

SALT LAKE DAILY HERALD

FRIDAY MORNING, JAN. 30, 1880.

THE DAILY HERALD is published every morning, Mondays excepted, at Temple street, near First South, Salt Lake City, by the HERALD PUBLISHING COMPANY. Subscription price \$10.00 per annum in advance. Single copies five cents. The weekly subscribers, collection made by carriers, twenty-five cents a week.

THE SEMI-WEEKLY HERALD is published every Wednesday and Saturday morning, at \$10.00 a year, postage included. Single copies five cents.

In London, on Thursday, the silver was quoted at 52 9-16d per ounce.

The New Northwest, Deer Lodge, Mo. T. Another Governor is placed on the gubernatorial rack of Utah. Spaulding, the glue man, is the only one who would "stick" there. Murray is known as the handsome man in Kentucky. It seems to be the purpose to "mash" Mormonism.

The Philadelphia Times: President Hayes promised the Governorship of Utah to three different men, but when he came to look into the matter he found that he couldn't appoint more than one. He therefore picked out the only applicant for the place who had not been promised it, and has sustained his well-worn reputation for going back on his promise.

The former members of the Maine legislature, who have been walking about the streets of Augusta for two or three weeks with their hands in their pockets, and kicking stone walls and lamp posts to keep up the circulation of blood in their extremities, are now sneaking into the state house to get warm. They are a tumble lot of fellows.

In the court place, the Good Book teaches that "He that loveth his brother abideth in the light, and in darkness." Also "He who loveth God love his brother also." Fourthly, "Behold, how good and how pleasant it is for brethren to dwell together in unity. It is like the precious ointment upon the head, that ran down upon the beard, even Aaron's beard; that went down to the skirts of his garments." Fifthly, "They are all hot as an oven, and have devoured their judges." Sixthly, "Speak not evil one of another, brethren. He that speaketh evil of his brother, and judgeth his brother, speaketh evil of the law, and judgeth the law." Now brethren, fix that quarrel and be at peace again.

THE MORMON-UTE STORY.

During one of the recent conferences in Washington between Schurz and others of the interior department, and Orsay and the other Ute chiefs, Orsay was questioned as to what information he had of the Mormons being in any degree responsible for the troubles. The old chief replied that he had no information that was trustworthy. Somebody else had told somebody else—but he knows neither of the parties—but a man had gone down among the White River Utes and said that he was a Mormon; that the United States government was moving troops on the Uintah Reservation, and that General Merritt was going to advance upon and capture them and make them leave the reservation. Orsay said the person who started this story, when he reached General Merritt's command, said he assumed the role of Mormon simply to get out of the Indian country, as he had heard that the Indians were not friendly with the Mormons. This was the origin of the story that the Mormons had incited the Utes to rebellion and were responsible for it. No other evidence could be adduced implicating the people of this territory in the outbreak. The wily chief, knowing the bad color in which the Mormons were held, sought to turn it to advantage for his tribe. If he could get the Mormons into trouble, a certain degree of the responsibility for the outrages would be taken from the Indians.

MISAPPLIED GRAMMAR.

The New York papers are furious in their denunciations of the keeper of the "Shepherd's Fold," a charitable institution for the care of children of tender age. The little waifs have been starved and otherwise grossly abused, while the manager of the place, a clergyman, has been reveling in wealth and luxury, the proceeds of the charitable contributions to his infamous institution. The exposure came through one of the children being sent to St. Luke's Hospital, where its life was saved only by the greatest care on the part of the physicians and nurse. The society for the prevention of cruelty to children interfered, and the court gave it charge of the half-famished little unfortunate devoured most ravenously.

Two years ago the inhuman wretch in clerical garb who has been making money by starving children placed under his care, was turned out of a similar position on affidavits showing him to be grossly unfit for the place; yet he seems to have had no trouble in organizing another "charity," with himself as manager. It shows that the duty of the public is not alone to give, but to give wisely and supervise the manner in which contributions are expended. In this instance charity has worked great injustice, simply because the generous-hearted trusted too much to the honesty of a scoundrel.

Rev. Adolph Butler, a very prominent German, died of heart disease at St. Charles, Mo., on Wednesday night, aged 62. He was a classmate of Bismarck, and immigrated to this country when a young man.

REGULAR SESSION.

SENATE.

