

SALT LAKE DAILY HERALD

WEDNESDAY MORNING, APRIL 14, 1886.

THE DAILY HERALD is published every morning, Mondays excepted, at East Temple Street, near First South, Salt Lake City, by the HERALD PUBLISHING AND PRINTING COMPANY. Subscription price \$10.00 per annum, postage included, in advance.

THE SEMI-WEEKLY HERALD is published every Wednesday and Saturday morning, at \$3.50 a year, six months, \$1.75, postage included.

THE WEEKLY HERALD is published every Thursday morning, at \$2 a year, six months, \$1.25, postage included. Postage outside the U.S. and Canada, extra.

AN ENTERPRISING COMPANY.

The people of Draperville and the surrounding country are entitled to more praise for enterprises than is usually accorded to their fellow men. They are now engaged in digging a canal for conveying water from the Jordan, across the bench to Little Cottonwood, a distance of sixteen or eighteen miles. We do not know the exact history of the enterprise nor the time that has been employed in its prosecution, but we do know the undertaking is one of the great ones that a small community of poor farmers has ever entered upon in this or any other country. Perhaps \$50,000 in labor has already been expended in the ditch, and the work is a long way from completion. Those interested in the enterprise assume with a degree of confidence in their sturdy ability to accomplish great things that is characteristic and indicative to mightier efforts, that the canal will be completed the present season; but we fear otherwise. The community is too small to carry the load except they take it by degrees. Less enterprising men would have become disheartened and abandoned the work long ago, while ordinary people with so little else than their own hands as resources, would not undertake such a task. It shows what men, desperate in their needs for water, will do, and how they will suffer and struggle to create homes and obtain a livelihood. These hardy tillers of the soil in the southeastern quarter of the valley have set a worthy example to the people of Salt Lake City. The Draper Canal can cost little, if any, less than the ditch being dug between this city and the Point of the Mountain; yet the former is being constructed by comparatively few persons, the large majority of them so poor in this world's goods that they are compelled to labor incessantly in order to keep the domestic pot boiling and "make ends meet." Here the twenty-five thousand inhabitants came near being frightened out of their wits at the thought of carrying a load about one-twentieth part in weight of that the Draper people, as individuals, have willingly and cheerfully shouldered. Our southern neighbors must be made of the sterner stuff. The Draper Canal will bring several thousand acres of land under cultivation, and redeem from its present desolate and barren condition a large section of waste country between Cottonwood and the Point of the Mountain. While it must prove profitable to those directly interested in it, the value to the whole county will be great.

THE CENSUS ACT.

The Senate bill amending the census act has been passed by the House of Representatives, and is now a law. It provides that all mail matter relative to the census, and addressed to the superintendent, his chief clerk, supervisors or enumerators, and marked "Official Business, Department of the Interior, Census Office," shall be carried in the mails free of postage; however, a fine of \$300 is provided for a person convicted of marking an envelope or package as above as to avoid payment of postage on private mail matter. The new law strikes from the census act schedules the inquiry as to naturalization of foreign-born persons and the ownership of the public debt of the United States. Railroad companies, incorporated express companies, telegraph and insurance companies may make their returns for the fiscal year of the corporation or company having its termination nearest to the 1st of June, 1886, instead of for the year ending June 1st, as provided in the old law. The enumeration of population must begin on June 1st, and in cities having over 10,000 inhabitants, shall be concluded within two weeks. The supervisor is authorized, in case it shall occur on any enumeration district that no person qualified to perform and willing to undertake the duties of enumerator resides in the district, to appoint any fit person resident in the county to be enumerator of that district. After completing the enumeration of the population of the district, and before forwarding the same to the supervisor, the enumerator must file in the office of the clerk of the County Court, or in the office of the court or board administering the affairs of the county, a list of names, with age, sex and color, of all persons enumerated by him, for which he shall be paid 10c. for each 100 names. The time given enumerators is extended fifteen days, and to compensate them for additional services required, the sum of \$850,000 is appropriated. The work will begin six weeks from next Tuesday, at which time everybody should be prepared to answer a long list of questions.

