayer, 10 E. Second South Street. P. O. Box 449. Under barber shop, east of U. P. Ticket Office.

NEWS OF THE DAY.

—Lord Salisbury has been elevated to the rank of Viscount.

—Business is brightening in New York, and the season is reported to be two weeks ahead.

—No reliable information of the cost of General Grant's funeral is yet made, or yet of the doctor's bills.

—Richard K. Fox, of *Poker Gazette* fame, was married in Europe last week to Helen Dwyer, the widow of John Dwyer, the prize fighter.

—The Treasury Department yesterday purchased 245,000 ounces of silver for delivery at the Philadelphia mint, for coinage into standard dollars.

—President Cleveland and Dr. Ward reached the Prospect House, Upper Saranac Lake, their destination, at 2 o'clock yesterday afternoon.

—James W. Marshall, the discoverer of gold in California, died yesterday at his home near Berkeley, Cal. He was 74 years old and died poverty-stricken.

—An examination and inventory of the three cruisers, "Chicago," "Atlanta" and "Boston," which were being constructed by John Roach, will be made by a naval board to-day.

—The New York Grant Monument Committee are working in earnest. Subscriptions have already reached \$34,000, and the National Brewery Association will give \$30,000 more. W. W. Astor gives \$1,000.

—The French woman who was formerly mistress of Sir Charles Dilke, has been cited for the plaintiff in the Crawford divorce case. It is alleged, will be the leading witness to prove the liaison of Sir Charles with Mrs. Crawford.

—A monster demonstration will be held in Hyde Park, London, next week, on the subject of the *Pall Mall Gazette's* crusade. Equal justice between the sexes will be insisted on, and a protest entered against the doctrine that what is lawful for man is criminal for woman.

—The Madrid government is considering whether or not to demand the arrest of Angulo, Spanish refugee in London, on the charge of murder, the Spanish government having received information that a plot to assassinate King Alfonso had been arranged in England, and that emissaries had left England via France for the Spanish frontier.

—The Oklahoma "boomers" are doing the right thing and going home. Captain Couch interprets the present action of the administration as the inauguration of a movement which will lead to the opening of Oklahoma in the near future, and with the desire to avoid any embarrassment in the work, has requested the colony for the present to disband.

—Maxwell, the supposed St. Louis murderer, started east from San Francisco yesterday afternoon. He maintained up to the time of leaving the same cool, indifferent air which he manifested on Monday, and passed the day in smoking cigarettes, chatting and reading novels. Maxwell has proved himself such a consistent oddity that the police officers have begun to doubt his sanity.

—Grant's tomb will be strictly guarded. Already the mania for gathering relics has induced several persons to chip off pieces of it. One man was found snuggly ensconced behind the tomb ready to carve his name on the brick work. When the United States guard is withdrawn twelve policemen will be placed on duty to protect the tomb unless the military guard is continued by the State.

—General Armstrong, who recently investigated the Cheyenne and Arapahoe Indian agencies and whose report had much to do with the issuance of the proclamation ordering the settlement of that reservation, will soon proceed to the Apache agency for the purpose of making an enrollment of the Indians there and inquiring into and reporting the condition of affairs among the Apaches.

—The appearance of Sir Charles Dilke in the House of Commons was the signal for a storm from the Liberal members from the Tories. The Liberals were largely in the majority, and their cheers gradually drowned the voices of the Tories. The incident was somewhat significant as showing that the Liberals are determined to stand by Sir Charles and to condone his vices while he is under fire from a common enemy.

—Lord Salisbury has drafted the Queen's speech for the approaching Parliament. His aim is to make it a manifesto in favor of the Conservatives. The speech will refer to the revivification of Ireland without coercion, the successful issue of the Egyptian loan, the revival of peaceful relations and the friendly alliance with foreign powers, and the activity of legislation since the Tories came into office as matters of national congratulation.

—The epidemic in Portsmouth and vicinity, Pa., is caused by impure water and filth. In many places the atmosphere is filled with a steam, which at times is unbearable. The epidemic alone does not cause all the suffering. Owing to the slackness of work at the surrounding coals works, and the large number who were altogether out of employment, starvation stares many in the face. It is nothing unusual to hear children crying for bread. The head of one family started yesterday that he has been two weeks in his house to eat for two weeks but bread and water.

