1880. THE PEOPLE'S PAPER. HERALD.

SALT LAKE DAILY HERALD.

The HERALD enters upon the new year with better hopes and brighter prospects than it ever before enjoyed. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convince the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economical administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the many details of the establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE SEMI-WEEKLY HERALD

This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the west for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The price is certainly not met with unexpectedly high labor at the hands of the people. It is proposed to make it even more popular than in the past by reducing the price to \$5.50 per annum, making it the cheapest semi-weekly paper in the west. The reduction in price does not imply a lessening of the quantity of matter published. Its columns will continue full of news and choice literature.

SALT LAKE WEEKLY HERALD.

About the 1st of March, we will begin the publication of a Weekly Edition of the HERALD. The demand for such a paper has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail service often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for sending abroad—a paper that shall faithfully and honestly represent this great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family circle, one that shall contain the news, and at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit, to all members of the family. Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral light literature. Nothing will be admitted to its columns that has not first been carefully prepared and revised. The price will be only \$2 a year, a figure unprecedentedly low for a far west newspaper. We confidently predict for the WEEKLY HERALD one of the greatest successes, and the efforts of the publishers shall be to make the paper merit the popularity that it cannot fail to attain.

RATES OF SUBSCRIPTION

1880. TELEGRAPHIC THE FOREIGN BUDGET

Miscellaneous Matter in the Old World.

Paris, 14.—Bismarck, Bismarck and Ledebur, the two presidents of the Chamber of Deputies, have been re-elected. London, 14.—A St. Petersburg correspondent believes that Prince Lobanoff will go to London, via Berlin, and take with him a letter for the Emperor. A Berlin correspondent announces that Prince Hohenlohe will visit Berlin shortly to report his views regarding the ministerial changes in France; also that Russia has decidedly declared that the concentration of her troops in Poland need not alarm Germany. A dispatch from Alexandria reports that General Gordon has started for Europe. A Vienna correspondent says he learns from a confidential source that Count Schouvaloff's prospects of obtaining a position in which he would be able to exercise great influence upon the foreign policy of Austria are improving. The peace party at St. Petersburg now preponderates in consequence of the nature of communications from diplomatic representatives abroad. Extensive strikes of cotton operatives at Bolton, Lancashire, and Lyons are imminent in consequence of masters refusing an increase of 10 per cent of wages. A Berlin correspondent states that an expedition is preparing at Candahar for movements against Ghazni and Herat. Bullion withdrawn from the Bank of England, on balance, to-day, £50,000. Madrid, 14.—Members of the minority who are favoring the policy of moderation, say if a stringent statute declaring their seats vacant be sanctioned, they will not have re-election. Premier Castelar del Caceres is advised by most of the conservatives to dissolve the Cortes if the minority in the chambers persist in their policy of moderation. Cautious, 14.—In consequence of first gatherings of Kohistan, near Lundri, Kotal and Dakka, those stations have been closed in view to immediate offensive operations.

THE UTES

Ouray Falls a Conundrum to Schurz.

Washington, 13.—Ouray had a talk with Schurz to-day, during which he expressed a desire to have the present troubles ended as soon as possible. When Schurz laid down as a condition of peace the necessity of Ouray's resignation, the Ute chief replied: "That is a very funny thing to ask of me. How can I give them up? Why do you hold me responsible for what these men did? We are Ute men, they are White River Utes and not under my immediate control. If a murder were committed here in Washington would your authorities make the whole population suffer for it?" New York, 14.—A Washington special to the Evening Post says: For obvious reasons Secretary Schurz desires to conduct the negotiations with Ouray on a band of southern Ute chiefs with as little publicity as possible. In general it may be said that he has taken very firm and radical ground. His world position is that the murderers of the people at the agency must be discovered and surrendered, and that the Utes must consent for reasonable equivalent to leave Colorado. The Indians are disposed to yield to these demands. Schurz feels sanguine that the negotiations will be brought to a successful termination on the basis stated.

FROM MAINE.

The Parties Still Confine Themselves to Talk.