Washington, 29.—In the investigation, to-day, it was ascertained that Hayt had withheld from the interior department information which the department ought to have had. On the other hand, it is quite as positively stated, by the same writer, that while facts developed in the recent investigation may not have been regarded as sufficient ground on which to remove Hayt, they were of a most damaging character, and had Secretary Schurz been fully apprised of the charges of a still more serious nature would have been preferred. The treasury department purchased, to-day, 615,000 ounces of fine silver for the mints of Philadelphia, New Orleans and San Francisco. The excess of exports over imports, for the twelve months ended December 31st, aggregated \$215,350,477. The secretary of the interior has prepared a report upon the bill recently introduced in the Senate by Senator Tilden of Colorado, to indemnify that state for the loss of certain sections of lands which were granted to it by the general government for school purposes, but which have since been found to be mineral lands. This bill proposes to allow the state to select other sections of land in the place of those which it has been deprived. The secretary of the interior says that, in order to indemnify the state, some legislation is necessary and he further recommends that some time be fixed by law after which the lands granted shall pass into the possession of the state unconditionally. Congressman Page, of California, appeared to-day before the committee of postoffice officials, of which Third Assistant Postmaster General Hazen is chairman, for the purpose of stating his views with regard to the change recently referred to that committee, to the effect that Wells, Fargo & Co. are violating law by operating an independent mail-carrier system in California and some adjacent states and territories. Page expressed the opinion that the increased facilities for communication afforded by the enterprise of Wells, Fargo & Co. were a benefit to the communities which the latter served, and that the people should not be deprived of them. He believed, however, proper checks should be provided so that mails could not be carried to the detriment of the government service at lower rates than those fixed by the postal regulations. The delegates from Idaho and Arizona were present, but did not speak. The opinion of the postal officials seemed to be that the service is legitimate, and that so long as it is carried on under the provisions of the laws, and in small facilities have not been developed, government should not interfere.

Foreign.

Naples, 29.—The Americans arrested here on a charge of a robbery committed in Brussels, will be surrendered to Belgium as soon as the American government announces their intention to object to the extradition. Rome, 29.—In view of the critical position of Italian interests in South America, government will send out two men-of-war for their protection. The consul general at Rio de Janeiro, Mr. Durbach, has received a statement, that the fund which bears his name only relieves tenants who have paid their rent and that its promoters have political objects, as a gross falsehood. The Gazette de St. Petersburg does not consider that the German army bill implies a departure from a peaceful policy. The Moscow Gazette and Neue Freie Presse think the bill is exclusively directed against France. The Gazette de St. Petersburg believes that Russia alone is menaced, while the Gales holds that Poland is the bone of contention. Dublin, 29.—The total subscription to the Mansion House fund amounts to £1,000. Forty-nine grants, amounting to £1,800, were made to-day. The distress is on the increase. A fire broke out in a biscuit factory here, to-night, and is raging violently. The flames are spreading rapidly, and the damage already sustained is £50,000. Cabul, 29.—The ex-governor of Jellalabad is now within one day's march of Ghuznee with a number of guns and some sepoy, and has announced his intention of attacking the British. Berlin, 29.—Russian papers announce that Tergiasoff has gone to Berlin to participate in the council of war to decide whether the Turcoman campaign will be of a defensive or offensive character.

For a Monument to Tom Paine

Chicago, 29.—The new Music Hall was crowded to-night, and the audience having assembled to hear Colonel Robert G. Ingersoll's lecture on Thomas Paine, his life and services to his country. Ingersoll touched briefly on the theological side of Paine's character, and dealt for nearly two hours on his distinguished abilities and patriotism as displayed during our troubles with France. The proceeds of the lecture, which are to be applied to a monument to Paine, are about \$1,500, besides which a subscription was taken for the same object. The monument will be placed in one of the parks.

Thinner and Thinner.

Augusta, 29.—The finance committee began to-day the examination of the treasurer's accounts. The present State Treasurer White will oppose no obstacles, but will turn over his books and accounts to the new treasurer, H. H. Baker, died at St. Charles, Mo., Wednesday night, of heart disease, aged 62. He was a classmate and a great admirer of Prince Bismarck, and came to this country when quite a young man.

After the Duellists.

New Orleans, 29.—The district attorney to-day filed information against the principals and seconds of the Burke-Healey duel. The principals were fined \$500 each, and the seconds \$250 each. The penalty under law for fighting a duel, is \$200 fine, and imprisonment for two years. The second, \$10 fine, and imprisonment for one year.

Just Received.—The new style "Bon Ton" Vending Cards, gilt edged, in neat cases. Call and see them; they are tasty and cheap.

IT IS TRULY WONDERFUL

To see what improvements now exist as compared with railway travel only a few years ago. To become convinced of this, one has only to get on to the North-East, the popular and well-known CHICAGO & NORTHWESTERN RAILWAY. You are landed by the Union Pacific Railroad in the Union Depot at Council Bluffs, where stands the C. & N. W. Palace Train, composed of Pullman Hotel Cars, Pullman Sleeping Cars, Elegant Day Coaches, Smoking, Baggage, Postal Cars, etc., ready to convey its passengers through Iowa and Illinois, and into Chicago. Gliding smoothly along over the superb track of steel rail through thriving cities and villages, comfortably seated in this train, one scarcely discovers the high rate of speed which he is riding. Trains of this road are always on time, connections sure, and passengers seeking pleasure, comfort, safety and ease in traveling, will find the North-East the best of their expectations, and the greatest of all routes to Chicago and the East. Insist upon Ticket Agents selling you Tickets via this Road; all Agents sell them. Examine your Tickets, and refuse to buy if they do not read over this Road. If you wish the Best Traveling Accommodations, you will buy your Tickets by this Route, AND WILL TAKE NO OTHER.

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause. Death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every-day life we are apt to overlook the dangers attending it, and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while the Bausche's German Syrup has been taken, a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs Bausche's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 20,000 bottles have been sold without a single failure to cure.