—An appropriation of \$100,000 was made at the last session of Congress for the transportation of about \$400,000 in gold coin from the sub-treasury at San Francisco to the sub-treasury at New York. Owing to the high rates asked by the express companies, the Secretary of the Treasury decided to transport the gold by registered mail, and so about \$100,000 have been transported in this way. The money was mailed in \$100,000 packages. In view, however, of the publicity which has been given to this method of transportation, it has been deemed best to suspend further shipments of the precious metals for the present.

—The terrible disaster in a Pennsylvania coal mine near Wilkesbarre, mentioned in our Dispatch's dispatches last night, could easily have been foreseen and prevented. The boss said that he notified the men before they entered the mine that the fan had stopped and that it was not safe for them to enter, as the mine was filling with gas. This is denied by the miners and laborers, who claim that the fan was broken, but would be repaired and put in working order in an hour. When they entered the mine everything appeared to be all right, and the disaster is considered terrible in its nature, and stands alone and unprecedented in the history of mining. The death roll is twelve.

—The Pacific Mail Company has not only refused to carry the Panama mails upon the terms proposed by the Department, but has attempted to embarrass the Government by preventing the carrying of mails on the other lines. The Atlas line offered to carry the mail to the West Indies refused by the Pacific Mail Steamship Company, but the Pacific Mail Steamship Company should not be carried by the Atlas line under the alleged agreement said to exist by which the Atlas line agreed to compete with the Pacific Mail.

—It would do, if it carried the mails as freight. This is taken as proof almost conclusive that the Pacific Mail is waiting to compel the Postmaster-General to discontinue the appropriation as it dictated, and that it was determined to prevent the mails being sent at all. As the mails were affected by steamers to Colon, and by rail and thence and reached their destination earlier than they would have done by steamer, it is not surprising that the Postmaster-General should have refused to accept them.

THROUGHOUT THE UNION

A Reported Chinese Leper Causes an Alarm in Chicago.

Peculiar Predicament of a Rochester Editor—More Wives Than He Wants.

The Reports on Western Union Lift the Stock a Point To-day.

A Chinese Scare in Chicago.

Chicago, August 12.—In regard to the Chinaman who arrived here from San Francisco, and who is supposed to be a leper, Dr. DeWolf, chief of the health department, said to-day he should have the case thoroughly investigated by Dr. Hyde, a well-known specialist on diseases of the skin. Dr. DeWolf is not inclined to believe his case one of leprosy, saying that every once in a while the report of a supposed case of leprosy comes to his office, only to find to be a case of some other disease.

"DEAD MEN TELL NO TALES."

But a Dead Woman Does, and the Insurance Companies Are Letting Her Tell.

PATRICKSON, N. J., August 11.—For two years past a family named Bauer, occupying a highly respectable position in society, resided at Hamilton, near Paterson, N. J. The Bauers had previously resided in New York City, and appeared to be people of wealth. Early in last June Mrs. Bauer was taken sick, and after ten days' illness, as certified by the attending physician of peritonitis, Mr. Bauer seemed to feel the loss of his wife deeply, and had an expensive funeral.

The total insurance on Mrs. Bauer's life was \$53,000. It is understood the Equitable Life Insurance Company paid the amounts of their policies before rumors of fraud got abroad. Officers of the Mutual Life Insurance company, learning of supposed foul play, after consulting with other companies, decided to refuse payment until a thorough investigation had been made. The theories advanced by them were that Mrs. Bauer had been poisoned, or that she had taken away and been buried in the cemetery. Arriving at the cemetery the body was exhumed, and the coffin opened. Upon being measured the body was found to be six inches shorter than Mrs. Bauer's height when she was alive. One of the physicians, who had examined Mrs. Bauer when she was sick, immediately telegraphed to New York, and Dr. Satterthwaite and Chessman, of New York, then opened the body and took out the intestines, which they examined and sealed up. They refused to give the result of the examination until they shall have made a more careful examination in New York, where the intestines have been sent. The body was placed again in the coffin and re-interred. Louis Bauer, the husband of the dead woman, to whom all policies are payable, carries on a real estate agency at No. 180 Broadway, New York.

A Surprise Party for an Editor.