BRIEF TELEGRAMS.

It is denied that the Chinese have crossed the Amoor. The negro exodus committee is still holding forth at the capital. Morrison has voted, in the committee on ways and means, against Garfield's "Hoop Iron" bill, making the vote stand 6 to 9, and defeating it.

LATEST TELEGRAMS.

REGULAR SESSION.

SENATE.

Washington, 13.—Bayard reported from the finance committee with amendments the Senate bill for the commission on tariffs. Calendar.

The commission consist of nine members appointed from civil life by the President, with the advice of the Senate, the President to be the first; Bayard, \$10 per day and actual expenses. The commission shall consider all classes of questions involved necessary to establish a judicious tariff, in justice to all interests; it may visit all parts of the country and report to Congress from time to time, and report finally not later than December, 1881.

Slater introduced a bill for the government unsecured lands, including the grant made to the Oregon Central Railroad Company, by an act of May 4th, '70, and for other purposes. Referred to the committee on judiciary, which has charge of all bills to forfeit railroad grants.

A joint resolution legalizing the health ordinances of the District of Columbia was taken up and passed 40 to 5.

Consideration of the Geneva award bill was resumed, and Davis, of Illinois, addressed the Senate. He expressed surprise that Hoar should deny that drafters are entitled to an abrogation of the rights of the insured owners of vessels destroyed by incipient cruisers. He declared England failed in her duty, and we might have declared war, but according to the enlightened spirit of the age we submitted our disagreements to arbitration, and are bound by the letter and spirit of the result. We have no right to divert the award claims which were rejected, viz. all vessels destroyed by incipient cruisers. Our obligation on this point is solely a moral one, because the United States is not liable to suit.

Hayard supported the bill. Hoar and Carpenter engaged in an amusing colloquy.

Pending debate the Senate adjourned.

HOUSE.

Washington, 13.—The army bill was taken up and Ewing addressed the House.

Ewing was surprised that the democrats were opposed to debating this question, for the republicans, at the extra session, had voted for this very amendment, which was a republican amendment. During twelve years the republican party had exercised the appropriate and proper political rights. Although not much in favor of it, he did not tremble lest the republicans should arrange the democrats this fall for doing the same.

He proceeded to vindicate the character and purposes of the various riders put on bills by the democrats as unconstitutionally, economically and necessary. He asserted that Robeson's state had, on its status books, a provision in exactly the same words as this amendment, which Robeson characterized as a severity. Another rider might not be so "goodly" as President Hayes and might use troops at the polls. He might be a man of ambition; might be General Grant. (The republicans slightly applauded and cried of "it will.") The gentleman from Iowa (McCord) had stated that American troops at American polls had no alarm for him. He would be satisfied of the other side if it could calmly enter such a measure and sentiment as that. If liberty was so unprotected he would pray for a return to the wooden plow and the hewed log cabins of our liberty-loving sires.

After some further incidents and discussion, the question recurred on the bill and the amendments. Minor amendments were adopted and that respecting troops at the polls, by a strict party vote—116 to 95. The bill then passed—136 to 95—strict party vote, except Nichols, who voted nay.

The conference report on the census bill was agreed to.

Wells, from the appropriation committee, reported the Indian appropriation bill, which was read to the committee of the whole.

Evening session for consideration of the pension bills.

FOREIGN.

St. Petersburg, 13.—A Paris correspondent of the Novec Telegrams reports an interview with King Koo Tze, Chinese ambassador to France, who declares that it was the design of China to avoid a war with Russia at any price. The Agency Bureau says it received similar information, and does not doubt that King Koo Tze will be received and honored at the Russian court with the deference due his rank and good intentions.

London, 13.—Wm. H. Gladstone, son of Wm. E. Gladstone, has been elected to Parliament for Worcester-shire East. John O'Connor Power and Charles Stewart Parnell (home-rulers) are elected for the County Mayo. Power received 1,320 votes and Parnell 1,218. George E. Brown, liberal, who ran for Mayo in the last house, and who also ran at this election, was defeated receiving 655 votes.