Augusta, Me., 14.—On the assembling of the house the first business was the appointment of the following committee on election: Deary, of Fort Kent; Robinson, of Thomaston; Young, of Brunswick; Heard, of Biddeford; Hill, of Eastern Swan; and King, of Gorham; Waldoboro. The committee immediately retired to perform their duties. It is reported that Hild, of Ellsworth, and Butler, of Vassboro, are to be nominated and fusion members take their place; also that a fusion member from Lewiston will be admitted. Fusionists say if Smith is chosen governor to-day, they will have a meeting of rejecting to-night, ring bells and burn tarboards. Senator Rogers, of Passadum, says a crash is coming between the governor and the fusionists. The election committee voted, 3 to 2, to meet to-day. Bangor, Me., 14.—Statements of facts and questions were submitted to-day to the supreme court of Maine by the republican legislature, for a decision.

The Border Indians

San Francisco, 14.—A Tucson dispatch: General Sherman's expedition, East Bolivia, January 12th, that General Trevino, with several hundred Mexican troops, is pushing Victoria's band of hostiles northwestward. On the 2nd instant, prospectors in Florida Mountains were surprised by thirty Indians. One was killed, two wounded, and the stock captured. On the 10th instant, fifty-five Indians were near McEwan's ranch going towards the Black Range. The men were armed with rifles. The governor of Chihuahua, telegraphs that about 100 Indians, with families, have gone north after committing great depredations.

The Fire Record.

Augusta, Ga., 13.—The Augusta factory warehouse burned to-night, with 1,500 barrels of cotton. Loss, \$50,000; insurance, \$50,000. Philadelphia, 14.—J. J. Plucker & Co.'s furniture factory at Canal and Portland streets, and the storehouse of Buckley's, were burned to-night. Plucker's loss, \$45,000; insurance, \$20,000. New York, 14.—The fur dressing factory of Mason & Kalin, Brooklyn, burned this morning. District Engineer George A. Frost, William Baldwin, Gustav Fost, and John W. Ralph and George Keyser, firemen were more or less severely injured by a falling wall.

Mad Iowans.

Des Moines, 14.—In the house this morning, Clayton introduced a concurrent resolution, which was adopted by a full vote, deprecating the present attempt in Maine by Governor Gordon and the council to thwart the will of the people, condemning the bold attempt to subvert the expressed wishes of the majority of the legal voters of the state of Maine as extremely dangerous to a republican form of government and revolutionary in character.

Germany in the Pacific.

Berlin, 13.—A German consul general has been appointed at Sydney, at a salary of 20,000 marks. A consul has also been appointed at Samoa. The North German Gazette announces that adequate security against piracy in Samoa has been guaranteed by Germany, England and the United States jointly recognizing and supporting King Mahalo.

A Flood.

St. Thomas, 13.—News is just arrived of terrible floods on the island of St. Kitts, by which 200 lives have been lost, property to the extent of \$250,000 destroyed and the whole island wasted.

WASHINGTON. The Committee at Work—Bayard's Legal Tender Resolution Gave Up.

Washington, 14.—The House committee on coinage, weights and measures, in full meeting this morning, took action upon several bills referred to them. The bill introduced by Representative Weaver, of Iowa, was discussed at length, and in an amended form agreed upon, and the chairman was instructed to report it to the House and urge its passage. It was also agreed to report adversely on the bill introduced by Representative Jones, fixing the denominations and standard weight in grains of gold and silver coins, to be used by the government. Vice President Wheeler, members of the cabinet, Speaker Randall and a large number of congressmen have signed a call for an Irish relief mass meeting.

The Irish Relief.

London, 14.—A Dublin correspondent of the Times says: The presence in London of the Duke of Marlborough, Lord Lieutenant of Ireland, and Right Hon. James Lowe, chief secretary of Ireland, will afford government a seasonable opportunity for consulting with them on the present condition of the country, and it is to be hoped that the result of the consultation will be the adoption of such measures as will effectually preserve peace, which is now very seriously threatened. The danger at present is limited to the west, whereas there is constant apprehension of a sanguinary conflict. A Dublin correspondent says: It is now thought certain that government intend to proceed with the trial of Davitt, Daly, Killen and Brennan for sedition.

A Dead Duke.

Wiesbaden, 14.—Frederick, Duke of Schleswig-Holstein, died here to-day, suddenly, aged 61. He was chief of the younger branch of his family, in consequence of the renunciation of his father. He was major-general of the Bavarian army, and was married in 1859 to the Duchess Adelaide, daughter of the late Ernest, Prince of Hohenzollern, Sangerboing.