ROCHESTER, N. Y., August 11.—A Hungarian lady, aged 45, appeared in this city three weeks ago, claiming that she was the wife of Edward H. Makk, L.L.D., editor and proprietor of the Rochester *Volks Blatt*, a gentleman of marked literary attainments and a fine linguist, who stands high in journalistic and German society. She said she was married to Makk in Chicago, about twenty years ago, and his name at that time was Edward Khenna. She lived with him, she states, for a period of about seven years, and she left him and came to this country. Dr. Makk has a wife with whom he has lived during his several years' residence here, and she is the daughter of a German nobleman. The story of the woman has created some interest in a scandal in German society. Makk to-day wrote a card to the press, asking that judgment in the matter be suspended until the woman shall bring an action in the courts, when he will show the falsity of her claims. He denounces the woman as a blackmailer.

Chicago Market Quotations.

CHICAGO, August 12.—Wheat ruled quiet, steady at early decline, and closed easy, $\frac{3}{4}$ ¢ lower than yesterday; 87 nominal August; 88 $\frac{1}{2}$ September; 90 October. Corn easy, $\frac{1}{4}$ ¢ August; 25 $\frac{1}{2}$ September; 25 $\frac{1}{2}$ October. Pork weak; closed 17 $\frac{1}{2}$ ¢/20 lower than yesterday; 97 $\frac{1}{2}$ August and September; 98 October. Lard weak; August, $\$6.27\frac{1}{2}$; September, $\$6.32\frac{1}{2}$; October, $\$6.37\frac{1}{2}$. Flax steady, $\$1.23\frac{1}{2}$. Whisky firm, $\$1.16$.

Greely May be Exempt.

WASHINGTON, August 12.—Three officers in the signal service, First Lieutenant A. W. Greely, Fifth Cavalry; First Lieutenant Robert Craig, Fourth Artillery, and First Lieutenant H. C. Hunwoody, are included in the provisions of the recent order directing a line of officers who have been on detached duty four years back to their regiments. An exception, however, will probably be made in the case of Lieutenant Greely, in order to allow him to complete his report on the Arctic expedition.

THE LUCK OF REV. COVERT.

What Think He Has a Valid Claim On a \$60,000 Estate—General Grant's Tomb May Be in Litigation.

PITTSBURGH, August 11.—Rev. R. W. Covert, of this city, pastor of the Church of God, will leave for New York on Thursday, for the purpose of commencing proceedings looking to the recovery of Harlem commons in that city. He says he has discovered facts which show that the Covert family are the rightful heirs, and he is satisfied their claims will be established.

The property is valued at \$60,000,000, which if the claims are established, will be divided among about one hundred members of the family. The estate embraces the resting place of General Grant, but this would not under any circumstances be disturbed. The Harlem Commons syndicate lately formed are the heirs of the original patentees who preceded the late Covert.

General Covert is its president. It is claimed that documents exist in Albany to prove that a patent was made in five Hollanders of 10,000 acres in Harlem, in May, 1696, by Governor Nichols, and reaffirmed twenty years later by Governor Donegan. The title passed to Lake Covert, and never went out of the Covert family, and never was transferred or annulled.

A Newcastle, Penn., special says: About forty alleged heirs assembled in this city recently to consider the advisability of prosecuting their claims to the property. The meeting was presided over by John N. Emery, who is a grandson of Lake Covert. Emery stated that in his opinion the title of General Grant's tomb does not belong to the heirs. They cannot establish any claim to it, as the ward sent at all. As the mails were affected by steamers to Colon, and by rail and thence and reached their destination earlier than they would have done by steamer, it is not surprising that the Postmaster-General should have refused to accept them.

Midsummer Melodies.

LOVE'S YOUNG DREAM.
Now the youth and gentle maiden, who are dreaming love's young dream. Think that life is naught but sunshine, caramels and lemon cream.

THE PLUMBER'S RIVAL.
Now the druggist's face is beaming, as the nickel to him passes. And he thinks there's fun in selling froth at half a dime a glass.

IT'S IN SEASON AGAIN.
Now the green cucumber cometh for season brief to stay. And the doctors are preparing remedies for cholera.

UNDER FOREIGN SKIES.

Strong Indications that England and Russia Are Preparing for the Inevitable Struggle.

Cholera Cleaning Out the Spaniards at the Rate of 1,600 a Day.

The "Pall Mall Gazette" Gives to the Public Another Seduction Story.

Thanks to the Soudan Soldiers.

London, August 12.—In the House of Lords this afternoon the Marquis of Salisbury, in moving a vote of thanks to the army and navy for their recent services in Egypt, paid a strong tribute to Wolsley and General Graham; and the other officers, soldiers and marines who took part in the Khartoum expedition, for their valor, perseverance and the high spirit they displayed in the arduous work of the desert campaigns. The Prime Minister praised in unmeasured terms the valor and devotion of General Gordon and of Generals Earl and Stewart and other officers and men who lost their lives during the Soudan war, and fittingly expressed condolence with their relatives and friends.