Stockholm, 13.—The second chamber of the Swedish parliament rejected the army bill and the ministry resigned. The King charged Count Orvid with the duty of forming another cabinet.

Penitentiary Break. Cheyenne, Wyo., 13.—The leader has the following special from Laramie City: An extensive delivery from the penitentiary took place on Wednesday last. The affair was kept quiet by Warden Horne, who hoped to capture the prisoners, and place them back in the penitentiary. Warden Horne armed and mounted several short-term convicts and sent them after the fugitives. The search proved fruitless. The escaped are the notorious road agents and murderers, "The Kid," Buffalo Sam, Hamilton Taylor and Wither.

Handsome Crews. Washington, 13.—The Crews, in full dress, paid their respects to the secretary of the Interior, this morning, and received a very flattering ovation from the clerks of the department. These Indians are universally pronounced to be the finest specimens of the race yet seen in Washington. One of them stands six feet four inches in his moccasins and weighs 260 pounds. Each chief wears a magnificent war shirt of buckskin, finely embroidered, beaded and adorned with many white wessel tails.

Lost. London, 13.—The Spanish steamer Vizcaya, Captain Echeverria, from New Orleans, March 23d, for Antwerp, via Halifax, has been lost in the ice off New Foundland. The crew landed in the island of Spitz.

WASHINGTON.

Washington, 13.—The sub committee of the House committee on public buildings, to-day, recommend a bill for the erection of a court house and postoffice at San Francisco, to cost \$200,000.

The report published in the Washington Star, yesterday, that Senator Grover is suffering from paralysis and dangerously ill at Wilmington, Del., is a-day contradicted by his intimate friends in this city. Letters received by one of them and by Senator Grover's brother-in-law, during the past few days, written by the senator himself, report his health as improving.

Secretary Schurz, to-day, advised Commissioner Williamson's decision in the land case of Dallas v. Hawley, of San Francisco District, and awards the land to Dallas. The patent will be issued accordingly.

Senator Blaine, to-day, introduced, by request, a bill to restore to the public domain, the unleased portion of the Oregon Central Railroad Company's land grant. This is the portion which lies between Astoria and McMinnville. The bill provides for granting the right of way to the Astoria and Winesburg Railroad Company, for the entire line from Astoria via McMinnville, through the Willamette Valley and southeastern Oregon, to Winesburg, Nevada, and proposes to pay that company \$1 per acre for all lands hereafter disposed of by government, in even sections within the tract bounded east and north by the Willamette and Columbia Rivers, and south by the Pacific Ocean and south by the base line, passing through Portland. Payments are to be made as fast as the railroad, in sections of twenty miles each, is completed. The lands are to be subject to ordinary homestead and preemption entry, and also to private cash entry, at \$2.50 per acre, in quantities not exceeding 160 acres to any one person, except the mountainous and timber lands, of which 320 acres may be purchased.

Reconstruction Impossible. This may not be true as regards states—indeed we know it is not; but it is absolutely true as regards those disintegrated organs, the human lungs. When they are diseased and partly consumed, they cannot be restored to a healthy condition. But bear in mind that this misfortune can never happen if HALL'S HOSEY OF HONOROUS AND TAIL IS administered as a remedy for the Cough which always precedes Pulmonary Consumption. Sold by druggists everywhere at 50c. and \$1. Great saving to get the large size.

Joseph O'Brien, Auburn, N. Y., writes: "HALL'S HOSEY OF HONOROUS AND TAIL AND PIKE'S FOOT-ACHE DROPS sell well."

PIKE'S TOOTHACHE DROPS CURE IN ONE MINUTE.

Why Will You Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhage and Lung troubles, when an immediate relief can be so readily attained. Boschee's German Syrup has gained the largest sale in the world for the cure of Coughs, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unappreciated. Since first introduced there has been a constant increasing demand, and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it, and be convinced.

THE CROWN SEWING MACHINE.

A combination of all the advantages to be found in the whole array of Machines, and without the defects of any of them.