Baron Carrington, moderate Liberal, warmly seconded the motion, which was adopted. It was noteworthy that not a single Liberal leader was present in the House of Lords during the above proceedings. Their absence was much remarked, and considered as a demonstration against the motion.

Sir Michael Hicks-Beach, Chancellor of the Exchequer, made a similar motion in the Commons.

The Active Russian.

London, August 12.—A dispatch received this afternoon from Shanghai confirms the recent report to the effect that the Russians had occupied the island of Quelpoet, to the south of the Korean peninsula, and some forty miles to the northeast of Port Hamilton, recently reported occupied by England. Russian troops are erecting formidable forts on the island, and otherwise adding to its defensive arrangement. The news caused little or no excitement in official circles here, as Quelpoet has not a single harbor. Its coasts are exposed to the full blasts of the monsoon, and being high and rocky are exceedingly dangerous to navigation.

Careless Cholera Inspectors.

MARSEILLES, August 12.—The cholera panic has increased. The daily average departures from Marseilles by the railway alone has already increased 2,000 per day. As an instance of the laxness with which the Marseilles sanitary officials perform their duties, the case of the captain of an English vessel lying in this port may be mentioned. The captain's daughter died of cholera aboard ship. He at once notified the authorities and requested a disinfection of the vessel. Although the vessel to-day thirty hours had elapsed since the girl's death, no official action has yet been taken concerning the event by the authorities.

Talking to the Telegraphers.

BELLS, August 12.—The American delegate to the International Telegraph Congress yesterday made an eloquent speech in favor of Bismarck's proposal to establish an international tariff of four or five cents a word for messages to and from any point in Europe. The fact, however, that the committee on tariffs has elected as chairman the Austrian delegate, who is opposed to the plan, and that in England opposition to it is increasing, indicates that the scheme will be rejected.

Taking Care of the Emperors.

VIENNA, August 12.—Most of orders issued to officials of the Northern Railway concerning their conduct during the Imperial journey to Kemsler to meet the Czar of Russia have been issued. Among other precautions ordered for the Emperor's safety is commanding a line of guards to be posted along the entire route a distance of fifty miles from one another.

China Willing to Keep the Peace.

PARIS, August 12.—A translation of the memorial sent by the Prime Minister of China to the Empress respecting the treaty of peace recently concluded between France and China shows that the Chinese Premier desires to remain at peace and to profit by it in opening up the southern frontier of the Empire to the outside trade.

French Revenue from Sugar.

PARIS, August 12.—French revenue returns for the past seven months, just made public, show that recent prospective legislation has failed to exclude foreign sugars. The returns say that the home product contributed in value a sum of \$4,000,000 below the budget estimate, while foreign sugars yielded \$6,300,000 over estimates.

What Will It End In?

MERSEY, August 12.—Persian contractors from Merseby state that two Persians in the Russian service, accompanied by several Afghans, have gone to Herat to confer with Ayub Khan's partisans, and to report upon the state of the country. Konaroff frequently passes to and fro between Penjdeh and Merseby. Active military preparations continue.

A Cloud of War Looming Up.

PARIS, August 12.—The *Republique Francaise* maintains that an Anglo-Chinese alliance, offensive and defensive against Russia, has been perfected. The journal contends that if England concludes a similar alliance with Turkey, war with Russia will be imminent.

A Conference Before the Emperors.

ST. PETERSBURG, August 12.—All the Russian ministers in the Balkan States have been summoned to St. Petersburg to confer with the government, previous to the coming meeting between the Czar and the Emperor of Austria.

Strong Indications that England and Russia Are Preparing for the Inevitable Struggle.

Cholera Cleaning Out the Spaniards at the Rate of 1,600 a Day.

The "Pall Mall Gazette" Gives to the Public Another Seduction Story.

Thanks to the Soudan Soldiers.

London, August 12.—In the House of Lords this afternoon the Marquis of Salisbury, in moving a vote of thanks to the army and navy for their recent services in Egypt, paid a strong tribute to Wolsley and General Graham; and the other officers, soldiers and marines who took part in the Khartoum expedition, for their valor, perseverance and the high spirit they displayed in the arduous work of the desert campaigns.
